

# Full Group Care Formulary

September 2021

Alameda Alliance for Health

# Group Care FORMULARY

*Last updated  
September 1, 2021*

The **Drug Formulary** is a complete list of covered and preferred outpatient prescription drugs for members. The Alliance reviews the list at least four times a year (formulary updates can be found on the Alliance website) and makes updates as needed. This printable list may not reflect the latest updates. Members can search the current list online at [www.alamedaalliance.org](http://www.alamedaalliance.org) or simply call the Alliance Customer Service Department (number listed below) to confirm if a drug is covered. The formulary is subject to change and all previous versions of the formulary are no longer in effect. This printable formulary can also be found on our website: <https://alamedaalliance.org/members/pharmacy-and-medication-benefits/medication-formulary/>

***Members please call Member Services at (877) 932-2738. Open Monday to Friday from 8am – 5pm PST (Pacific Standard Time).***

## HOW TO USE THE DRUG FORMULARY

To find a drug on the list, search first for what the drug will treat. All drugs are then listed by their generic and brand names in their therapeutic category, class and in alphabetical order. Any drug not found in this Formulary by looking up the therapeutic category and class, brand or generic names then list is a Non-Formulary drug. If a generic equivalent for a brand name drug is not available or is not covered, the drug will not be separately listed by its generic name. This Drug Formulary applies only to outpatient drugs prescribed to members. It does not apply to drugs used in inpatient settings.

## DEFINITIONS

### ENROLLEE

An enrollee is a person enrolled in a health plan who is entitled to receive services from the plan. All references to enrollees in this formulary template shall also include subscribers as defined in this section below.

### PRESCRIPTION

A prescription is an oral, written or electronic order by a prescribing provider for a specific enrollee (and requires prescription under applicable law) that contains the name of the prescription drug, the quantity, the route of administration, directions for use, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the drug is being prescribed. Other requirements may apply depending on the drug requested. Please note that the presence of a prescription drug on the formulary does not guarantee the enrollee will be prescribed that prescription drug by his or her prescribing provider for a particular medication condition.

## PRESCRIPTION DRUG

A prescription drug is a drug that is prescribed by the enrollee's prescribing provider and requires a prescription under applicable law.

## PRESCRIBING PROVIDER

A prescribing provider is a health care provider authorized to write a prescription to treat a medical condition for a health plan enrollee.

## SUBSCRIBER

A subscriber is the person who is responsible for payment to the plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

## CO-INSURANCE

Co-insurance is a percentage of the cost of a covered health care benefit that an enrollee pays after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

## OUT-OF-POCKET COST

Out-of-pocket costs are copayments, coinsurance, and the applicable deductible, plus all costs for health care services that are not covered by the health plan.

## COPAYMENT

A copayment is a fixed dollar amount that an enrollee pays for a covered health care benefit after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.

## DEDUCTIBLE

A deductible is the amount an enrollee pays for covered health care benefits before the enrollee's health plan begins payment for all or part of the cost of the health care benefit

under the terms of the policy.

#### DRUG TIER

A drug tier is a group of prescription drugs that correspond to a specified cost sharing tier in the health plan's prescription drug coverage. The tier in which a prescription drug is placed determines the enrollee's portion of the cost of the drug.

#### EXCEPTION REQUEST

An exception request is a request for coverage of a prescription drug. If an enrollee, his or her designee, or prescribing health care provider submits an exception request for coverage of a prescription drug, the health plan must cover the prescription drug when the drug is determined to be medically necessary to treat the enrollee's condition.

#### PRIOR AUTHORIZATION

Health plan's requirement that the enrollee or the enrollee's prescribing provider obtain the health plan's authorization for a prescription drug before the health plan will cover the drug. The health plan shall grant a prior authorization when it is medically necessary for the enrollee to obtain the drug.

#### EXIGENT CIRCUMSTANCES

An exigent circumstance is when an enrollee is suffering from a health condition that may seriously jeopardize the enrollee's life, health or ability to regain maximum function, or when an enrollee is undergoing a current course of treatment using a non-formulary drug.

#### GENERIC DRUG

The same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance and intended use. A generic drug is listed in bold and italicized lowercase letters.

#### INTRAVENOUS SOLUTIONS OF UNLISTED ANTIBIOTICS ml

Restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when I.V. therapy with the same antibiotic was started before discharge. There is a maximum of a 10 day supply per dispensing within the 10-day period.

Note: Non-compounded products must be billed using the product's NDC number.

Compounded solutions must be billed as a compound claim. See the Compound Drug Pharmacy Claim Form {30-4} Completion section for more information.

#### INTRAVENOUS SOLUTIONS OF OTHER UNLISTED DRUGS ml

Restricted to dispensing within 10 days following inpatient discharge from an acute care hospital, when I.V. therapy with the same drug was started before discharge. There is a maximum of a 10 day supply per dispensing within the 10-day period

Note: Non-compounded products must be billed using the product's NDC number.

Compounded solutions must be billed as a compound claim. See the Compound Drug Pharmacy Claim Form {30-4} Completion section for more information.

## EXCEPTION REQUEST

An exception request is a request for coverage of a prescription drug. If an enrollee, his or her designee, or prescribing health care provider submits an exception request for coverage of a prescription drug, the health plan must cover the prescription drug when the drug is determined to be medically necessary to treat the enrollee's condition.

### Drug Coverage Requirements or Limits

A health plan may request an omission, deviation or substitution of the stated definitions to the Director for review and approval. There are some processes and limits that may apply to drugs in the formulary. Some are marked with a code on the list. The explanation for code is below:

Code	Meaning	Definition
QL	Quantity Limit	Coverage may be limited to specific quantities per prescription and/or time period
ST	Step Therapy	Coverage may depend on previous use of another drug
PA	Prior Authorization	Requires specific request process

**Quantity Limits:** For certain drugs, the Alliance has a limit on the number of pills that will be covered. In general, a 30-day supply is covered. However, if a member requires a drug in excess of the limit, a doctor can submit a Prior Authorization Form.

**Step Therapy:** In some cases, the Alliance requires members to first try certain drugs to treat a medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat a medical condition, we may not cover Drug B unless the member tries Drug A first. If Drug A does not work for the member, we will then cover Drug B. Doctors can request an exception by submitting a Prior Authorization Form.

**Generic Substitutions:** The Alliance has a mandatory generic program. This program promotes the use of **generic drugs** over brand when medically appropriate. A doctor may write a prescription for a brand name drug and not a generic due to medical need. In these cases the doctor must submit a Prior Authorization Form.

**Brand Name Drugs:** A BRAND NAME DRUG is a drug that is marketed under a proprietary, trademark protected name.

**Prior Authorization Process:** To prescribe drugs that are not in our Drug Formulary or that exceed the plan quantity limits, a doctor can submit a Prior Authorization Form. The Alliance reviews these requests and asks for more details

if needed. We will inform the doctor of our decision within 24 hours to 72 hours for all requests.

**Therapeutic Interchange:** The Alliance may, with a doctor's approval, change the drug that the doctor prescribed to a drug on the formulary that is the same in effectiveness and safety.

**NON-FORMULARY MEDICATIONS**

A non-formulary drug is a drug not listed on the health plan's formulary. These medications are reserved for members who have used (or cannot/should not use) up to three formulary alternatives that are used to treat the documented diagnosis OR meet off-label criteria OR has tried and failed or is unable to use separate components (or therapeutic equivalents) of a combination medication or is unable to use a consolidated dose form. Each request can be reviewed via a prior authorization request within 24 to 72 hours from the time received. Non-formulary drugs will also be covered when determined to be medically necessary (e.g. once reviewed with a prior authorization request). The enrollee may file a grievance or complaint for a denial of coverage, along with information on appeal rights and procedures.

**Authorization and Billing Instructions**

Providers can supply in-office injectable drugs to Alliance members by purchasing directly from suppliers/manufacturers (commonly known as buy and bill) or Diplomat Specialty Pharmacy (Diplomat). The authorization and billing processes differ based on the method of obtaining the drug and the member's delegate:

Method of Procurement	Delegate	Requires Authorization	Where to Submit Authorization	Whom to Bill
Diplomat (Pharmacy Benefit)	All	Yes	PerformRx	Not necessary (Pharmacy bills Alliance directly)
Buy and Bill (Medical Benefit)	Alliance	Refer to list below for Alliance delegate or check with member's delegate	Alliance	Alliance
	Children First Medical Group		Children First Medical Group	
	Community Health Center Network		Community Health Center Network	
			Hill Physician Medical Group	

Please use the corresponding authorization form for the type of request:

**Medical Benefit:** *Alliance Authorization Request form*

**Pharmacy Benefit :**

- PerformRx Medication Request Form (for Medi-Cal and Alliance GroupCare)*
- Request for Medicare Prescription Drug Coverage Determination (Medicare)*

## Filling your Prescription at a Network Pharmacy

In most cases, you can fill prescriptions at any network retail pharmacy, except for prescriptions for a specialty drug. To find a network retail pharmacy, you can look in the Alliance Provider Directory, visit our website ([www.alamedaalliance.org](http://www.alamedaalliance.org)), or call Member Services at 510-747-4567 or toll-free 1-877-932-2738 (CRS/TTY 711 or 1-800-735-2929) from Monday to Friday, 8 a.m. to 5 p.m.

### Process for Obtaining Specialty Drugs from Diplomat

Diplomat is the Alliance's specialty pharmacy for Alliance Medi-Cal and Alliance Group Care members. Retail pharmacies may not dispense these drugs for Medi-Cal or Alliance Group Care members. Specialty drug orders for Alliance CompleteCare members can be filled by Diplomat or any other Alliance contracted pharmacy.

Refer to the attached list of available drugs from Diplomat.

Certain drugs are only available from specific distributors and not Diplomat. The clinic can purchase these drugs directly from the distributors and bill the Alliance or have the distributor bill the Alliance. These drugs, along with the name and contact of the alternate distributors, are listed on the Limited Distribution Drug List.

Prior authorization is required for new specialty drug orders and for renewals (usually annually). The same review process is used for specialty drug orders as is used for other retail drugs that require prior authorization.

#### Authorization process for Diplomat Drugs:

- ☐ Fax the appropriate pharmacy request form to PerformRX (see above)
- Requests are processed (and notification of the decision sent to your office and Diplomat) within 72 hours for urgent requests or 14 days for routine requests.
- ☐ Upon PerformRx approval, **Diplomat** will call your office to obtain the prescription and dispense the drug by mail.

#### Contacts for Additional Information:

- ☐ Call Diplomat toll-free at **1-855-347-4783** for:
  - o A complete list of specialty drugs provided by Diplomat
  - o Questions related to dispensing of the drugs
- ☐ Call PerformRx toll-free at **1-855-508-1713** for questions related to prior authorizations
- ☐ Call Alliance Pharmacy Services at **510-747-4541** for questions related to specialty drugs from Diplomat
