The agenda may also be accessed through the Alameda Alliance for Health's Web page at: www.alamedaalliance.org

---

Board of Governors meetings are regularly held on the second Friday of each month at 12:00 p.m., unless otherwise noted. This meeting is held both in person and as a video conference call. Meeting agendas and approved minutes are kept current on the Alameda Alliance for Health's website at www.alamedaalliance.org.

Additions and Deletions to the Agenda: Additions to the agenda are limited by California Government Code Section 54954.2 and confined to items that arise after the posting of the agenda and must be acted upon prior to the next Board meeting. For special meeting agendas, only those items listed on the published agenda may be discussed. The items on the agenda are arranged in three categories. **Consent Calendar:** These items are relatively minor in nature, do not have any outstanding issues or concerns, and do not require a public hearing. All consent calendar items are considered by the Board as one item and a single vote is taken for their approval, unless an item is pulled from the consent calendar for individual discussion. There is no public discussion of consent calendar items unless requested by the Board of Governors. **Public Hearings:** This category is for matters that require, by law, a hearing open to public comment because of the particular nature of the request. Public hearings are formally conducted, and public input/testimony is requested at a specific time. This is your opportunity to speak on the item(s) that concern you. If in the future, you wish to challenge in court any of the matters on this agenda for which a public hearing is to be conducted, you may be limited to raising only those issues which you (or someone else) raised orally at the public hearing or in written correspondence received by the Board at or before the hearing. **Board Business:** Items in this category are general in nature and may require Board action. Public input will be received on each item of Board Business.

Supplemental Material Received After the Posting of the Agenda: Any supplemental materials or documents distributed to a majority of the Board regarding any item on this agenda after the posting of the agenda will be available for public review. To obtain a document, please call the Clerk of the Board at (510) 747-6160.

Submittal of Information by Members of the Public for Dissemination or Presentation at Public Meetings (Written Materials/handouts): Any member of the public who desires to submit documentation in hard copy form may do so prior to the meeting by sending it to "Attn: Clerk of the Board", 1240 S. Loop Road, Alameda, CA 94502. This information will be disseminated to the Committee at the time testimony is given.

Americans With Disabilities Act (ADA): It is the intention of the Alameda Alliance for Health to comply with the Americans with Disabilities Act (ADA) in all respects. If, as an attendee or a participant at this meeting, you will need special assistance beyond what is normally provided, the Alameda Alliance for Health will attempt to accommodate you in every reasonable manner. Please contact the Clerk of the Board, Brenda Martinez, at (510) 747-6160 at least 48 hours prior to the meeting to inform us of your needs and to determine if accommodation is feasible. Please advise us at that time if you will need accommodations to attend or participate in meetings on a regular basis.

I hereby certify that the agenda for the Board of Governors was posted on the Alameda Alliance for Health's web page at www.alamedaalliance.org by September 10th, 2024, by 12:00 p.m.

Brenda Martinez, Clerk of the Board

Finance Committee Meeting Minutes

ALAMEDA ALLIANCE FOR HEALTH
FINANCE COMMITTEE
REGULAR MEETING

July 9th, 2024
8:00 am – 9:00 am

SUMMARY OF PROCEEDINGS

Meeting Conducted in-person and by Teleconference.

Committee Members in-person: Dr. Rollington Ferguson, Gil Riojas, James Jackson
Committee Members absent: Yeon Park (excused)

Alliance Staff in-person and on Conference Call: Matt Woodruff, Tiffany Cheang, Sasi Karaiyan, Richard Golfin III, Anastacia Swift, Lao Paul Vang, Yen Ang, Shulin Lin, Carol van Oosterwijk, Linda Ly, Felix Rodriguez, Renan Ramirez, Christine Corpus

CALL TO ORDER, ROLL CALL, AND INTRODUCTIONS

Dr. Ferguson called the Finance Committee meeting to order at 8:00 am. A roll call was conducted, and a quorum was established.

CONSENT CALENDAR

Dr. Ferguson presented the Consent Calendar.
There were no modifications to the Consent Calendar, and no items to approve.

a.) CEO UPDATE

Matt Woodruff provided updates to the committee on the following:

- **Upcoming Compliance Committee Meeting:**
  This Friday we will review the Calendar Year 2023 DHCS Audit, covering part of fiscal year 2023 and fiscal year 2024. The auditors highlighted several concerns to be reviewed. Dr. Meade will be prepared to address these concerns at the full board meeting. There was one repeat finding, and it will be confirmed later today if it was an initial repeat or if it is a repeat from previous years. Repeat findings incur a minimum $25,000 fine, increasing if tied to prior years. We did have new auditors this year and they had a different focus than previous auditors. They provided valuable feedback and identified areas needing immediate attention.
- **Financials**
  Gil will provide an update on the May financials, which were anticipated to look unfavorable due to the State recoupment. Then he will provide a quick Budget update, followed by presentations on Targeted Rate Increase (TRI) and Unsatisfied Immigration Status (UIS). The TRI and UIS report outs were requested by the board in May but could not be provided in June due to time and agenda constraints.
- **Long-Term Care (LTC):**
  We are closely monitoring our Long-Term-Care services. Our LTC team has put together a solid plan for the case management of LTC members. I will be partnering with Dr. Lo, who is our Medical Director of Long-Term Supportive Services, to provide a presentation that was developed with her team. We will talk about the work that we are doing with the transition members that we received already on LTC. We will present how we continue to work with that population and how we case manage it.

Informational update to the Finance Committee. Voting is not required.

b.) REVIEW AND APPROVE MAY MONTHLY FINANCIAL STATEMENTS

MAY 2024 Financial Statement Summary

Enrollment:

From an enrollment perspective, we are observing a stabilization, with a modest increase of 105 members from April, bringing our total Enrollment to 405,279 members. The primary drivers of enrollment growth in recent years have been the Child, Adults, and Optional Expansion Categories of Aid, but these categories are now leveling off.

Net Income:

For the month ending May 31st, 2024, the Alliance reported a Net Loss of $29.2 million (versus budgeted Net Loss of $5.8 million). The unfavorable variance is attributed primarily to lower than anticipated Premium Revenue.

Premium Revenue:

For the month ending May 31st, 2024, actual Revenue was $126.9 million vs. our budgeted amount of $157.2 million. This is largely due to the calendar year 2023 acuity adjustment. We expect to experience this in June as well.

Question: Mr. James Jackson inquired about future projections and whether the significant variance experienced in the past month has been adequately anticipated in planning for the year ahead. Gil acknowledged the surprise of the recoupment but confirmed they have accrued adequately for its impact. Looking ahead to calendar year 2024, we are conservatively accruing funds in anticipation of potential state adjustments.

Medical Expense:

Actual Medical Expenses for the month were $150.0 million, vs. budgeted amount of $155.5 million. For the year-to-date, actual Medical Expenses were 1.6 billion, and budgeted Medical Expenses were $1.5 billion. We increased our Incurred But Not Paid (IBNP) estimate by about $10 million due to outstanding LTC claims, reflecting older experience that is coming in.

Question: Dr. Ferguson asked what the plan is for bringing LTC expense under control. Matt explained that the long-term care team is visiting and assisting facilities with assigning the correct aid codes, noting that about 15% are currently in the wrong category. Efforts include preventing unnecessary hospital transfers by strengthening case management and exploring diversion programs to keep individuals at home. Gil Riojas added that Community Supports has a new diversion program to place members in more appropriate settings and a transition program to move people out of LTC. Matt also highlighted the challenge that facilities lack a monetary incentive to use the correct aid code since they receive the same payment regardless.

Further details can be found on pages 12 and 13.

Medical Loss Ratio:

Our MLR ratio for this month was reported at 118.3%. As previously alluded to, the increase in this month's MLR is related to the lower Revenue, and not our Medical Expenses as typically expected. Year-to-date MLR was at 96.8%.

Administrative Expense:

Actual Administrative Expenses for the month ending May 31st, 2024 were $8.7 million vs. our budgeted amount of $9.8 million. Our Administrative Loss Ratio (ALR) is 6.9% of our Revenue for the month, and 5.5% of Net Revenue for year-to-date.

Other Income / (Expense):

As of May 30th, 2024, our YTD interest income from investments show a gain of $28.6 million.

YTD claims interest expense is $781,000.

Managed Care Organization (MCO) Provider Tax:

For the month ending May 31st, 2024, we reported $113.7 million unbudgeted MCO Tax Revenue, and $113.7 million unbudgeted MCO Tax Expense.

Tangible Net Equity (TNE):

For May, the DMHC required that we have $61.5 million in TNE, and we reported $316.0 million, leaving an excess of $254.5 million. As a percentage we are at 514%, which remains well above the minimum required.

Cash and Cash Equivalents:

We reported $589.0 million in cash; $473.2 million is uncommitted. Our current ratio is above the minimum required at 1.57 compared to regulatory minimum of 1.0.

Capital Investments:

We have spent $417,000 on Capital Assets year-to-date. Our annual capital budget is $1.6 million.

Motion: A motion was made by Dr. Rollington Ferguson, and seconded by Mr. James Jackson, to accept and approve the May 2024 Financial Statements.

Motion Passed

No opposed or abstained.

c.) UPDATE TO FY24 BUDGET

Gil provided a verbal update verbal update, addressing the Board's questions about the impact of state recoupments on our bottom line. The team ran numbers to show where we would be without those recoupments. Year-to-date, without the recoupments, our Net Income would be around $40 million, and our Medical Loss Ratio would be about 94%. The recoupments have negatively affected our bottom line, increased MLR, and impacted our TNE. We expect significant losses in June as well, though the exact number is still being finalized by Shulin and her team. We will provide more accurate figures in a few weeks and will update the Board with any significant developments.

d.) TARGETED RATE INCREASE UPDATE

Gil provided a PowerPoint presentation on Targeted Rate Increase Update.

Background Information:

- The targeted rate increase was part of the MCO tax program, which taxes health plans to generate revenue that can be matched with federal funds. This additional revenue is used to increase provider payments.

Key Points:

- **Targeted Rate Increases**:
  - Applied to Primary Care, Obstetrics, Doula services, and non-specialty mental health services effective for dates of service on or after January 1, 2024.
  - Rates are set no lower than 87.5% of the lowest 2023 Medicare locality rate in California inclusive of eliminating AB97 provider payment reductions and incorporating Proposition 56 supplemental physician payments.

- DHCS released a fee schedule with over 700 primary and general care codes at a higher rate than the current Medi-Cal fee schedule.

- **Requirements**:
  - The plan must ensure delegated providers and capitated networks can cover TRI payments to their providers.

- **Future Considerations:**
  - The initial plan was to begin the program in 2024 and potentially increase rates and add new codes in 2025, however due to a $45 billion State budget deficit, the State reconsidered these expansions.
  - There is debate over the use of MCO tax funds, with the Governor possibly wanting to divert the funds to address the budget deficit, while other parties are advocating to keep the funds for providers.
  - A new budget has been passed, and the program's future for 2025 is still under evaluation.

- **Next Steps:**
  - The State recently finalized the TRI All Plan Letter (APL), however it lacks detail so there are outstanding questions. Some of the requirements remain unclear.
  - All payments must be made by the end of this calendar year.
  - The Alliance has developed a project plan and is working to keep provider groups updated of the DHCS deadlines.

e.) UNSATISFACTORY IMMIGRATION STATUS (UIS) ENROLLMENT UPDATE

Gil provided a PowerPoint presentation on UIS Update.

Highlights:

- As of May 2024, the Alliance had 67,000 undocumented members with unsatisfactory immigration status.
- January 2024 saw a net increase of over 30,000 in UIS membership. This was due to new populations, partially offset by Kaiser members leaving the Plan.
- UIS members represented 17% of Alliance members.
- 36% of Adult members are undocumented; 19% of ACA OE members are undocumented. Of the remaining populations, 9% are undocumented.
- In the first quarter of CY 2024, the Child, ACA OE, Duals, LTC and LTC Dual populations had MLRs above the target Medical Loss Ratio of 90-95%.
- The majority of UIS members are delegated to CHCN
- The Alliance receives more revenue per-member-per-month for UIS Adult, SPD, ACA OE, LTC, and LTC Dual members than for SIS members in the same category of aid.
- The Alliance receives more revenue PMPM for SIS Child and Dual members than for UIS members.
- New UIS membership expense data is incomplete but will be evaluated with rates in the future.

ADJOURNMENT

Dr. Ferguson adjourned the meeting at 8:56 a.m.

5. CONSENT CALENDAR

a) June 14th, 2024, COMPLIANCE ADVISORY COMMITTEE MEETING MINUTES

Motion: A motion was made by Richard Golfin III and seconded by Byron Lopez to approve Consent Calendar Agenda Items.

Vote: Motion passed

Abstentions: Dr. Kelley Meade

6. COMPLIANCE MEMBER REPORTS

a) COMPLIANCE ACTIVITY REPORT

i. Plan Audits and State Regulatory Oversight

1. Compliance Dashboard

a. **Summary:** The 2024 DHCS audit started on June 17, 2024, and ended with an exit conference on June 28, 2024. During the exit conference, DHCS discussed twenty-three (23) different items they saw which may need correction. Since these are not yet officially issued findings, we have added them to the dashboard as self-identified so we can begin working on corrections for them. Then, when DHCS does issue their findings, if there are any of these twenty-three (23) on the final findings report, we will move them over to the State Audit Findings category. If any of these twenty-three (23) don't end up being on the final audit report, they will remain in the self-identified column, so we can continue to work to correct any identified deficiencies.

b. **2024 Routine Full Medical Survey (RMS) - Potential Findings**

- Finding 1: Category 1.2 Prior Authorization Procedures: The Plan did not authorize referrals to transplant programs within 72 hours of the member's specialist identifying the member as eligible for Major Organ Transplant (MOT)
  - This finding is related to the state requirement that all MOT evaluations are processed within seventy-two (72) hours of receipt, even if not specifically indicated by the provider.
  - Policies and procedures (P&Ps) reflected correctly that we are to authorize within seventy-two (72) hours, however the standard operating procedure (SOP), did not align specifically with the policy and procedures.
  - SOPs have been updated, staff has been trained on the updated workflows, and we are currently following the process.
  - A new internal review process has been instituted within all departments that handle these referrals to make sure that all procedures align with the P&P moving forward
- Finding 2: Category 1.2 Prior Authorization Procedures: The Plan did not ensure all MOT procedures, including bone marrow, were performed in a medically approved center of excellence (COE) as described in APL 21-015
  - The P&Ps were accurate in that all of our MOT needed to be performed at a DHCS approved Center of Excellence (COE).
  - The SOPs did not include bone marrow transplant on that list. This has been corrected, and staff have been trained on the updated process.
  - The major issue was ensuring the paper trail of the process was being documented.

- Finding 3: Category 1.3 Prior Authorization Appeals: The Plan did not obtain written consent from members prior to appeal when the provider filed the appeal in accordance with APL 21-011
    - Currently, the P&P states that we will try our best to get written consent from the member for an appeal, but if we do not, we will still process the appeal.
    - We will need to update the P&P, as well as the SOP, and then retrain staff on the updated process to ensure we get written consent from the member for an appeal.
- Finding 4: Category 1.3 Prior Authorization Appeals: The Plan did not send updated non-discrimination notice with tagline to appeal notification as described in APL 21-004
    - For every written communication that is sent in Grievance and Appeals (G&A), we have to provide Member's Rights and attach the Non-Discrimination Notice and Language Assistance Guidelines.
    - Updates were made by the State in 2021 and 2022, and Alliance systems were not updated with the appropriate updated enclosures for the Members Rights documents. We are working on updating those enclosures in our systems.
- Finding 5: Category 2.1 California Childrens Services (CCS): The Plan did not monitor CCS referral program pathways to identify members who may be eligible for CCS
    - We do have a dedicated team at the Alliance to support our coordination with CCS in this particular finding, there are multiple referral pathways to go to the CCS program.
    - One of them is referrals identified for the Plan and we have a very solid referral tracking mechanism for any Plan initiated referral.
    - There are also other provider pathways to refer to CCS, so our external provider community can also refer directly to CCS, however we don't have as streamlined of a process to monitor those types of referrals.
    - Currently there is a retrospective review where we receive reports from the county CCS office telling us who all of the people are that have been referred, but we want to be more proactive in identifying when the provider is referred directly to CCS.
    - Since we want to know who has been referred, we have been updating our processes to monitor that specific referral pathway, and we're going to be working very closely with our CCS partners to make sure that we can streamline that process.

      Question: What gap exactly was the finding specific to cause? As you illustrated, there are lots of ways to access the services through CCS and the referral pathways.

      Answer: The gap was our lack of ability to know exactly when a

provider made a direct referral to CCS.

Follow Up Question: How do we fixed that?

Answer: We tried to have that oversight by having our CCS county partners submit what they call a SAR report. That was not a proactive enough approach.

Discussion: We are going to be working with our CCS partners on solutions and on a more proactive approach as opposed to these reports. Exploring more upstream approaches while not overburdening our partners with more administrative costs.

- Finding 6: Category 2.1 Initial Health Assessment (IHA): The Plan did not ensure reasonable member outreach attempts for the IHA document
  - There have been three major steps implemented to ensure outreach:
    - IVR calls: We call every individual who is new to the Plan, who is eligible for an IHA, and encourage them to call their primary care provider and then obtain the appropriate appointment.
    - New Member Orientation: We offer new Alliance members a new member orientation, however not all members choose to participate.
    - Mailers and Phone Calls: All new members get various mailers and phone calls directly, in an attempt to connect them with their primary care provider and get the IHA within 120 days
  - DHCS requested multiple types of case files, and within those case files they requested to see documentation of the above three items. That information has been submitted as evidence of reaching out to new members.
- Finding 7: Category 2.1 Initial Health Assessment (IHA): The Plan did not ensure the provision of Initial Health Assessments for members
  - This is a repeat finding
  - There are six major steps being taken:
    - Multiple webinars
    - Chart audits
    - Outreach and IVR calls
    - Program around non-utilizers
    - Outreach calls to children as well as members over the age of 50
    - Providing a provider guide

      Question: What is our most successful outreach

method?

Answer: Direct phone calls. We are not allowed to use a text method for outreach.

- Finding 8: Category 2.1 Initial Health Assessment (IHA): The Plan did not ensure the provision of blood lead screenings for pediatric members
    - Within the pediatric population the appropriate provision of blood lead screening is a specific concern for the department.
    - They pulled five (5) pediatric case files and we took some time to look at each of those files. In those cases, blood lead screening was completed.
        - Three of them had screening results
        - Two of them were documented in the medical record as being ordered.
        - This information was also submitted to DHCS
- Finding 9: Category 2.1 Initial Health Assessment (IHA): The Plan did not ensure the member outreach attempts were conducted and documented for IHAs for pediatric members
    - DHCS specifically called out the pediatric population for findings six (6) and seven (7). We perform the same pieces that I talked about in those two findings for our pediatric population; IVR calls direct phone calls to the parents, tip sheets, P4P program.
- Finding 10: Category 2.3 Behavioral Health Therapy (BHT): The Plan did not ensure timely access to Behavioral Health Therapy services
    - We have been extremely successful in meeting the metrics that we wanted to meet when we brought these services in-house.
    - We have seen a fourfold increase in our mental health utilization, almost a twofold increase in our behavioral health therapy utilization. We are providing care to more members.
    - The penetration rate is going up, meaning the number of members in the medical population who are utilizing mental health and BHT services in the look back period.
    - We had an increase in utilization and tripling of the staff, as well as support from senior leadership and Board of Governors, however, in the lookback period, we did have a large number of members awaiting their comprehensive diagnostic evaluations and services, in part due t a large backlog we received from our previous mental health delegate, that we were not aware of.
    - We are expanding the network, increasing services and access to services and we're seeing the improvements and increases in utilization.
    - This finding, and the next, is fair and expected given what we have seen in the past. We are aggressively working on

improvements, as these services are important and we want to provide them timely.

- Finding 11: Category 2.3 Behavioral Health Therapy (BHT): The Plan did not ensure provision of BHT services
    - Just as in finding ten (10), we have been successful in meeting the metrics since we brought the services in house. The same challenges are seen, and corrections are being put in place, for this finding.
- Finding 12: Category 2.3 Behavioral Health Therapy (BHT): The Plan did not ensure care coordination for members needing BHT services.
    - The BH team is working to be able to demonstrate that we have closed the coordination of care gap that is identified.
    - This is a theme that we heard in a most recent audit as well that the expectation from DHCS is that we will be actively facilitating coordination of care between the county and treating providers and in this case it would be also between BHT providers and the referring pediatricians.
- Finding 13: Category 2.4 Continuity of Care: The Plan did not ensure the notice of action (NOA) letters regarding continuity of care (CoC) denials were clear and concise.
    - Continuity of care processes fall under the Utilization Management (UM) pathways, similar to how we would process any type of authorization.
    - If there is an adverse benefit, we would have to send a Notice of Action letter (NOA). One of the file samples that we submitted, the language in the NOA that explained the reason for the denial wasn't as clear as we wanted it to be. The auditor specifically mentioned some double negative language in the actual letter, so that has been corrected now and we are continuing to reevaluate those types of documentation.
    - We have weekly and monthly work groups to make sure our communication to our members and our providers are clear and concise.
- Finding 14: Category 3.1 Access: The Delegate subcontractor placed members on appointment waitlists and did not provide timely appointments.
    - This is in the PCP realm, and at a joint operating meeting (JOM) with Alameda Health Systems (AHS) a wait list AHS had for primary care office visits and specialty office visits, particularly those of ophthalmology, gastroenterology, was brought forward.
    - Independently, one of the CHCN clinics, Tiburcio Vasquez, also mentioned delays in primary care visits, meaning waitlists for members who are waiting to get in to see a primary care provider.

    - The department was curious about what steps we were taking to address those wait lists. In regards to access there are many items. For AHS, there are two we'd like to highlight specifically:
        - We provide a host of surveys, provider education around what are the appropriate timely access requirements, and we monitor potential quality issues.
        - We look at grievances. The positive result is that the number of grievances around access for both AHS particularly and CHCN, Tiburcio Vasquez, has gone down.
    - We acknowledge the wait times and regularly meet with AHS and discuss these waitlists and appropriate access.
- Finding 15: Category 3.1 Access: The Plan did not monitor appointment wait times and appointment availability for specialists and behavioral health specialists
    - There are multiple timely access requirements from the State, one of which is the requirement to monitor appointment wait times and availability for specialists and for behavioral health specialists. The way we do that is through a survey called the CG Caps survey.
    - It's about a 30-question survey and we send out approximately 60,000 surveys a year.
    - The survey has been sent out for many years, and that is how we have looked at access around these requirements this year.
    - We included the behavioral health providers in this specific survey, however, in order to do so, we had to modify the survey. It was edited and sent to Compliance for review. Compliance sent it to DHCS, which took several months to approve the survey. This caused a delay in sending out the survey.
    - The survey has now been approved. The survey was then done in Q2 2024, and we will have the results in Q3 2024.
- Finding 16: Category 4.1 Grievance Resolution: The Plan did not ensure the decision maker for grievances involving clinical issues was a healthcare expert with clinical expertise for the condition as described in APL 21-011
    - The auditors noted that there was not a strong clinical review for quality of care grievances. Auditors discussed the lack of clinical review while reviewing the medical records and provider responses and noted that the clinical reviews were not in the final resolution letters.
    - We are working on creating an SOP for quality of care grievances, and we are working with the Chief Medical Officer to create a more robust clinical review for our quality care grievances.

- Finding 17: Category 4.1 Grievance Resolution: The Plan did not completely resolve quality of care and quality of service grievances
    - These are the cases which were closed without a complete resolution, for example, for the cases where the member called in and had a grievance against access to care, saying that there wasn't enough specialists within a specific specialty, we would respond that we do have more specialist, and the information is in our provider directory, which is not a complete resolution.
    - A complete resolution is to obtain a timely appointment for that member, however, those cases were closed without getting a timely appointment for the member.
    - Retraining will be needed to resolve this finding.
- Finding 18: Category 4.1 Grievance Resolution: The Plan did not ensure resolution letters contained clear and concise explanations for quality of care and quality of service decisions
    - The grievance and appeals resolution letters were not clearly written. They were identified during the audit. There were not a lot, but there were some that were confusing.
    - The Plan will provide staff training for coordinators, and we are also considering a template to help standardize the letters to make it easier for the member to read the letter.
- Finding 19: Category 4.1 Grievance Resolution: The Plan did not send updated non-discrimination and language assistance information with grievance letters
    - This is the same as the appeal finding.
    - We have updated our enclosures for the current non-discrimination notice and the language assistance tagline, and it is being updated in the system.
- Finding 20: Category 4.2 Cultural and Linguistic Services (CLS): The Plan did not monitor the linguistic performance of vendors that provider interpreter services
    - Documentation has been submitted to DHCS regarding the monitoring of our interpreter quality.
    - We do an annual review of interpreter qualifications for our three interpreter vendors.
    - We also do surveys with both our providers and our members asking about quality of interpreters to help us look for trends that might be a cause for response or action.
    - We've been looking at PQIs and grievance and appeals and have not noticed any concerns, which is why we only used an annual update on their assessment processes.
    - We will review reports submitted to the state and we'll implement some new monitoring processes that we hope will

meet that need.

- Finding 21: Category 4.3 Confidentiality: The Plan did not notify DHCS within 24 hours of a breach or HIPAA incident
    - This is an ongoing process of improvement for the Plan for education and training for all member facing departments that may receive a possible HIPAA incident or breach, and making sure that information gets to the Privacy Office so it can be reported within 24 hours of the time of discovery.
- Finding 22: Category 6.2 Fraud, Waste, and Abuse: The Plan does not have a regular method of reviewing services have been delivered by network providers or received by members
    - Currently services are reviewed through the Fraud, Wast FWA process and includes referrals from various departments throughout AAH, including Grievance and Appeals, Case Management, and Quality.
    - We also have a proactive way of reviewing services, which is through a vendor called Health Care Fraud Shield (HCFS). They review our claims data for outlier providers. We meet with HCFS monthly to review the outliers that have been identified and if needed, we will open cases to research them further.
    - This potential finding would involve adding additional processes. Aside from the methods that we currently use to review that services have been delivered by providers and received by members as billed. We are looking into process improvements which includes exploring options for more routine checks on PCP services for our members.
- Finding 23: Category 3.6 State Supported Services: The Plan did not distribute minimum payments for State Supported Services claims as described in APL 23-015
    - We have five (2) cases that the State was concerned about in terms of abortion services or state supported services that we had not paid the full Proposition 56 rate.
    - In all five (5) cases it was due to modifiers
        - In three (3) of those five (5) cases, the claims were facility claims with the UA modifier, which is not the actual abortion service, but the surgical trays that the facility provided for the service. In these cases, the claims for the abortion services we're paid under the correct rate, but under a different claim by the provider.
        - In the remaining two (2) cases, the claims that they were looking at were modifier fifty-one (51), which indicates multiple services and per medical guidelines those rates are to be reduced by at least 50%. In this case, we actually paid them their contracted rate, which was a little bit higher than the 50%. In any case, we paid the

minimum required.

  - Since we believe these payments were correct, we sent the information to DHCS. We will see if they remove this potential finding from the final findings they issue.

6. BOARD MEMBER REPORTS

a) COMPLIANCE ADVISORY COMMITTEE

Dr. Kelley Meade reported on the Compliance Advisory Committee meeting held on July 12th, discussing the 2024 DHCS potential findings. The state audit, conducted from June 17th to June 28th, resulted in 23 potential findings across six areas: utilization management (four findings), case management and continuity of care (nine findings, including one repeat), access and availability (two findings), member rights (six findings), fraud, waste, and abuse (one finding), and state-supported services (one nuanced billing issue). The findings were deemed correctable and not alarming, with only one repeat finding noted.

b) FINANCE COMMITTEE

Dr. Ferguson shared an update on the Finance Committee meeting held on July 10th. The discussion covered the May financials and the potential repeat findings mentioned by Dr. Meade. There was also an update on the fiscal year 2024 budget. Regarding the repeated findings, there is a possibility of facing fines of a minimum of $25,000, although the exact amount is unknown. The May financials were not very promising. The MLR has increased to 118%, and we incurred a debt loss of $29 million. TNE has risen to 540%, indicating a downward trend, and the high MLR is a concern. Long-term care was also discussed, raising the question of what actions to take. Proposed solutions will be presented, including addressing the estimated 50% incorrect acuity, affecting reimbursement.

7. CEO UPDATE

In the CEO report, Matt Woodruff provided an overview of the financial update and operational challenges, including a $21 million revenue drop, the final repayments to the State, and the cost of long term care continues to increase.

A long-term care presentation co-presented with Dr. Lowe highlighted the long-term care challenges and solutions, increase in membership, intensive case management and education, aid code correction, and matching levels of care and services.

Key Points from the presentation include:

- Growth in Long-term Care Membership: Since December, long-term care membership increased by 50%, with a significant influx of members from Anthem stabilizing in April.
- Focus on Intensive Case Management: There has been an emphasis on intensive case management and education for members and providers, including social workers visiting facilities to assess and address needs.
- Efforts to Correct Aid Codes: Efforts are ongoing to correct aid codes for members to ensure they receive appropriate benefits and services, involving collaboration between social workers, providers, and the State.
- Challenges in Long-term Care: Long-term care has been challenging, including housing shortages and the need to accurately match care levels to member needs, focusing on meeting member preferences and improving internal systems.

  Question: *What is the reason behind the increase in long-term care membership, and how is it managed?*
  Answer: *Long-term care membership has increased by 50% since December, largely due to the influx of members from Anthem, necessitating better coding and management of these members.*

Medicare Supplemental Benefits Review

- Supplemental Benefits Analysis: A comprehensive analysis was conducted on supplemental benefits, comparing offerings in Alameda County and the broader marketplace to be competitive and address community needs.

Question: What supplemental benefits are offered in Alameda County and other markets?
Answer: A comprehensive review of supplemental benefits such as dental, vision, and transportation was conducted to be competitive in the market, with comparisons made to other providers in Alameda County and Southern California.

Question: What is the Alliance's strategy to offer supplemental benefits comparable to Kaiser by 2026?
Answer: The Alliance aims to offer at least the same supplemental benefits as Kaiser by 2026, focusing on community needs through provider town halls and other engagement strategies.

8. BOARD BUSINESS

a) REVIEW AND APPROVE MAY 2024 MONTHLY FINANCIAL STATEMENTS

Chief Financial Officer Gil Riojas presented an overview of the May 2024 Financial Statements.

Key Points from the presentation include:

- The Alliance reported a net loss of $29 million, mainly due to the acuity adjustment for calendar year 2023 that reduced the revenue by $30 million.
- The acuity adjustment was based on comparing long-term care expenses between the Alliance and Anthem, which resulted in a revenue shift from the Alliance to Anthem.
- The revenue was $127 million, $30 million lower than the budget and $21 million lower than the previous month.
- The medical expenses were $150 million, $5 million lower than the budget but $41 million higher than the previous month.
- The medical loss ratio was 118%, which means that for every dollar of revenue, the alliance spent $1.18 on medical expenses.
- The administrative expenses were $14.6 million, $1.1 million lower than the budget and $0.4 million lower than the previous month.
- The investment income was $2.8 million, $0.8 million higher than the budget and $0.2 million higher than the previous month.
- The tangible net equity was $360 million, 514% of the regulatory minimum.
- The cash and cash equivalents were $189 million, $9 million lower than the previous month.

Question: What was the main reason for the net loss of $29 million in May?
Answer: The main reason for the net loss of $29 million in May was the acuity adjustment for the calendar year 2023, which reduced the revenue by $30 million.

Question: How did the acuity adjustment affect the revenue and the MLR?
Answer: The acuity adjustment was based on comparing long-term care expenses between the Alliance and Anthem, which resulted in a revenue shift from the Alliance to Anthem.

Question: In January, our TNE was around 700%, and it's now around 514%. Is the MLR the most significant factor that contributed to its drop of 200%?
Answer: Yes. Our medical loss ratio has increased because of the significant reductions in revenue that have reduced our tangible net equity. Our medical expenses, compared to revenue, are higher, and our reserve is lower because we're taking those down. We're hopeful that after June, we'll stabilize, and hopefully, we can grow again.

Motion: A motion was made by Dr. Rollington Ferguson and seconded by Dr. Kelley Meade to approve the May 2024 monthly financial statements.

Vote: The motion was passed unanimously.

Ayes: Aarondeep Basrai, Dr. Rollington Ferguson, Andrea Ford, James Jackson, Byron Lopez, Andie Martinez Patterson, Dr. Kelley Meade, Jody Moore, Dr. Evan Seevak, Supervisor Lena Tam, Natalie Williams, Vice Chair Dr. Noha Aboelata, Chair Rebecca Gebhart.

No opposition or abstentions.

b) UPDATE TO FY24 BUDGET

Gil Riojas provided a brief update on the FY24 budget, noting that revenue is expected to be low in June due to acuity adjustments, leading to a significant net loss. Without recruitment expenses, the net income would have been approximately $40 million, with a tangible net equity of about 590% and a medical loss ratio of about 94%. The aim is to stabilize and achieve growth in reserves and net income in the current fiscal year.

Informational item only.

c) UNSATISFACTORY IMMIGRATION STATUS (UIS) PRESENTATION

Gil Riojas provided an overview of the Unsatisfactory Immigration Status (UIS) population, which consists of undocumented individuals eligible for the Medi-Cal program.

Key Points discussed in the presentation include:

- As of May 2024, Alliance had 67,000 undocumented members with unsatisfactory immigration status.
- January 2024 saw a net increase of 30,000 in UIS membership. As a reminder, older adults were eligible starting in May of 2022, who are 50 and older and younger adults in January of this year, ages 26-49 are not eligible. This is why we see these increases from where we were in the past. This was due to new populations, partially offset by Kaiser members leaving the Plan.
- UIS members represented 17% of Alliance members.
- 36% of adult members are undocumented; 19% of ACA OE members are undocumented. Of the remaining populations, 9% are undocumented.
- In the first quarter of CY 2024, the Child, ACA OE, Duals, LTC and LTC Dual populations had MLRs above the target Medical Loss Ratio of 90-95%.

Informational Item Only.

d) TARGETED RATE INCREASE (TRI) PRESENTATION

Gil Riojas shared an update on the Targeted Rate Increase (TRI), a state initiative to increase reimbursement rates for certain primary care, obstetric, and mental health services for Medi-Cal members.

Key Points from the presentation include:

- The TRI is funded by the Managed Care Organization (MCO) tax, a tax on health plans participating in Medi-Cal.

- The TRI started in January 2020 and requires the plans and their delegated providers to pay at least 87.5% of the Medicare fee schedule for the designated services.
- The State has provided a list of over 700 codes that are eligible for the TRI and expects the plans to report and monitor compliance with the TRI payments.
- The State also intends to expand the TRI program for calendar year 2025 and add new codes, and increase the rates, but with a lower budget allocation.
- The Alliance has been working on analyzing the current fee schedules, comparing them with the TRI fee schedule, and making any necessary adjustments to ensure the proper payments to the providers.
- The Alliance has also been collaborating with the delegated providers, CHCN and AHS, to ensure that they are also paying their providers according to the TRI fee schedule.
- The Alliance received a final All Plan Letter (APL) from the State in June 2020 that outlines the requirements and expectations for the TRI program.

e) OVERVIEW AND DISCUSSION OF TRILOGY DOCUMENTS

Dr. Donna Carey presented an overview of the Trilogy documents that were approved at the board meeting on June 14th, 2024. These documents outline the annual work plans and evaluations for the quality, case management, and utilization management programs of the Alliance. The presentation discussed the goals, programs, and evaluations of these departments, emphasizing key metrics and future plans.

Key points in the overview included:

- Quality Program Overview: The quality program aims to monitor and evaluate the quality, safety, and appropriateness of care and services delivered to members, with multiple committees overseeing various aspects of this work.
- Key Quality Metrics: Quality metrics include HEDIS measures, member experience surveys, and state-directed quality improvement projects, focusing on areas like well-child visits and follow-ups after ED visits.
- Case Management Programs: Case management involves a collaborative process of assessment, planning, and coordination to meet members' health needs, with programs like enhanced care management, complex case management, and transitional care services.
- Challenges in Case Management: Challenges include low return rates for health risk assessments and the need for creative solutions to improve member engagement and consent for services.
- Utilization Management Goals: The utilization management department ensures medically necessary and appropriate care, with a high volume of authorizations and low denial rates.
- 2024 Work Plan: Plans for 2024 include reducing required prior authorizations, increasing staffing, expanding ADT feeds, and improving delegate oversight.
- Member Experience and Outreach: Efforts to improve member experience and outreach include staff training to verify contact information and innovative strategies to engage non-utilizers.

9. STANDING COMMITTEE UPDATES

a) PEER REVIEW AND CREDENTIALING COMMITTEE – APRIL & MAY

Dr. Carey provided an update on the Peer Review and Credentialing Committee meetings that took place in April and May. In April, 155 providers were credentialed. In May, three peer review committee meetings were held. On May 6th, a temporary medical director was credentialed to assist with the UM volume. In the May meeting, a total of 273 providers were credentialed.

Question: Are the majority of those providers credentialed for behavioral health or for a specific area?

Answer: In both April and May, the majority of the credentialed providers were in behavioral health. In April, we credentialed 80 behavioral health providers, and in May, we credentialed over 200.

b) QUALITY IMPROVEMENT HEALTH EQUITY COMMITTEE – APRIL & MAY

Dr. Carey provided an update on the Pharmacy & Therapeutics committee meeting that took place in May. During the meeting, Dr. Chapman gave a presentation on the expansion of the Lanterman Petris Short Act, which increased the number of providers authorized to place 5150 or 5585 holds. The committee reviewed 23 policies and procedures, as well as the trilogy documents. Additionally, Dr. Andrea Woo from AHS presented on patient throughput in the Emergency Department at Highland. The committee reviewed and approved 30 policies and procedures and approved the Population Health Management program.

c) COMMUNITY ADVISORY COMMITTEE - JUNE

Matt Woodruff shared three main updates from the last Community Advisory Committee meeting held in June. There was a discussion about health education materials and all the different benefits that we now have under health education. There was a great discussion about access and where the Consumer Advisory Committee could refer members if they had questions about all the different benefits that are now out there. There was also discussion about the grievance and appeal data and some of the effects that the community has seen on grievances and an in-depth report on outreach and marketing.

10. STAFF UPDATES

- Claims Interest-July claims interest expense related to delays in paying LTC claims amounts related to updated LTC fee schedule.

DHCS Definitions

"Long-term care includes personal care, such as help with bathing, eating or dressing that you require over a lengthy period. That's why it can be very expensive. Long-term care can range from simple assistance with activities in your own home or a residential care facility or it can mean highly skilled care in a nursing facility." (DHCS)

Medi-Cal Benefits

Skilled Nursing Facility

I. Definition (CCRSNF):
   a. Health facility or a distinct part of a hospital
   b. Provides continuous skilled nursing care and supportive care
   c. Serves patients whose primary need is for availability of skilled nursing care on an extended basis (years).
      i. It provides 24-hour inpatient care and, as a minimum, includes physician, skilled nursing, dietary, pharmaceutical services and an activity program.

II. Example:
   a. Older adult with a history of diabetes, stroke, and dementia. Member needs is incontinent of urine, at risk of wounds, and needs help going to the toilet, dressing, bathing, and brushing their teeth. They need a diabetic mechanical soft diet

Care Needs	Care Provider
Incontinence wound monitoring and care	RN
ADL help: toileting, dressing, bathing, brushing teeth	CNA
Diabetic mechanical soft diet	RD/dietary

Sub-Types of Skilled Nursing Facilities

Subacute Care

I. Definitions (CCRSA)
   a. Type of skilled nursing facility service

Adult Subacute Care

I. Definitions (DHCSASA)
   a. Level of care needed by an individual who
      i. Does not require hospital acute care
      ii. Requires more intensive licensed skilled nursing care than is provided to the majority of individuals in a skilled nursing facility
   b. Individuals need special medical equipment, supplies, and treatments such as
      i. Respiratory support: ventilators and tracheostomies
      ii. Feeding support: total parental nutrition or tube feeding
      iii. Complex wound care
II. Example:
   a. Adult with a history of multiple trauma and severe hospital acquired pneumonia. Member has a G-tube, colostomy and has a tracheostomy. They are fully dependent on Activities of Daily Living (ADL) and needs a ventilator with deep suctioning for 18 hours per day.

Care Needs	Care Provider
G-tube and colostomy care, G-tube feedings	RN
Activities of daily living (ADL)	CNA/RN
Ventilator management and deep suctioning	RT

Pediatric Subacute Care

I. Definitions (DHCSASA)
   a. Level of care needed by an individual <21 years old who:
      i. Uses a medical technology that compensates for the loss of a vital bodily function
   b. Individuals need special medical equipment, supplies, and treatments such as
      i. Respiratory support: ventilators and tracheostomies
      ii. Feeding support: total parental nutrition or tube feeding
      iii. Complex wound care
II. Example:
   a. 19 year old with a history of progressive neuromuscular disorder. Member has a tracheostomy and requires a ventilator for 20 hours per day with suctioning and G tube for feeding.

Care Needs	Care Provider
G-tube care, G-tube feedings	RN
Ventilator management and deep suctioning	RT

Intermediate Care Facility (ICF)

I. Definition (CCRICF):
   a. Health facility, or a distinct part of a hospital or skilled nursing facility
   b. Provides the following basic services: care to patients who have need for skilled nursing supervision and need supportive care, but who do not require continuous nursing care.
   c. Goal to prevent or delay of acute episodes of physical or mental illness and encourage independence

II. Example:
   a. 30 year old member with a history of bipolar disorder and multiple trauma. Able to walk on their own and do most of their own ADL's, sometimes needs help getting dressed. Needs help with oversight and prompting for medications and sometimes needs additional medication for his bipolar disorder.

ICF Sub-type

Intermediate Care Facility Services for Developmentally Disabled (ICF-DD)

I. Definition
   a. Intermediate care facilities for individuals with Developmental Disability

II. Example:
   a. 30 year-old member with a history of developmental delay, schizophrenia, and multiple trauma. Can exhibit behaviors such as verbal and physical outbursts requiring medical intervention, but is usually able to be redirected.

NON Medi-Cal Benefits

Residential Care Facilities (RCF): (DHCSRCF)

I. Definition: **non-Medi-Cal** facilities that are supportive living environments in a homelike and community setting
II. Often private pay
   a. Medi-Cal waivers available: may take up to 18 months
III. Provides
   a. Personal and supportive services
   b. Assist with self-administration of medication
   c. Three meals per day and snacks
   d. Housekeeping and laundry
   e. Transportation or transportation arrangement
   f. Activities
   g. Skilled nursing services as needed
      i. May have additional fees

RCF Sub-Types

Board and Care

I. Environment: often a converted home
   a. Shared or individual rooms
   b. Size varies
   c. May have 1-2 non-medical staff on site
      i. May help with some ADL's
      ii. Can remind residents to take medications
      iii. Provides meals on site: home-cooked and/or take out
      iv. Coordinate transportation to appointments
II. Example:
   a. An 84 year old member with history of cognitive impairment, needs cueing for medications and hygiene, likes to leave the home and take long walks for hours during the day. Always returns for dinner.

Assisted Living

I. Environment: larger environments
   a. Often individual studios or apartments
   b. Communal dining rooms and areas for recreation or socialization

c. Coordinate transportation to appointments
d. Additional services often require additional fees: facility dependent

II. Example:

a. 70 year old couple, mild cognitive impairment and independent in ADLs. Enjoys having meals in dining area and attending day trips arranged by facility.

Congregate Living Health Facilities (CLHF)

I. Definition (CCHSCCLHF): provide skilled nursing care that is less intense than in a hospital, but more than can be provided in a skilled nursing facility

a. Residential home
b. Up to 18 beds
c. Provides the following care to certain populations
    i. Inpatient care:
        1. Medical supervision
        2. 24 hour skilled nursing and supportive care
        3. Pharmacy
        4. Dietary
    ii. Socialization
    iii. Recreation

II. Often private pay, DHCS Medi-Cal waivers available

III. Example:

a. Member with a history of multi-drug resistant organism needing isolation and complex wound care needs. Has trach with continuous ventilator requirements and daily wound care.

Legislative Tracking

2024 Legislative Tracking List

During the final few weeks of the 2023-2024 legislative session, state legislators worked to pass a significant number of bills that will go to the governor's desk. Lawmakers voted right up to midnight on Saturday, August 31st and ended the regular legislative session that began back in January. The Governor will then have until September 30th to sign or veto bills passed by the legislature.

Public Affairs will provide a final legislative report in the next Board of Governors meeting packet.

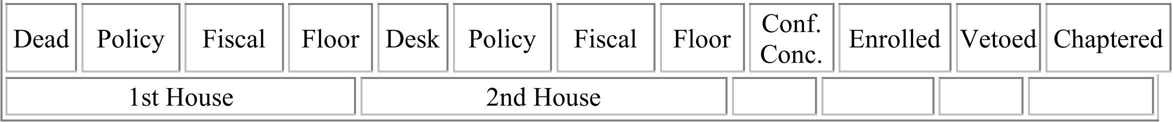
The following is a list of state bills tracked by the Public Affairs and Compliance Departments. These bills are of interest to and could have a direct impact on Alameda Alliance for Health and its membership.

AB 4 **(Arambula D) Covered California: expansion.**
Current Text: Amended: 8/6/2024 html pdf
Status: 8/15/2024-Failed Deadline pursuant to Rule 61(b)(14). (Last location was APPR. SUSPENSE FILE on 8/12/2024)
Location: 8/15/2024-S. DEAD

Desk	Policy	Fiscal	Floor	Desk	Policy	Dead	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current federal law, the Patient Protection and Affordable Care Act (PPACA), requires each state to establish an American Health Benefit Exchange to facilitate the purchase of qualified health benefit plans by qualified individuals and qualified small employers. Current state law creates the California Health Benefit Exchange, also known as Covered California, to facilitate the enrollment of qualified individuals and qualified small employers in qualified health plans as required under PPACA. Current law requires the Exchange to apply for a federal waiver to allow persons otherwise not able to obtain coverage through the Exchange because of their immigration status to obtain coverage from the Exchange. This bill would delete that requirement and would instead require the Exchange, no sooner than January 1, 2026, and upon appropriation by the Legislature for this purpose, to administer a program to allow persons otherwise not able to obtain coverage by reason of immigration status to enroll in health insurance coverage in a manner as substantially similar to other Californians as feasible, consistent with federal guidance and given existing federal law and rules. The bill would require the Exchange to undertake outreach, marketing, and other efforts to ensure enrollment, which would begin on October 1, 2027.

AB 47 **(Boerner D) Pelvic floor physical therapy coverage.**
Current Text: Introduced: 12/5/2022 html pdf
Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.
Location: 1/12/2024-A. DEAD



Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Would require a health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2024, to provide coverage for pelvic floor physical therapy after pregnancy. Because a willful violation of the bill's requirements relative to health care service plans would be a crime, the bill would impose a state-mandated local program.

AB 55 **(Rodriguez D) Medi-Cal: workforce adjustment for ground ambulance transports.**
Current Text: Amended: 4/27/2023 html pdf
Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.
Location: 1/18/2024-A. DEAD

Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law requires, with exceptions, that Medi-Cal reimbursement to providers of emergency medical transports be increased by application of an add-on to the associated Medi-Cal fee-for-service payment schedule. Under current law, those increased payments are funded solely from a quality assurance fee (QAF), which emergency medical transport providers are required to pay based on a specified formula, and from federal reimbursement and any other related federal funds. Current law sets forth separate provisions for increased Medi-Cal reimbursement to providers of ground emergency medical transportation services that are owned or operated by certain types of public entities. This bill would establish, for dates of service on or after July 1, 2024, a workforce adjustment, serving as an additional payment, for each ground ambulance transport performed by a provider of medical transportation services, excluding the above-described public entity providers. The bill would vary the rate of adjustment depending on the point of pickup and whether the service was for an emergency or nonemergency, with the workforce adjustment being equal to 80% of the lowest maximum allowance established by the federal Medicare Program reduced by the fee-for-service payment schedule amount, as specified.

AB 236 (**Holden** D) **Health care coverage: provider directories.**
Current Text: Amended: 6/27/2024 html pdf
Status: 8/15/2024-Failed Deadline pursuant to Rule 61(b)(14). (Last location was APPR. SUSPENSE FILE on 8/5/2024)
Location: 8/15/2024-S. DEAD

Desk	Policy	Fiscal	Floor	Desk	Policy	Dead	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law requires a health care service plan and a health insurer that contracts with providers for alternative rates of payment to publish and maintain a provider directory or directories with information on contracting providers that deliver health care services enrollees or insureds and requires a health care service plan and health insurer to regularly update its printed and online provider directory or directories, as specified. Current law authorizes the departments to require a plan or insurer to provide coverage for all covered health care services provided to an enrollee or insured who reasonably relied on materially inaccurate, incomplete, or misleading information contained in a health plan's provider directory or directories. This bill would require a plan or insurer to annually verify and delete inaccurate listings from its provider directories and would require a provider directory to be 60% accurate on July 1, 2025, with increasing required percentage accuracy benchmarks to be met each year until the directories are 95% accurate on or before July 1, 2028. The bill would subject a plan or insurer to administrative penalties for failure to meet the prescribed benchmarks. The bill would require a plan or insurer to arrange care and provide coverage for all covered health care services provided to an enrollee or insured who reasonably relied on inaccurate, incomplete, or misleading information contained in a health plan or policy's provider directory or directories and to reimburse the provider the contracted amount for those services. The bill would prohibit a provider from collecting an additional amount from an enrollee or insured other than the applicable in-network cost sharing. The bill would require a plan or insurer to provide information about in-network providers to enrollees and insureds upon request and would limit the cost-sharing amounts an enrollee or insured is required to pay for services from those providers under specified circumstances.

AB 365 (**Aguiar-Curry** D) **Medi-Cal: diabetes management.**
Current Text: Amended: 9/8/2023 html pdf
Status: 8/30/2024-Ordered to inactive file at the request of Senator Gonzalez.
Location: 8/30/2024-S. INACTIVE FILE

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Would add continuous glucose monitors and related supplies required for use with those monitors as a covered benefit under the Medi-Cal program for the treatment of diabetes when medically necessary, subject to utilization controls. The bill would require the State Department of Health Care Services, by July 1, 2024, to review, and update as appropriate, coverage policies for continuous glucose monitors, as specified. The bill would authorize the department to require a manufacturer of a continuous glucose monitor to enter into a rebate agreement with the

department. The bill would limit its implementation to the extent that any necessary federal approvals are obtained, and federal financial participation is available.

AB 412 (**Soria** D) **Distressed Hospital Loan Program.**
Current Text: Amended: 4/24/2023 html pdf
Status: 6/14/2023-Referred to Com. on HEALTH.
Location: 6/14/2023-S. HEALTH

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Health Facilities Financing Authority Act authorizes the California Health Facilities Financing Authority to, among other things, make loans from the continuously appropriated California Health Facilities Financing Authority Fund to participating health institutions, as defined, for financing or refinancing the acquisition, construction, or remodeling of health facilities. This bill would create the Distressed Hospital Loan Program, until January 1, 2032, for the purpose of providing loans to not-for-profit hospitals and public hospitals, as defined, in significant financial distress, or to governmental entities representing a closed hospital to prevent the closure or facilitate the reopening of a closed hospital. The bill would require, subject to an appropriation by the Legislature, the Department of Health Care Access and Information to administer the program and would require the department to enter into an interagency agreement with the authority to implement the program. The bill would require the department, in collaboration with the State Department of Health Care Services, the Department of Managed Health Care, and the State Department of Public Health, to develop a methodology to evaluate an at-risk hospital's potential eligibility for state assistance from the program, as specified.

AB 488 (**Nguyen, Stephanie** D) **Medi-Cal: skilled nursing facilities: vision loss.**
Current Text: Introduced: 2/7/2023 html pdf
Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.
Location: 1/12/2024-A. DEAD

Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law requires the State Department of Health Care Services, subject to any necessary federal approvals, for managed care rating periods that begin between January 1, 2023, and December 31, 2026, inclusive, to establish and implement the Workforce and Quality Incentive Program under which a network provider furnishing skilled nursing facility services to a Medi-Cal managed care enrollee may earn performance-based directed payments from the Medi-Cal managed care plan with which they contract, as specified. Current law, subject to an appropriation, requires the department to set the amounts of those directed payments under a specified formula. Current law requires the department to establish the methodology or methodologies, parameters, and eligibility criteria for the directed payments, including the milestones and metrics that network providers of skilled nursing facility services must meet in order to receive a directed payment from a Medi-Cal managed care plan, with at least 2 of these milestones and metrics tied to workforce measures. This bill would require that the measures and milestones include program access, staff training, and capital improvement measures aimed at addressing the needs of skilled nursing facility residents with vision loss.

AB 551 (**Bennett** D) **Public Utilities Commission.**
Current Text: Enrolled: 9/5/2024 html pdf
Status: 8/31/2024-In Assembly. Concurrence in Senate amendments pending. Senate amendments concurred in. To Engrossing and Enrolling.
Location: 8/31/2024-A. ENROLLMENT

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law requires the Public Utilities Commission to submit amendments, revisions, or modifications of its Rules of Practice and Procedure to the Office of Administrative Law for prior review, but exempts from that

requirement general orders, resolutions, or other substantive regulations. This bill would clarify that regulations and guidelines related to the California Environmental Quality Act are also exempt from that requirement.

AB 564 **(Villapudua D) Medi-Cal: claim or remittance forms: signature.**
Current Text: Amended: 4/5/2023 html pdf
Status: 7/2/2024-Failed Deadline pursuant to Rule 61(b)(13). (Last location was HEALTH on 6/14/2023)
Location: 7/2/2024-S. DEAD

Desk	Policy	Fiscal	Floor	Desk	Dead	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law establishes the Medi-Cal program, which is administered by the State Department of Health Care Services, and under which qualified low-income individuals receive health care services. Current law requires the Director of Health Care Services to develop and implement standards for the timely processing and payment of each claim type. Current law requires that the standards be sufficient to meet minimal federal requirements for the timely processing of claims. Current law states the intent of the Legislature that claim forms for use by physicians and hospitals be the same as claim forms in general use by other payors, as specified. This bill would require the department to allow a provider to submit an electronic signature for a claim or remittance form under the Medi-Cal program, to the extent not in conflict with federal law.

AB 586 **(Calderon D) Medi-Cal: community supports: climate change or environmental remediation devices.**
Current Text: Amended: 3/30/2023 html pdf
Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.
Location: 1/18/2024-A. DEAD

Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law, subject to implementation of the California Advancing and Innovating Medi-Cal (CalAIM) initiative, authorizes a Medi-Cal managed care plan to elect to cover community supports approved by the department as cost effective and medically appropriate in a comprehensive risk contract that are in lieu of applicable Medi-Cal state plan services. Under existing law, community supports that the State Department of Health Care Services is authorized to approve include, among other things, housing deposits, environmental accessibility adaptations or home modifications, and asthma remediation. This bill would add climate change or environmental remediation devices to the above-described list of community supports. For purposes of these provisions, the bill would define "climate change or environmental remediation devices" as coverage of devices and installation of those devices, as necessary, to address health-related complications, barriers, or other factors linked to extreme weather, poor air quality, or climate events, including air conditioners, electric heaters, air filters, or backup power sources, among other specified devices for certain purposes.

AB 815 **(Wood D) Health care coverage: physician and provider credentials.**
Current Text: Amended: 7/3/2024 html pdf
Status: 8/15/2024-Failed Deadline pursuant to Rule 61(b)(14). (Last location was APPR. SUSPENSE FILE on 8/5/2024)
Location: 8/15/2024-S. DEAD

Desk	Policy	Fiscal	Floor	Desk	Policy	Dead	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law establishes the California Health and Human Services Agency, which includes departments charged with the administration of health, social, and other human services. Current law provides for the licensure and regulation of health care service plans by the Department of Managed Health Care under the Knox-Keene Health Care Service Plan Act of 1975, and the regulation of health insurers by the Department of Insurance. Current law sets forth requirements for provider credentialing by a health care service plan or health insurer. This bill would require the California Health and Human Services Agency to create and maintain a physician credentialing board, with specified membership, and would require the board, on or before July 1, 2027, to develop a standardized credentialing form to be

used by all health care service plans and health insurers. The bill would require every health care service plan or health insurer to use the standardized credentialing form, as specified. The bill would not apply the standardized form requirements to specified Medi-Cal managed care contracts with the State Department of Health Care Services.

AB 1022 **(Mathis R) Medi-Cal: Program of All-Inclusive Care for the Elderly.**
Current Text: Introduced: 2/15/2023 html pdf
Status: 2/1/2024-From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.
Location: 1/12/2024-A. DEAD

Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current federal law establishes the Program of All-Inclusive Care for the Elderly (PACE), which provides specified services for older individuals at a PACE center so that they may continue living in the community. Federal law authorizes states to implement PACE as a Medicaid state option. Current state law establishes the California Program of All-Inclusive Care for the Elderly (PACE program) to provide community-based, risk-based, and capitated long-term care services as optional services under the state's Medi-Cal state plan. Current law requires the department to develop and pay capitation rates to entities contracted through the PACE program using actuarial methods and that reflect the level of care associated with the specific populations served pursuant to the contract. Current law authorizes a PACE organization approved by the department to use video telehealth to conduct initial assessments and annual reassessments for eligibility for enrollment in the PACE program. This bill, among other things relating to the PACE program, would require those capitation rates to also reflect the frailty level and risk associated with those populations. The bill would also expand an approved PACE organization's authority to use video telehealth to conduct all assessments, as specified.

Summary: This bill, the Health Care Consolidation and Contracting Fairness Act of 2023, would prohibit a contract issued, amended, or renewed on or after January 1, 2024, between a health care service plan or health insurer and a health care provider or health facility from containing terms that, among other things, restrict the plan or insurer from steering an enrollee or insured to another provider or facility or require the plan or insurer to contract with other affiliated providers or facilities. The bill would authorize the appropriate regulating department to refer a plan's or insurer's contract to the Attorney General, and would authorize the Attorney General or state entity charged with reviewing health care market competition to review a health care practitioner's or health facility's entrance into a contract that contains specified terms. Because a willful violation of these provisions by a health care service plan would be a crime, the bill would impose a state-mandated local program.

Summary: Current law requires a health care service plan that intends to merge with, consolidate with, or enter into an agreement resulting in its purchase, acquisition, or control by, an entity, to give notice to, and secure prior approval from, the Director of the Department of Managed Health Care. Current law authorizes the director to disapprove the transaction or agreement if the director finds it would substantially lessen competition in health care service plan

products or create a monopoly in this state. Current law authorizes the director to conditionally approve the transaction or agreement, contingent upon the health care service plan's agreement to fulfill one or more conditions to benefit subscribers and enrollees of the health care service plan, provide for a stable health care delivery system, and impose other conditions specific to the transaction or agreement, as specified. This bill would additionally require a health care service plan that intends to acquire or obtain control of an entity, as specified, to give notice to, and secure prior approval from, the director. Because a willful violation of this provision would be a crime, the bill would impose a state-mandated local program.

Current regulations require the installation of a new engine or the retrofit of an existing engine in certain harbor craft to reduce emissions of air pollutants, as specified. This bill would require a diesel particulate filter that is retrofitted onto the engine of certain commercial harbor craft to include an override or bypass safety system that ensures that the commercial harbor craft can maintain a safe level of propulsion in the event of an emergency situation, as specified. The bill would require the manufacturer of an override or bypass safety system to design, install, and provide certain documentation regarding the override or bypass safety system, as specified. The bill would require the owner or operator of a commercial harbor craft that uses an override or bypass safety system to report the use and retain records regarding the use, as specified.

Summary: Current law requires an individual or small group health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2017, to include, at a minimum, coverage for essential health benefits pursuant to the federal Patient Protection and Affordable Care Act. Under existing law, essential health benefits include, among other things, rehabilitative and habilitative services. Current law requires habilitative services and devices to be covered under the same terms and conditions applied to rehabilitative services and devices under the plan contract or policy and defines habilitative services to mean health care services and devices that help a person keep, learn, or

improve skills and functioning for daily living. This bill would specify that coverage of rehabilitative and habilitative services and devices under a health care service plan or health insurance policy includes durable medical equipment, services, and repairs, if the equipment, services, or repairs are prescribed or ordered by a physician, surgeon, or other health professional acting within the scope of their license. The bill would define "durable medical equipment" to mean devices, including replacement devices, that are designed for repeated use, and that are used for the treatment or monitoring of a medical condition or injury in order to help a person to partially or fully acquire, improve, keep, or learn, or minimize the loss of, skills and functioning of daily living. The bill would prohibit coverage of durable medical equipment and services from being subject to financial or treatment limitations, as specified.

Summary: The Mental Health Services Act, an initiative measure enacted by the voters as Proposition 63 at the November 2, 2004, statewide general election, establishes the Mental Health Services Oversight and Accountability Commission, and authorizes the commission to take specified actions, including advising the Governor or the Legislature regarding actions the state may take to improve care and services for people with mental illness. Current law authorizes the State Department of Public Health to, among other things, enforce its regulations and protect and preserve the public health. This bill would require the department, in consultation with the commission, to report to specified policy committees of the Legislature, on or before December 31, 2026, a statewide strategy to understand, communicate, and mitigate mental health risks associated with the use of social media by children and youth. The bill would require the report to include, among other things, (1) the degree to which the mental health of children and youth is positively, negatively, or neutrally impacted by use of social media and (2) recommendations to strengthen children and youth resiliency strategies and California's use of mental health services related to social media use.

Summary: The Mello-Granlund Older Californians Act requires the California Department of Aging to designate various private nonprofit or public agencies as area agencies on aging to work within a planning and service area and provide a broad array of social and nutritional services. Under the act, the department's mission is to provide leadership to those agencies in developing systems of home- and community-based services that maintain individuals in their own homes or least restrictive homelike environments. This bill would, until January 1, 2030, and subject to an appropriation, require the department to establish a case management services pilot program. Under the bill, the purpose of the program would be to expand statewide the local capacity of supportive services programs by providing case management services to older individuals who need assistance to maintain health and economic stability. The bill would require the Counties of Alameda, Marin, and Sonoma to participate in the pilot program.

Summary: The Lanterman-Petris-Short Act provides for the involuntary commitment and treatment of a person who is a danger to themselves or others or who is gravely disabled, as defined. Pursuant to a schedule of covered benefits, current law requires Medi-Cal coverage for inpatient hospital services, subject to utilization controls, and with respect to fee-for service beneficiaries, coverage for emergency services and care necessary for the treatment of an emergency medical condition and medical care directly related to the emergency medical condition, as specified. Current law provides for the licensing and regulation of health facilities by the State Department of Public Health and makes a violation of those provisions a crime. Current law defines "psychiatric emergency medical condition," for purposes of providing treatment for emergency conditions, as a mental disorder that manifests itself by acute symptoms of sufficient severity that it renders the patient as being either an immediate danger to the patient or to others, or immediately unable to provide for, or utilize, food, shelter, or clothing, due to the mental disorder. Current law includes various circumstances under which a patient is required to be treated by, or may be transferred to, specified health facilities for treatment that is solely necessary to relieve or eliminate a psychiatric emergency medical condition. This bill would revise the definition of "psychiatric emergency medical condition" to make that definition applicable regardless of whether the patient is voluntary, or is involuntarily detained for assessment, evaluation, and crisis intervention, or placement for evaluation and treatment, under prescribed circumstances. The bill would make conforming and clarifying changes to provisions requiring facilities to provide that treatment.

Summary: The California Environmental Quality Act (CEQA requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. Current law establishes the Geologic Energy Management Division in the Department of Conservation, under the direction of the State Oil and Gas Supervisor, who is required to supervise the drilling, operation, maintenance, and abandonment of wells so as to permit the owners or operators of those wells to utilize all methods and practices known to the industry for the purpose of increasing the ultimate recovery of geothermal resources, as provided. Current law requires the division to be the lead agency for all geothermal exploratory projects for purposes of CEQA, as specified. specified, and authorizes the division to delegate its lead agency responsibility for geothermal exploratory projects to a county that has adopted a geothermal element for its general plan. Current law requires the delegation to provide that the county complete its lead agency responsibility within 135 days of the receipt of the application for the project. This bill would delete the requirement of the delegation to provide that the county complete its lead agency responsibility within 135 days. The bill would specify, upon the request of an applicant of a geothermal exploratory project, that the county in which the project is located is to assume the responsibilities of a lead agency regardless of

whether the county has adopted a geothermal element for its general plan. The bill would require the applicant to make the request to the county and the division. If a county assumes lead agency responsibility for a geothermal exploratory project, the bill would require the county and the division to confer regarding necessary information that should be included in the environmental review for the project to facilitate the division's exercise of its authority as a responsible agency.

Summary: Current law requires the Medical Board of California, in determining its continuing education requirements, to consider including a course in integrating mental and physical health care in primary care settings, especially as it pertains to early identification of mental health issues and exposure to trauma in children and young adults and their appropriate care and treatment. Current law requires a physician and surgeon to provide notice to patients at an initial office visit regarding a specified database. Current law requires the State Department of Public Health to license and regulate health facilities, including general acute care hospitals. Current law requires a general acute care hospital to establish and adopt written policies and procedures to screen patients who are 12 years of age and older for purposes of detecting a risk for suicidal ideation and behavior. The Knox-Keene Health Care Service Plan Act of 1975 provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Current law provides for the regulation of health insurers by the Department of Insurance. This bill would require a physician and surgeon, a general acute care hospital, a health care service plan, and a health insurer to provide to each legal guardian of a patient, enrollee, or insured, 10 to 18 years of age, a written or electronic notice regarding the benefits of a behavioral health and wellness screening. Summary: The Lanterman Developmental Disabilities Services Act makes the State Department of Developmental Services responsible for providing various services and supports to individuals with developmental disabilities, and for ensuring the appropriateness and quality of those services and supports. Current law establishes the Medi-Cal program, which is administered by the State Department of Health Care Services, and under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Current law establishes the California Advancing and Innovating Medi-Cal (CalAIM) initiative, subject to receipt of any necessary federal approvals and the availability of federal financial participation, in order to, among other things, improve quality outcomes, reduce health disparities, and increase flexibility. Current law authorizes the department to standardize those populations that are subject to mandatory enrollment in a Medi-Cal managed care plan across all aid code groups and Medi-Cal managed care models statewide, subject to a Medi-Cal managed care plan readiness, continuity of care transition plan, and disenrollment process developed in consultation with stakeholders, in accordance with specified requirements and the CalAIM Terms and Conditions. Existing law, if the department standardizes those populations subject to mandatory enrollment, exempts certain dual and non-dual beneficiary groups, as defined, from that mandatory enrollment. This bill would additionally exempt dual and non-dual-eligible beneficiaries who receive services from a regional center and use a Medi-Cal fee-for-service delivery system as a secondary form of health coverage.

In order to qualify for coverage under the Medi-Cal program, the bill would require a patient to be offered at least 3 of 6 specified medically supportive food and nutrition interventions and for the interventions to be provided for a minimum duration of 12 weeks, as specified. The bill would only provide coverage for nutrition support interventions when paired with the provision of food through one of the 3 offered interventions. Summary: Current law requires the State Department of Health Care Services to establish the Medically Tailored Meals Pilot Program and the Short-Term Medically Tailored Meals Intervention Services Program, to operate in specified counties and during limited periods for the purpose of providing medically tailored meal intervention services to eligible Medi-Cal beneficiaries with certain health conditions, including congestive heart failure, cancer, diabetes, chronic obstructive pulmonary disease, or renal disease. Current law, subject to implementation of the California Advancing and Innovating Medi-Cal (CalAIM) initiative, authorizes a Medi-Cal managed care plan to elect to cover community supports approved by the department as cost effective and medically appropriate in a comprehensive risk contract that are in lieu of applicable Medi-Cal state plan services. Under current law, community supports that the department is

authorized to approve include, among other things, medically supportive food and nutrition services, including medically tailored meals. This bill would make medically supportive food and nutrition interventions a covered benefit under the Medi-Cal program, through both the fee-for-service and managed care delivery systems, no sooner than July 1, 2026, upon appropriation and subject to federal approval and the issuance of final guidance by the department. The bill would require those interventions to be covered if determined to be medically necessary by a health care provider or health care plan, as specified. Summary: Would prohibit a health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2025, from requiring an enrollee or insured previously diagnosed with pervasive developmental disorder or autism to be reevaluated or receive a new behavioral diagnosis to maintain coverage for behavioral health treatment for their condition. The bill would require a treatment plan to be made available to the plan or insurer upon request. Because a willful violation of this provision by a health care service plan would be a crime, the bill would impose a state-mandated local program.

Summary: The federal Patient Protection and Affordable Care Act requires a health insurance issuer to comply with minimum medical loss ratios (MLRs) and to provide an annual rebate to each insured if the MLR of the amount of the revenue expended by the issuer on costs to the total amount of premium revenue is less than a certain percentage, as specified. Current law requires health care service plans and health insurers that issue, sell, renew, or offer a contract or policy, excluding specialized dental and vision contracts and policies, to comply with a minimum MLR of 85% and provide specified rebates. Current law requires a health care service plan or health insurer that issues, sells, renews, or offers a contract or policy covering dental services to annually report MLR information to the appropriate department. This bill would require a health care service plan or health insurer that issues, sells, renews, or offers a specialized dental health care service plan contract or specialized dental health insurance policy to comply with a minimum MLR of 85% and to provide a specified rebate to an enrollee or insured.

Summary: Current law covers emergency or nonemergency medical transportation, and nonmedical transportation, under the Medi-Cal program, as specified. This bill would require the State Department of Health Care Services to ensure that the fiscal burden of nonemergency medical transportation or nonmedical transportation is not unfairly placed on public paratransit service operators and would authorize the department to direct Medi-Cal managed care plans to

reimburse public paratransit service operators who are enrolled as Medi-Cal providers at the fee-for-service rates for conducting that transportation, as described. The bill would require the department to engage with public paratransit service operators to understand the challenges as public operators of nonemergency medical transportation or nonmedical transportation services and would require the department to issue new guidance to ensure the fiscal burden is not unfairly placed on public operators on or before June 1, 2026.

Summary: Current law exempts a health care service plan from the requirements of the Knox-Keene Health Care Service Plan Act of 1975 if the plan is operated by a city, county, city and county, public entity, political subdivision, or public joint labor management trust that satisfies certain criteria, including that the plan requires providers to be reimbursed solely on a fee-for-service basis. Current law authorizes the Director of the Department of Managed Health Care, no later than May 1, 2021, to authorize 2 pilot programs, one in northern California and one in southern California, under which providers approved by the department may undertake risk-bearing arrangements with a voluntary employees' beneficiary association (VEBA) with enrollment of more than 100,000 lives, notwithstanding the fee-for-service requirement described above, or a trust fund that is a welfare plan and a multiemployer plan with enrollment of more than 25,000 lives, for independent periods of time beginning no earlier than January 1, 2022, to December 31, 2025, inclusive, if certain criteria are met. Current law requires the association or trust fund and each health care provider participating in each pilot program to report to the department information regarding cost savings and clinical patient outcomes compared to a fee-for-service payment model and requires the department to report those findings to the Legislature no later than January 1, 2027. Current law repeals these provisions on January 1, 2028. This bill would instead authorize the director to authorize one pilot program in southern California, under which providers approved by the department may undertake risk-bearing arrangements with a VEBA, as specified above, if certain criteria are met. The bill would extend that repeal date to January 1, 2030. The bill would extend the period of time authorized for the pilot program to operate from December 31, 2025, to December 31, 2027.

Summary: Current law sets forth specified coverage requirements for health care service plan contracts and health insurance policies, and limits the copayment, coinsurance, deductible, and other cost sharing that may be imposed for specified health care services. This bill would require a health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2025, to provide coverage for the prophylaxis, diagnosis, and treatment of Pediatric Autoimmune Neuropsychiatric Disorder Associated with Streptococcal Infections (PANDAS) and Pediatric Acute-onset Neuropsychiatric Syndrome (PANS) that is prescribed or ordered by the treating physician and surgeon and is medically necessary, as specified. The bill would prohibit coverage for PANDAS and PANS from being subject to a copayment, coinsurance, deductible, or other cost sharing that is greater than that applied to other benefits. The bill would prohibit a plan or insurer from denying or delaying coverage for PANDAS or PANS therapies because the enrollee or insured previously received treatment for PANDAS or PANS or was diagnosed with or received treatment for the condition under a different diagnostic name. Because a willful violation of these provisions by a health care service plan would be a crime, the bill would impose a state-mandated local program.

Summary: Current law requires that Medi-Cal provider payments and payments for specified non-Medi-Cal programs be reduced by 10% for dates of service on and after June 1, 2011, and conditions implementation of those payment reductions on receipt of any necessary federal approvals. Current law, for dates of service on and after July 1, 2022, authorizes the maintenance of the reimbursement rates or payments for specified services, including, among others, Adverse Childhood Experiences (ACEs) trauma screenings and specified providers, using General Fund or other state funds appropriated to the State Department of Health Care Services as the state share, at the payment levels in effect on December 31, 2021, as specified, under the California Healthcare, Research and Prevention Tobacco Tax Act of 2016 that were implemented with funds from the Healthcare Treatment Fund, as specified. Current law requires the department to develop the eligibility criteria, methodologies, and parameters for the payments and rate increases maintained, and would authorize revisions, as specified. This bill would require the department, as part of its above-described duties, to include (1) community-based organizations and local health jurisdictions that provide health services through community health workers and (2)doulas, that are enrolled Medi-Cal providers, as providers qualified to provide, and eligible to receive payments for, ACEs trauma screenings pursuant to the provisions described above. The bill would require the department to file a state plan amendment and seek any federal approvals it deems necessary to implement these provisions and condition implementation on receipt of any necessary federal approvals and the availability of federal financial participation.

The bill would require clinics with a supply of narcotic drugs being dispensed pursuant to these provisions to establish policies or procedures for dispensing the narcotics, as specified. Because the bill would specify additional requirements under the Pharmacy Law, a violation of which would be a crime, it would impose a state-mandated local program.

Summary: Current law generally regulates contractual provisions between health care service plans and health insurers and their contracting health care providers. This bill would require a contract between a health care service plan or health insurer and a health care provider issued, amended, or renewed on or after January 1, 2025, to authorize a provider to separately bill for devices, implants, or professional services, or a combination thereof, associated with immediate postpartum contraception if the birth takes place in a general acute care hospital or licensed birth center. The bill would prohibit that provider contract from considering those devices, implants, or services to be part of a payment for a general obstetric procedure. Summary: Current law requires an adult patient receiving primary care services in certain health care settings to be offered a screening test for hepatitis B and hepatitis C, as specified. This bill would require a patient who is 18 years of age or older receiving health care services in a facility, clinic, center, office, or other setting, where primary care services are provided, to be offered tuberculosis screening, if tuberculosis risk factors are identified, to the extent these services are covered under the patient's health care coverage, except as specified. The bill would also require the health care provider to offer the patient follow up health care or refer the patient to a health care provider who can provide follow up health care if a screening test is positive. The bill would prohibit a health care provider that fails to comply with these provisions from being subject to any disciplinary action related to their licensure or certification, or to any civil or criminal liability, for that failure.

Summary: Current law generally authorizes a health care service plan or health insurer to use utilization review, under which a licensed physician or a licensed health care professional who is competent to evaluate specific clinical issues may approve, modify, delay, or deny requests for health care services based on medical necessity. Current law also prohibits a health care service plan that covers prescription drug benefits from limiting or excluding coverage for a drug that was previously approved for coverage if an enrollee continues to be prescribed that drug, as specified. The bill would authorize a licensed health care professional to request, and would require that they be granted, the authority to adjust the dose or frequency of a drug to meet the specific medical needs of the enrollee or insured without prior authorization if specified conditions are met. Under the bill, if the enrollee or insured has been continuously using a prescription drug selected by their prescribing provider for the medical condition under consideration while covered by their current or previous health coverage, the health care service plan or health insurance policy would be prohibited from limiting or excluding coverage of that prescription. With respect to health care service plans, the bill would specify that its provisions do not apply to Medi-Cal managed care plan contracts.

Summary: Current law generally prohibits a person who manufactures a prescription drug from offering in California any discount, repayment, product voucher, or other reduction in an individual's out-of-pocket expenses associated with the individual's health insurance, health care service plan, or other health coverage, including, but not limited to, a copayment, coinsurance, or deductible, for any prescription drug if a lower cost generic drug is covered under the individual's health insurance, health care service plan, or other health coverage on a lower cost-sharing tier that is designated as therapeutically equivalent to the prescription drug manufactured by that person or if the active ingredients

of the drug are contained in products regulated by the federal Food and Drug Administration, are available without prescription at a lower cost, and are not otherwise contraindicated for the condition for which the prescription drug is approved. This bill would require a health care service plan, health insurance policy, or pharmacy benefit manager that administers pharmacy benefits for a health care service plan or health insurer to apply any amounts paid by the enrollee, insured, or a third-party patient assistance program for prescription drugs toward the enrollee's or insured's cost-sharing requirement, and would only apply those requirements with respect to enrollees or insureds who have a chronic disease or terminal illness. The bill would limit the application of the section to health care service plans and health insurance policies issued, amended, delivered, or renewed on or after January 1, 2025. The bill would repeal those provisions on January 1, 2035.

Summary: Current law provides for the regulation of health insurers by the Department of Insurance. Current law requires health care service plans and health insurers, commencing January 1, 2024, to establish and maintain specified application programming interfaces (API), including patient access API, for the benefit of enrollees, insureds, and contracted providers. Current law authorizes the departments to require health care service plans or health insurers, as applicable, to establish and maintain provider access API and prior authorization support API if and when final federal rules are published. This bill would instead require the departments, commencing January 1, 2027, or when final federal rules are implemented, whichever occurs later, to require health care service plans and health insurers to establish and maintain patient access API, provider access API, payer-to-payer API, and prior authorization API. The bill, until January 1, 2027, would authorize the departments to issue guidance relating to these provisions not subject to the Administrative Procedure Act, as specified. Because a violation of these requirements by a health care service plan would be a crime, this bill would impose a state-mandated local program.

Summary: Current law provides for the regulation of health insurers by the Department of Insurance. Current law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. This bill, the California Guaranteed Health Care for All Act, would create the California Guaranteed Health Care for All program, or CalCare, to provide comprehensive universal single-payer health care coverage and a health care cost control system for the benefit of all residents of the state. Under the bill, CalCare would be a health care service plan subject to Knox-Keene. The bill, among other things, would provide that CalCare cover a wide range of medical benefits and other services and would incorporate the health care benefits and standards of other existing federal and state provisions, including the federal Children's Health Insurance Program, Medi-Cal, ancillary health care or social services covered by regional centers for persons with developmental disabilities, Knox-Keene, and the federal Medicare Program. The bill would make specified persons eligible to enroll as CalCare members during the implementation period and would provide for automatic enrollment. The bill would require the board to seek all necessary waivers, approvals, and agreements to allow various existing federal health care payments to be paid to CalCare, which would then assume responsibility for all benefits and services previously paid for with those funds.

Summary: The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Under current law, specialty mental health services include federal Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) services provided to eligible Medi-Cal beneficiaries under 21 years of age. This bill would require, when a child or youth 21 years of age or younger who is receiving Medi-Cal specialty mental health services changes residence from one county to another, the receiving county to provide specialty mental health services to the child or youth, if the transfer of those services from one county to another is not otherwise governed by a process established in statute. The bill also would require the State Department of Health Care Services to collect specified data related to the receipt of specialty mental health services by children and youth who move outside of the county where they originally received specialty mental health services, and to include the data in the department's Medi-Cal specialty mental health services performance dashboard. The bill would require the department to issue guidance, as specified, to define the requirements placed on a receiving county for the continued provision of specialty mental health services, to coordinate and expedite the transfer of services from one county to another and reduce the burden on children and youth and their caregivers to reestablish services in the receiving county. The bill would authorize the department to implement, interpret, or make specific its provisions by means of all-county letters, plan letters, plan or provider bulletins, or similar instructions, until regulations are adopted, as specified.

Summary: Current law establishes requirements for the delivery of medical services, including via telehealth by specified health care providers. A violation of the Medical Practice Act is a crime. Under existing law, a "health care provider," for purpose of the act, includes a qualified autism service provider or a qualified autism service professional that is certified by a national entity, as specified. This bill would expand that definition of "health care provider" to also include a qualified autism service paraprofessional. By expanding the scope of a crime under the act, the bill would impose a state-mandated local program.

Summary: Would require a health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2027, to include coverage for screenings for social determinants of health, as defined. The bill would require providers to use standardized codes when documenting patient responses to questions asked in these screenings, and would require providers to use existing tools or protocols to conduct the screenings. The bill would require a health care service plan or health insurer to provide physicians who provide primary care services with adequate access to peer support specialists, lay health workers, social workers, or community health workers in counties where the plan or insurer has enrollees or insureds, as specified. The bill would authorize the respective departments to adopt guidance to implement its provisions until regulations are adopted and would require the departments to coordinate in the development of guidance and regulations. Because a violation of the bill's requirements by a health care service plan

would be a crime, the bill would impose a state-mandated local program.

Summary: Current law requires a group or individual nongrandfathered health care service plan contract or health insurance policy to provide coverage for and prohibits a contract or policy from imposing cost-sharing requirements for, specified preventive care services and screenings. This bill would prohibit a group or individual nongrandfathered health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2025, from imposing a cost-sharing requirement for items or services that are integral to the provision of the above-described preventive care services and screenings. The bill would require those contracts and policies to cover items and services for those preventive care services and screenings, including home test kits for sexually transmitted diseases and specified cancer screenings. Because a willful violation of these provisions by a health care service plan would be a crime, the bill would impose a state-mandated local program. The bill would authorize the Insurance Commissioner to impose a civil penalty of not more than $5,000 against an insurer for each violation of these provisions, or not more than $10,000 per violation if the violation was willful.

Current law authorizes the Board of Supervisors of the County of Alameda to establish the Alameda Health System Hospital Authority for the management, administration, and control of the medical center in that county. Current law authorizes the hospital authority to acquire and possess real or personal property and to dispose of real or personal property other than that owned by the county, as may be necessary for the performance of its functions. This bill would require HCAI, subject to review and approval by the Department of Finance, as specified, to approve the forgiveness of any loans under the Distressed Hospital Loan Program for the St. Rose Hospital in the City of Hayward if the hospital is acquired by the Alameda Health System Hospital Authority. The bill would require HCAI to forgive the full amounts of the principal, interests, fees, and any other outstanding balances of the loan.

Summary: Current law provides that federally qualified health center services and rural health clinic services, as defined, are covered benefits under the Medi-Cal program, to be reimbursed, to the extent that federal financial participation is obtained, to providers on a per-visit basis and at a per-visit prospective payment system rate, as defined. Current law establishes 5 separate minimum wage schedules for covered health care employees, as defined, depending on the nature of the employer and includes increases beginning on June 1, 2024. Current law generally requires the State Department of Public Health to license, regulate, and inspect health and care facilities. This bill would, upon

appropriation, require the State Department of Health Care Services to develop a minimum wage add-on as an alternative payment methodology to increase rates of payment for specified health care facilities to account for the costs of complying with the minimum wage schedules described above. The bill would require that the alternative methodology be applied retroactively to January 1, 2025, until those costs are included in the prospective payment system rate. The bill would require the department to seek all necessary federal approvals or amendments to the state Medi-Cal plan to implement these provisions and would require the department to make any state plan amendments or waiver requests public 45 days prior to submitting them to the federal Centers for Medicare and Medicaid Services.

Summary: Current law makes legislative findings relating to implicit bias and racial disparities in maternal mortality rates. Current law requires a hospital that provides perinatal care, and an alternative birth center or a primary clinic that provides services as an alternative birth center, to implement an evidence-based implicit bias program, as specified, for all health care providers involved in perinatal care of patients within those facilities. Current law requires the health care provider to complete initial basic training through the program and a refresher course every 2 years thereafter, or on a more frequent basis if deemed necessary by the facility. Current law requires the facility to provide a certificate of training completion upon request, to accept certificates of completion from other facilities, and to offer training to physicians not directly employed by the facility. Current law requires the State Department of Public Health to track and publish data on pregnancy-related death and severe maternal morbidity, as specified. This bill would make a legislative finding that the Legislature recognizes all birthing people, including nonbinary persons and persons of transgender experience. The bill would extend the evidence-based implicit bias training requirements to specified health care providers at hospitals that provide perinatal care, alternative birth centers, or primary care clinics, as specified. The bill would require an implicit bias program to include recognition of intersecting identities and the potential associated biases. The bill would require initial basic training for the implicit bias program to be completed by June 1, 2025, for current health care providers, and within 6 months of their start date for new health care providers, unless exempted. The bill would require specified facilities to, by February 1 of each year, commencing in 2026, provide the Attorney General with proof of compliance with these provisions, as specified. The bill would authorize the Attorney General to pursue civil penalties for violations of these provisions, as specified. The bill would require that Attorney General be awarded all attorney's fees and costs in any civil action in which a court imposes any of those civil penalties. Summary: Current law establishes the Division of Health Care Operations and the Division of Health Care Policy and Administration within the Department of Corrections and Rehabilitation (CDCR) under the supervision of the Undersecretary of Health Care Services. Current law requires the department to expand substance abuse treatment services in prisons to accommodate at least 4,000 additional inmates who have histories of substance abuse. Current law requires the department to establish a 3-year pilot program to provide a medically assisted substance use disorder treatment model for the treatment of inmates, as specified. This bill would require the CDCR to take specific actions in the provision of substance use treatment, such as ensuring uniform application of the California Correctional Health Care Services Care Guide and retaining at least one full-time addiction medicine physician and surgeon at each facility to be

assigned medication-assisted treatment patients exclusively. The bill would require the CDCR to provide physicians and surgeons clear guidance on interpretation of certain toxicology tests, the misuse, abuse, and illegal distribution of substances, and access to alternative medication. The bill would require the CDCR to provide physicians and surgeons training consisting of at least 8 hours of integrated substance use disorder treatment didactic training, 3 days of shadowing an integrated substance use disorder treatment practice, and an annual training of at least 8 hours covering specified topics.

Summary: Under current law, subject to federal approval, in-person, face-to-face contact is not required under Medi-Cal when covered health care services are provided by video synchronous interaction, asynchronous store and forward, audio-only synchronous interaction, remote patient monitoring, or other permissible virtual communication modalities, when those services and settings meet certain criteria. Current law defines “asynchronous store and forward” as the transmission of a patient’s medical information from an originating site to the health care provider at a distant site. This bill would expand that definition, for purposes of the above-described Medi-Cal provisions, to include asynchronous electronic transmission initiated directly by patients, including through mobile telephone applications.

Summary: Current law establishes the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income individuals receive medically necessary health care services, through fee-for-service or managed care delivery systems. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Under current law, early and periodic screening, diagnostic, and treatment (EPSDT) services are covered under Medi-Cal for an individual under 21 years of age in accordance with certain federal provisions. Current federal regulations require the state to provide for a combination of written and oral methods designed to inform individuals eligible for EPSDT services, or their families, about the EPSDT program, within 60 days of the individual’s initial Medicaid eligibility determination and, in the case of families that have not utilized EPSDT services, annually thereafter, as specified. Under those regulations, required information includes, among other components, the benefits of preventive health care and the services available under the EPSDT program and where and how to obtain those services. This bill would require the department to prepare written informational materials that effectively explain and clarify the scope and nature of EPSDT services, as defined, that are available under the Medi-Cal program. Under the bill, the materials would include, but would not be limited to, the information required in the above-described federal regulations or their successor. Under the bill, the informational materials would also include content designed for youth, for purposes of delivery of that content to a beneficiary who is 12 years of age or older but under 21 years of age.

Summary: Under current law, a hospital designated by the State Department of Health Care Services as a critical access hospital, and certified as such by the Secretary of the United States Department of Health and Human Services under the federal Medicare rural hospital flexibility program, is eligible for supplemental payments for Medi-Cal covered outpatient services rendered to Medi-Cal eligible persons. Current law conditions those payments on receipt of federal financial participation and an appropriation in the annual Budget Act for the nonfederal share of those payments, with supplemental payments being apportioned among critical access hospitals based on their number of Medi-Cal outpatient visits. This bill, subject to appropriation and the availability of federal funding, would require the department to provide an annual supplemental payment, for services covered under Medi-Cal, to each critical access hospital that operates on an island that is located more than 10 miles offshore of the mainland coast of the state but is still within the jurisdiction of the state. The bill would specify the formula of the payment amount, which would be in addition to any supplemental payment described above.

Summary: Current law establishes the requirements for executing a written advance health care directive that is legally sufficient to direct health care decisions. Current law provides a form that an individual may use or modify to create an advance health care directive. Under existing law, a written advance health care directive is legally sufficient if specified requirements are satisfied, may be revoked by a patient having capacity at any time, and is revoked to the extent of a conflict with a later executed directive. Current law requires a supervising health care provider who knows of the existence of an advance health care directive or its revocation to record that fact in the patient's health record. Existing law sets forth requirements of witnesses to a written advance health care directive. A written advance health care directive or similar instrument executed in another jurisdiction is valid and enforceable in this state under existing law. A person who intentionally falsifies, forges, conceals, defaces, or obliterates an individual's advance health care directive or its revocation without the individual's consent is subject to liability of up to $10,000 or actual damages, whichever is greater, plus reasonable attorney's fees. Current law authorizes an appeal of specified orders relating to an advance health care directive. Current law generally prohibits involuntary civil placement of a ward, conservatee, or person with capacity in a mental health treatment facility, subject to a valid and effective advance health care directive. Under current law, an advance psychiatric directive is a legal document, executed on a voluntary basis by a person who has the capacity to make medical decisions and in accordance with the requirements for an advance health care directive, that allows a person with mental illness to protect their autonomy and ability to direct their own care by documenting their preferences for treatment in advance of a mental health crisis. An individual may execute both an advance health care directive and a voluntary standalone psychiatric advance directive. This bill would extend the above-described advance health care directive provisions to psychiatric advance directives and would make conforming changes. The bill would specify that a psychiatric advance directive is a legal written or digital document, executed as specified, that allows a person with behavioral health illness to document their preferences for treatment and identify a health care advocate in advance of a behavioral health crisis.

Summary: Qualified individuals under the Medi-Cal program include medically needy persons and medically needy family persons who meet the required eligibility criteria, including applicable income requirements. Current law requires the department to establish income levels for maintenance need at the lowest levels that reasonably permit a medically needy person to meet their basic needs for food, clothing, and shelter, and for which federal financial participation will

still be provided under applicable federal law. In calculating the income of a medically needy person in a medical institution or nursing facility, or a person receiving institutional or noninstitutional services from a Program of All-Inclusive Care for the Elderly organization, the required monthly maintenance amount includes an amount providing for personal and incidental needs in the amount of not less than $35 per month while a patient. Current law authorizes the department to increase, by regulation, this amount as necessitated by increasing costs of personal and incidental needs. This bill would increase the monthly maintenance amount for personal and incidental needs from $35 to $50, and would require that the amount be increased annually, as specified. The bill would make these changes subject to receipt of necessary federal approvals.

Summary: Current law provides for the licensure and regulation by the State Department of Public Health of certain health facilities, including a chemical dependency recovery hospital, which is defined to mean a health facility that provides 24-hour inpatient care for persons who have a dependency on alcohol or other drugs, or both alcohol and other drugs. Current law requires all beds in a chemical dependency recovery hospital to be designated for chemical dependency recovery services, as specified. Current law authorizes chemical dependency recovery services to be provided in a freestanding facility, within a hospital building that only provides chemical recovery services, or within a distinct part of a hospital, as defined. Current law also authorizes chemical dependency recovery services to be provided within a hospital building that has been removed from general acute care use. Existing law requires chemical dependency recovery services to comply with specified regulatory requirements for basic services, and optional services if the facility is approved by the department to provide them. Current law only authorizes the colocation of chemical dependency recovery services as a distinct part with other services or distinct parts of its parent hospital, as specified. Current law requires a separately licensed chemical dependency recovery hospital that is not a distinct part of a general acute care hospital to have agreements with one or more general acute care hospitals to provide specified additional services. This bill would expand the definition of “chemical dependency recovery services” to include medications for addiction treatment and medically supervised voluntary inpatient detoxification but would specify that it does not include certain treatment of severe, potentially life threatening, intoxication and withdrawal syndromes. The bill would delete the requirement for chemical dependency recovery as a supplemental service to be provided in a distinct part of a general acute care hospital or acute psychiatric hospital, and instead would authorize those facilities to provide chemical dependency recovery services as a supplemental service within the same building or in a separate building on campus that meets specified structural requirements of a freestanding chemical dependency recovery hospital.

The bill would limit the provided diapers to an appropriate supply based on the diagnosed condition and the age of the Medi-Cal beneficiary. The bill would require the department to seek any necessary federal approvals to implement these provisions. The bill would condition implementation of these provisions on receipt of any necessary federal approvals, the availability of federal financial participation, and an appropriation by the Legislature.

Summary: Current law requires a health care service plan contract or health insurance policy to provide coverage for behavioral health treatment provided for pervasive developmental disorder or autism and requires a plan or policy to maintain an adequate network of qualified autism service providers. Under current law, a "qualified autism service provider" means, among other things, a person who is certified by a national entity, such as the Behavior Analyst Certification Board, with a certification that is accredited by the National Commission for Certifying Agencies. This bill would clarify that the Qualified Applied Behavior Analysis Credentialing Board is also a national entity that may certify a qualified autism service provider and would authorize the certification to be accredited by another national accrediting entity approved by the Secretary of California Health and Human Services.

Summary: Current law authorizes the Director of Health Care Services to terminate a contract or impose sanctions if the director finds that a Medi-Cal managed care plan fails to comply with contract requirements, state or federal law or regulations, or the state plan or approved waivers, or for other good cause. Current law establishes, until January 1, 2026, certain time and distance and appointment time standards for specified Medi-Cal managed care covered services, consistent with federal regulations relating to network adequacy standards, to ensure that those services are available and accessible to enrollees of Medi-Cal managed care plans in a timely manner, as specified. Under this bill, a Medi-Cal managed care plan would be deemed to be not in compliance with the appointment time standards if either (1) fewer than 85% of the network providers had an appointment available within the standards or (2) the department receives information establishing that the plan was unable to deliver timely, available, or accessible health care services to enrollees, as specified. Under the bill, failure to comply with the appointment time standard may result in contract termination or the issuance of sanctions as described above.

Summary: Current law provides for the regulation of health insurers by the Department of Insurance. Current law sets forth specified coverage requirements for health care service plan contracts and health insurance policies. This bill would require a health care service plan contract or health insurance policy, except as specified, to include coverage for evaluation and treatment options for perimenopause and menopause. The bill would require a health care service plan or health insurer to annually provide clinical care recommendations, as specified, for hormone therapy to all contracted primary care providers who treat individuals with perimenopause and menopause. Because a willful violation of these provisions by a health care service plan would be a crime, the bill would impose a state-mandated local program.

This bill would require a health care service plan, except as specified, or health insurer to provide to enrollees and insureds a written or electronic notice regarding the benefits of a behavioral health and wellness screening, as defined, for children and adolescents 8 to 18 years of age. The bill would require a health care service plan or insurer to provide the notice annually.

This bill would define "kindergarten" for these purposes as including both transitional kindergarten and kindergarten and would require the above-described proof only once during a 2-year kindergarten program. To the extent the bill would impose additional duties on public schools, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

The bill would require a licensed provider to prescribe the cranial prosthesis for an individual’s course of treatment for a diagnosed health condition, chronic illness, or injury, as specified. The bill would limit coverage to once every 12 months and $750 for each instance of coverage. The bill would not apply these provisions to a specialized health care service plan or specialized health insurance policy. Because a violation of these requirements by a health care service plan would be a crime, the bill would impose a state-mandated local program.

Summary: The Mello-Granlund Older Californians Act requires the California Department of Aging to designate various private nonprofit or public agencies as area agencies on aging to work within a planning and service area and provide a broad array of social and nutritional services. Under the act, the department’s mission is to provide leadership

to those agencies in developing systems of home- and community-based services that maintain individuals in their own homes or least restrictive homelike environments. This bill would, until January 1, 2031, and subject to an appropriation, require the department to establish a case management services demonstration project in up to 4 counties located in varying regions of the state, based on a process of selection by the department and voluntary participation by the selected counties. Under the bill, the purpose of the project would be to expand statewide the local capacity of supportive services programs by providing case management services to older individuals who need assistance to maintain health and economic stability.

Summary: (1)Existing law requires the Secretary for Environmental Protection to implement a unified hazardous waste and hazardous materials management regulatory program, known as the unified program. Existing law requires every county to apply to the secretary to be certified to implement the unified program and authorizes a city or local agency that meets specified requirements to apply to the secretary to be certified to implement the unified program, as a certified unified program agency. Existing law authorizes a state or local agency that has a written agreement with a certified unified program agency, and is approved by the secretary, to implement or enforce one or more of the unified program elements as a participating agency. Existing law defines “unified program agency” to mean a certified unified program agency or its participating agencies, as provided. This bill would require this reporting to be made to the California Environmental Protection Agency instead of the Office of Emergency Services. The bill would delete the requirement on the Office of Emergency Services to adopt regulations and would instead require the California Environmental Protection Agency to be responsible for the adoption and revision of the regulations and for the oversight of the enforcement of the regulations. The bill would require the California Environmental Protection Agency, on or before January 1, 2028, to review and revise the regulations that implement the reporting requirements. Summary: Under current law, one dental prophylaxis cleaning per year and one initial dental examination by a dentist are covered Medi-Cal benefits for beneficiaries 21 years of age or older. Under existing law, 2 dental prophylaxis cleanings per year and 2 periodic dental examinations per year are covered Medi-Cal benefits for beneficiaries under 21 years of age. Current law conditions implementation of those provisions on receipt of any necessary federal approvals, the availability of federal financial participation, and, for beneficiaries 21 years of age or older, funding in the annual Budget Act. This bill would expand the above-described dental benefits, for beneficiaries 21 years of age or older, to at least 2 cleanings and at least 2 examinations per year when medically necessary, as specified in the Medi-Cal Dental Manual of Criteria. The bill would, for purposes of these provisions, include an individual’s inability to maintain daily oral hygiene habits, susceptibility to oral health disease or decay, preoperative dental care, or as required by other specified provisions of law, in the definition of “medically necessary,” and require the department to update the Medi-Cal Dental Manual of Criteria to conform with this inclusion.

Summary: Current law requires an individual or small group health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2017, to include, at a minimum, coverage for essential health benefits pursuant to the federal Patient Protection and Affordable Care Act. Under current law, essential health benefits include, among other things, rehabilitative and habilitative services. Current law requires habilitative services and devices to be covered under the same terms and conditions applied to rehabilitative services and devices under the plan contract or policy, and defines habilitative services to mean health care services and devices that help a person keep, learn, or improve skills and functioning for daily living. This bill would specify that coverage of rehabilitative and habilitative services and devices under a health care service plan or health insurance policy includes durable medical equipment, services, and repairs, if the equipment, services, or repairs are prescribed or ordered by a physician, surgeon, or other health professional acting within the scope of their license. The bill would define "durable medical equipment" to mean devices, including replacement devices, that are designed for repeated use, and that are used for the treatment or monitoring of a medical condition or injury in order to help a person to partially or fully acquire, improve, keep, or learn, or minimize the loss of, skills and functioning of daily living. The bill would prohibit a health care service plan or health insurer from requiring, as a condition of providing coverage, (1) an enrollee or insured to file a police report, (2) charges to be brought against an assailant, (3) or an assailant to be convicted of rape or sexual assault. Because a violation of the bill by a health care service plan would be a crime, the bill would impose a state-mandated local program.

Summary: Current law requires the Department of Insurance to regulate health insurers. Current law requires an individual or small group health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2017, to include, at a minimum, coverage for essential health benefits pursuant to the federal Patient Protection and Affordable Care Act. Current law requires a health care service plan contract or health insurance policy to cover the same health benefits that the benchmark plan, the Kaiser Foundation Health Plan Small Group HMO 30 plan, offered during the first quarter of 2014, as specified. This bill would express the intent of the Legislature to review California's essential health benefits benchmark plan and establish a new benchmark plan for the 2027 plan year. The bill would limit the applicability of the current benchmark plan benefits to plan years on or before the 2027 plan year.

Summary: The Unruh Civil Rights Act provides that all persons within the jurisdiction of this state are free and equal and, regardless of their sex, race, color, religion, ancestry, national origin, disability, medical condition, genetic information, marital status, sexual orientation, citizenship, primary language, or immigration status, are entitled to the full and equal accommodations, advantages, facilities, privileges, or services in all business establishments of every kind whatsoever. The California Fair Employment and Housing Act establishes the Civil Rights Department within the Business, Consumer Services, and Housing Agency and requires the department to, among other things, bring civil actions to enforce the act. This bill would, among other things, require, as prescribed, a deployer, as defined, and a developer of an automated decision system, as defined, to perform an impact assessment on any automated decision system before the system is first deployed and annually thereafter that includes, among other things, a statement of the purpose of the automated decision system and its intended benefits, uses, and deployment contexts. The bill would require a deployer or a developer to provide any impact assessment that it performed to the Civil Rights Department and would exempt an impact assessment provided to the department from the California Public Records Act, as prescribed. This bill would require a deployer to, prior to an automated decision system making a consequential decision, as defined, or being a substantial factor, as defined, in making a consequential decision, notify any natural person that is subject to the consequential decision that an automated decision system is being used and to provide that person with specified information. The bill would require a deployer that has deployed an automated decision system to make, or be a substantial factor in making, a consequential decision concerning a natural person, to provide to the natural person, among other things, an opportunity to correct any incorrect personal data.

Summary: Current law generally requires a county to redetermine a Medi-Cal beneficiary's eligibility to receive Medi-Cal benefits every 12 months and whenever the county receives information about changes in a beneficiary's circumstances that may affect their Medi-Cal eligibility. Current law conditions implementation of the redetermination provisions on the availability of federal financial participation and receipt of any necessary federal approvals. Under current law, if a county has facts clearly demonstrating that a Medi-Cal beneficiary cannot be eligible for Medi-Cal due to an event, such as death or change of state residency, Medi-Cal benefits are terminated without a redetermination. Current law requires the department, subject to federal funding, to extend continuous eligibility to children 19 years of age or younger for a 12-month period, as specified. Under current law, operative on January 1, 2025, or the date that the State Department of Health Care Services certifies that certain conditions have been met, a child is continuously eligible for Medi-Cal up to 5 years of age. Under those provisions, a redetermination is prohibited during this time, unless certain circumstances apply, including, voluntary disenrollment, death, or change of state residency. This bill would require the department to seek federal approval to extend continuous eligibility to individuals over 19 years of age. Under the bill, subject to federal funding, and except as described above with regard to death, change of state residency, or other events, an individual would remain eligible from the date of a Medi-Cal eligibility determination until the end of a 12-month period, as specified.

Summary: Current law requires a nonprofit corporation that operates or controls a health facility or other facility that provides similar health care to provide written notice to, and to obtain the written consent of, the Attorney General prior to entering into any agreement or transaction to sell, transfer, lease, exchange, option, convey, or otherwise dispose of the asset, or to transfer control, responsibility, or governance of the asset or operation, to a for-profit corporation or entity, to a mutual benefit corporation or entity, or to a nonprofit corporation, as specified. This bill would require a private equity group or a hedge fund, as defined, to provide written notice to, and obtain the written consent of, the Attorney General before a transaction between the private equity group or hedge fund and a health care facility, provider, or provider group, as those terms are defined, and any of those entities that directly or indirectly control, are controlled by, are under common control of, or are otherwise affiliated with a payor, except as specified. The bill would require the notice to be submitted at the same time that any other state or federal agency is notified pursuant to state or federal law, and otherwise at least 90 days before the transaction. The bill would authorize the Attorney General to extend that 90-day period under certain circumstances. The bill would additionally require a private equity group or hedge fund to provide advance written notice to the Attorney General before a transaction between a private equity group or hedge fund and a nonphysician provider or a provider, with specified gross annual revenue.

Summary: Current law defines "community health worker" as a liaison, link, or intermediary between health and social services and the community to facilitate access to services and to improve the access and cultural competence of service delivery and who is a frontline health worker either trusted by, or who has a close understanding of, the community served. Current law includes in the definition of community health worker Promotores, Promotores de Salud, Community Health Representatives, navigators, and other non-licensed health workers with specified qualifications. This bill would require the State Department of Health Care Services, by no later than January 1, 2025, and until December 31, 2026, to convene the Promotores and Promotoras Advisory and Oversight Workgroup to provide perspective and guidance to changes in the health and human services delivery system, including, but not limited to, the Medi-Cal program. The bill would require the secretary to appoint no fewer than 9 individuals to the workgroup who have at least ten years experience working in California as, or with, Promotores or Promotoras. The bill would require the workgroup

to be comprised of no less than 51% Promotores or Promotoras, as specified, and require the appointees to be from geographically diverse areas of the state. The bill would require the workgroup to advise the departments under the agency to ensure that services provided by Promotores or Promotoras are available and accessible to all eligible populations. The bill would also require the workgroup to advise the agency to ensure that Promotores and Promotoras training and outreach materials are culturally and linguistically appropriate, to make recommendations on outreach efforts, as specified, and to provide input on issues that should be informed by community representatives who have lived experience with using and navigating Promotores or Promotoras services and the Medi-Cal program.

Summary: Under current federal law, in accordance with third-party liability rules, Medicaid is generally the payer of last resort if a beneficiary has another source of health care coverage in addition to Medicaid coverage. Under this bill, in the case of a Medi-Cal managed care plan enrollee who also has other health care coverage and for whom the Medi-Cal program is a payer of last resort, the department would be required to ensure that a provider that is not contracted with the plan and that is billing the plan for Medi-Cal allowable costs not paid by the other health care coverage does not face administrative requirements significantly in excess of the administrative requirements for billing those same costs to the Medi-Cal fee-for-service delivery system. Under the bill, in the case of an enrollee who meets those coverage criteria, except as specified, a Medi-Cal fee-for-service provider would not be required to contract as an in-network provider with the Medi-Cal managed care plan in order to bill the plan for Medi-Cal allowable costs for covered health care services.

Summary: The Knox-Keene Health Care Service Plan Act of 1975 provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Current law requires the records, books, and papers of a health care service plan and other specified entities to be open to inspection by the director of the department during normal business hours. This bill would instead require the records, books, and papers of a health care service plan and other specified entities to be open to inspection by the director, including through electronic means. The bill would require a plan and other specified entities to furnish in electronic media records, books, and papers that are possessed in electronic media and to conduct a diligent review of records, books, and papers and make every effort to furnish those responsive to the director's request. The bill would require records, books, and papers to be furnished in a format that is digitally searchable, to the greatest extent feasible. Summary: Current law generally authorizes a health care service plan or disability insurer to use utilization review, under which a licensed physician or a licensed health care professional who is competent to evaluate specific clinical issues may approve, modify, delay, or deny requests for health care services based on medical necessity. Current law requires these decisions to be made within 30 days, or less than 72 hours when the enrollee faces an imminent and serious threat to their health. Current law requires a health care service plan to establish a grievance system to resolve grievances within 30 day but limits that timeframe to 3 days when the enrollee faces an imminent and serious threat to their health. Existing law requires a plan to provide a written explanation for its grievance decisions, as specified. This bill would require that utilization review decisions be made within 72 hours from the health care service plan's receipt of the clinical information reasonably necessary to make the determination when the enrollee's condition is urgent. If the plan lacks the information reasonably necessary to make a decision regarding an urgent request, the bill would require the plan to notify the enrollee and provider about the information necessary to complete the request within 24 hours of receiving the request. The bill would require the plan to notify the enrollee and the provider of the decision within a reasonable amount of time, but not later than 48 hours after specified circumstances occur. If a health care service plan fails to make a utilization review decision, or provide notice of a decision, within the specified timelines, the bill would require the health care service plan to treat the request for authorization as a grievance and provide notice with specified information to the enrollee that a grievance has commenced, if the plan has received the information necessary to make a decision.

Summary: Current law requires a health insurer or health care service plan, including a specialized health care service plan, to reimburse a claim or portion of a claim no later than 30 working days after receipt of the claim, unless the plan contests or denies the claim, in which case the plan is required to notify the claimant within 30 working days that the claim is contested or denied. Under current law, if a claim or portion thereof is contested on the basis that a health

insurer or health care service plan has not received all information necessary to determine payer liability for the claim or portion thereof and notice has been provided, the health insurer or health care service plan has 30 working days after receipt of the additional information to complete reconsideration of the claim. Current law extends these timelines to 45 working days for a health care service plan that is a health maintenance organization. Under current law, if a claim is not reimbursed, contested, or denied pursuant to these timelines, as specified, interest accrues at a rate of 15% per annum for a health care service plan and 10% per annum for a health insurer. Commencing January 1, 2026, this bill instead would require a health care service plan, including a Medi-Cal managed care plan, or health insurer to reimburse a complete claim or a portion thereof within 30 calendar days after receipt of the claim, or, if a claim or portion thereof does not meet the criteria for a complete claim or portion thereof, to notify the claimant as soon as practicable, but no later than 30 calendar days that the claim or portion thereof is contested or denied. The bill would authorize the departments to issue guidance and regulations related to these provisions. The bill would exempt the guidance and amendments from the Administrative Procedure Act until December 31, 2027.

Summary: Current law generally authorizes a health care service plan or health insurer to use utilization review, under which a licensed physician or a licensed health care professional who is competent to evaluate specific clinical issues may approve, modify, delay, or deny requests for health care services based on medical necessity. Current law prohibits a health care service plan contract that covers prescription drug benefits or a specified health insurance policy from limiting or excluding coverage for a drug on the basis that the drug is prescribed for a use that is different from the use for which it was approved by the federal Food and Drug Administration if specified conditions are met. Current law also prohibits a health care service plan that covers prescription drug benefits from limiting or excluding coverage for a drug that was previously approved for coverage if an enrollee continues to be prescribed that drug, as specified. This bill would additionally prohibit limiting or excluding coverage of a drug, dose of a drug, or dosage form of a drug that is prescribed for off-label use if the drug has been previously covered for a chronic condition or cancer, as specified, regardless of whether or not the drug, dose, or dosage form is on the plan's or insurer's formulary. Summary: The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Under current law, one of the methods by which Medi-Cal services are provided is pursuant to contracts with various types of

managed care plans. Current law imposes a managed care organization (MCO) provider tax, administered and assessed by the department, on licensed health care service plans and managed care plans contracted with the department. Under current law, all revenues, less refunds, derived from the taxes are deposited into the Managed Care Enrollment Fund, to be available to the department, upon appropriation, for the purpose of funding specified subcomponents to support the Medi-Cal program. Current law sets forth certain taxing tiers and tax amounts for purposes of the tax periods of April 1, 2023, to December 31, 2023, inclusive, and the 2024, 2025, and 2026 calendar years. Under current law, the Medi-Cal per enrollee tax amount for Medi-Cal taxing tier II, as defined, is $182.50 for the 2024 calendar year, $187.50 for the 2025 calendar year, and $192.50 for the 2026 calendar year. This bill would raise that tax amount for that tier to $205 for all 3 of those calendar years.

Summary: Current law provides for the regulation of disability insurers by the Department of Insurance. Current law establishes the Independent Medical Review System within each department, under which an enrollee or insured may seek review if a health care service has been denied, modified, or delayed by a health care service plan or disability insurer and the enrollee or insured has previously filed a grievance that remains unresolved after 30 days. This bill, commencing July 1, 2024, would require a health care service plan or a disability insurer that modifies, delays, or denies a health care service, based in whole or in part on medical necessity, to automatically submit within 24 hours a decision regarding a disputed health care service to the Independent Medical Review System, as well as the information that informed its decision, without requiring an enrollee or insured to submit a grievance, if the decision is to deny, modify, or delay specified services relating to mental health or substance use disorder conditions for an enrollee or insured up to 26 years of age. The bill would require a health care service plan or disability insurer, within 24 hours after submitting its decision to the Independent Medical Review System to provide notice to the appropriate department, the enrollee or insured or their representative, if any, and the enrollee's or insured's provider. The bill would require the notice to include notification to the enrollee or insured that they or their representative may cancel the independent medical review at any time before a determination, as specified. The bill would apply specified existing provisions relating to mental health and substance use disorders for purposes of its provisions, and would be subject to relevant provisions relating to the Independent Medical Review System that do not otherwise conflict with the express requirements of the bill. With respect to health care service plans, the bill would specify that its provisions do not apply to Medi-Cal managed care plan contracts.

Summary: Under current law of the Medi-Cal program, to the extent that federal financial participation is available, federally qualified health center (FQHC) and rural health clinic (RHC) services are reimbursed on a per-visit basis, as specified. "Visit" is defined as a face-to-face encounter between a patient of an FQHC or RHC and a physician or other specified health care professionals. Under existing law, "visit" also includes an encounter using video or audio-only synchronous interaction or an asynchronous store and forward modality, as specified. This bill would authorize reimbursement for a maximum of 2 visits that take place on the same day at a single site, whether through a face-to-face or telehealth-based encounter, if after the first visit the patient suffers illness or injury that requires additional diagnosis or treatment, or if the patient has a medical visit and either a mental health visit or a dental visit, as defined. The bill would require the department, by July 1, 2024, to submit a state plan amendment to the federal Centers for Medicare and Medicaid Services reflecting those provisions. The bill would include a licensed acupuncturist within those health care

professionals covered under the definition of a "visit." The bill would also make a change to the provision relating to physicians and would make other technical changes.

Summary: Would require the Secretary of State and the Department of Motor Vehicles to develop a process for the department to use information from the statewide voter registration database to determine whether a person who submits a driver's license application is already registered or preregistered to vote in the state. The bill would require the department, based upon this determination, to transmit specified information provided by the person during their transaction with the department to the Secretary of State for the purpose of registering or preregistering that person to vote or to update their registration information. The bill would prohibit the department from providing a person the opportunity to attest to meeting voter eligibility requirements when they submit a driver's license application, if the person provides a document to the department during the transaction demonstrating that the person is not a United States citizen. The bill would permit the Secretary of State, upon a determination that sufficient technology infrastructure exists, to promulgate regulations concerning the establishment of a list of individuals who are eligible to be preapproved for voter registration, as specified.

Summary: The Pharmacy Law provides for the licensure and regulation of pharmacists by the California State Board of Pharmacy. Current law authorizes a pharmacist to furnish at least a 30-day supply of HIV preexposure prophylaxis, and

up to a 60-day supply of those drugs if certain conditions are met. Current law also authorizes a pharmacist to furnish postexposure prophylaxis to a patient if certain conditions are met. This bill would authorize a pharmacist to furnish up to a 90-day course of preexposure prophylaxis, or preexposure prophylaxis beyond a 90-day course, if specified conditions are met. The bill would require the California State Board of Pharmacy to adopt emergency regulations to implement these provisions by October 31, 2024.

Summary: Current law vests the Public Utilities Commission with regulatory authority over public utilities, including telephone corporations. Current law requires the commission to develop, implement, and administer the California Advanced Services Fund to encourage deployment of high-quality advanced communications services to all Californians that will promote economic growth, job creation, and the substantial social benefits of advanced information and communications technologies, as specified. Current law establishes the Broadband Infrastructure Grant Account in the fund to approve funding for infrastructure projects that will provide broadband access to no less than 98% of California households in each consortia region, and establishes the Federal Funding Account in the fund to expeditiously connect unserved and underserved communities, as specified. The Get Connected California Act of 2024 would require the commission to ensure all deployment grant awardees, defined as all internet service providers that receive funding from the Broadband Infrastructure Grant Account and the Federal Funding Account within the California Advanced Services Fund, offer internet service that costs no more than $30 per month and meets certain minimum speed requirements, as specified. The bill would require a deployment grant awardee to allow any household in a project area, as defined, to switch to the above-described low-cost broadband service option in the billing cycle immediately following the household's enrollment in the low-cost broadband service option. The bill would not apply these requirements to applications submitted to the commission before January 1, 2025. The bill would make the above-described provisions severable.

Summary: Current law generally prohibits a health care service plan, excluding a Medi-Cal managed care plan, or health insurer from subjecting antiretroviral drugs that are medically necessary for the prevention of HIV/AIDS, including preexposure prophylaxis or postexposure prophylaxis, to prior authorization or step therapy. Under current law, a health care service plan or health insurer is not required to cover all the therapeutically equivalent versions of those drugs without prior authorization or step therapy if at least one is covered without prior authorization or step therapy. This bill would prohibit a health care service plan, excluding a Medi-Cal managed care plan, or health insurer from subjecting antiretroviral drugs, drug devices, or drug products that are either approved by the United States Food and Drug Administration (FDA) or recommended by the federal Centers for Disease Control and Prevention (CDC) for the prevention of HIV/AIDS, to prior authorization or step therapy, but would authorize prior authorization or step therapy if at least one therapeutically equivalent version is covered without prior authorization or step therapy and the plan or insurer provides coverage for a noncovered therapeutic equivalent antiretroviral drug, drug device, or drug product without cost sharing pursuant to an exception request. The bill would require a plan or insurer to provide coverage under the outpatient prescription drug benefit for those drugs, drug devices, or drug products, including by supplying participating providers directly with a drug, drug device, or drug product, as specified.

Summary: Current law provides for the regulation of health insurers by the Department of Insurance. Current law generally authorizes a health care service plan or health insurer to use prior authorization and other utilization review or utilization management functions, under which a licensed physician or a licensed health care professional who is competent to evaluate specific clinical issues may approve, modify, delay, or deny requests for health care services based on medical necessity. Current law requires a health care service plan or health insurer, including those plans or insurers that delegate utilization review or utilization management functions to medical groups, independent practice associations, or to other contracting providers, to comply with specified requirements and limitations on their utilization review or utilization management functions. Current law requires the criteria or guidelines used to determine whether or not to authorize, modify, or deny health care services to be developed with involvement from actively practicing health care providers. This bill would require the Department of Managed Health Care and the Department of Insurance, by July 1, 2025, to issue instructions to health care service plans and health insurers to report specified information relating to prior authorization, as defined, including designated health care services (services), items, and supplies subject to prior authorization and the percentage rate at which health care service plans, health insurers, or their delegated entities, approve or modify those services, items, and supplies. The bill would require health care service plans and health insurers to report that information to the relevant department by December 31, 2025, or as otherwise specified. The bill would require the relevant department to evaluate the reports received from the health care service plans and health insurers, and identify the services, items, and supplies most frequently approved by the plans or insurers or their delegated entities, as specified. The bill would require each department, after evaluating the reports received from health care service plans and health insurers, to identify, and by December 31, 2026, to publish a list of, the most frequently approved or modified services, items, and supplies, based on a prescribed threshold percentage rate.

Summary: Current law provides for various memorials and monuments on the grounds of the State Capitol. Current law requires the Department of General Services to maintain state buildings and grounds. Existing law, the Apology Act for

the 1930s Mexican Repatriation Program, makes findings and declarations regarding the unconstitutional removal and coerced emigration of United States citizens and legal residents of Mexican descent, between the years 1929 and 1944, to Mexico from the United States during the 1930s "Mexican Repatriation" Program. Current law expresses the apology of the State of California to those individuals who were illegally deported and coerced into emigrating to Mexico and requires that a plaque to commemorate those individuals be installed and maintained by the Department of Parks and Recreation in an appropriate public place in the City or County of Los Angeles. This bill would authorize a nonprofit organization representing Mexican Americans or Mexican immigrants to enter into negotiations to plan, construct, and maintain a memorial to Mexican Americans and Mexican immigrants who were forcibly deported from the United States during the Great Depression, as provided. The bill would require the memorial to be located at an appropriate public place in the City or County of Los Angeles. The bill would require the nonprofit organization to enter into negotiations with the Department of General Services and the state agency with jurisdiction over the state property where the memorial is proposed, where applicable, if the nonprofit organization proposes to locate the memorial on state property.

Summary: The California Beverage Container Recycling and Litter Reduction Act requires plastic beverage containers sold by a beverage manufacturer, as specified, to contain a specified average percentage of postconsumer recycled plastic per year. The act requires the manufacturer of a beverage sold in a plastic beverage container subject to the California Redemption Value to report to the Department of Resources Recycling and Recovery certain information about the amounts of virgin plastic and postconsumer recycled plastic used for plastic beverage containers subject to the California Redemption Value for sale in the state in the previous calendar year. Current law provides that a violation of the act or a regulation adopted pursuant to the act is a crime. This bill would authorize certain beverage manufacturers to submit with other beverage manufacturers a consolidated report, in lieu of individual reports, that identifies the postconsumer recycled plastic content for beverage containers and the amounts of virgin plastic and postconsumer recycled plastic used in beverage containers, as specified. The bill would require the consolidated report to be submitted under penalty of perjury and pursuant to standardized forms prescribed by the department.

Summary: Current law imposes various requirements and restrictions on health care service plans and disability insurers, including, among other things, a requirement that every group health care service plan contract or disability insurance policy that is issued, amended, or renewed on or after January 1, 1990, offer coverage for the treatment of infertility, except in vitro fertilization. This bill would require large and small group health care service plan contracts and disability insurance policies issued, amended, or renewed on or after July 1, 2025, to provide coverage for the diagnosis and treatment of infertility and fertility services. With respect to large group health care service plan contracts and disability insurance policies, the bill would require coverage for a maximum of 3 completed oocyte retrievals, as specified. The bill would revise the definition of infertility, and would remove the exclusion of in vitro fertilization from coverage. The bill would also delete a requirement that a health care service plan contract and disability insurance policy provide infertility treatment under agreed-upon terms that are communicated to all group contractholders and policyholders. The bill would prohibit a health care service plan or disability insurer from placing different conditions or coverage limitations on fertility medications or services, or the diagnosis and treatment of infertility and fertility services, than would apply to other conditions, as specified. The bill would make these requirements inapplicable to a religious employer, as defined, and specified contracts and policies.

Summary: Current law requires the State Department of Public Health to license and regulate clinics. Current law exempts from those licensing provisions certain clinics that are directly conducted, maintained, or operated by federal, state, or local governmental entities, as specified. Current law also exempts from those licensing provisions a clinic that is operated by a primary care community or free clinic, that is operated on separate premises from the licensed clinic, and that is only open for limited services of no more than 40 hours per week. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Current law sets forth various procedures, including the submission of an application package, for providers to enroll in the Medi-Cal program. Under current law, an applicant or provider that is a government-run license-exempt clinic as described above is required to comply with those Medi-Cal enrollment procedures. Under current law, an applicant or provider that is operated on separate premises and is license exempt, including an intermittent site or mobile health care unit that is operated by a licensed primary care clinic that provides all staffing, protocols, equipment, supplies, and billing services, is not required to enroll in the Medi-Cal program as a separate provider or comply with the above-described enrollment procedures, if the licensed primary care clinic has notified the department of its separate locations, premises, intermittent sites, or mobile health care units. This bill would additionally exempt from the Medi-Cal enrollment procedures an intermittent site or mobile health care unit that is operated by the above-described government-run license-exempt clinic if that clinic has notified the department of its separate locations, premises, sites, or units.

Summary: Under current law, early and periodic screening, diagnostic, and treatment (EPSDT) services are covered under Medi-Cal for an individual under 21 years of age in accordance with certain federal provisions. Under current law, for persons 21 years of age or older, laboratory-processed crowns on posterior teeth are a covered benefit when medically necessary to restore a posterior tooth back to normal function based on the criteria specified in the Medi-Cal Dental Manual of Criteria. This bill, The Smile Act, for purposes of the above-described Medi-Cal coverage for laboratory-processed crowns, would remove the condition that the tooth be posterior and would apply the coverage to

persons 13 years of age or older. The bill would also add, as a covered Medi-Cal benefit for persons of any age, subject to prior authorization, a dental implant if tooth extraction or removal is medically necessary or if the corresponding tooth is missing. The bill would condition this coverage on there being no other covered functional alternatives for prosthetic replacement to correct the person's dental condition, as specified, on the person being without medical conditions for which dental implant surgery would be contraindicated, on receipt of any necessary federal approvals, and on the availability of federal financial participation.

Summary: Current law establishes, under the Medi-Cal program, the Family Planning, Access, Care, and Treatment (Family PACT) Program, administered by the Office of Family Planning within the department. Under Family PACT, comprehensive clinical family planning services are provided to a person who has a family income at or below 200% of the federal poverty level and who meets other eligibility criteria to receive those services. Current law makes the Family PACT Program inoperative if the program is determined to no longer be cost effective, as specified. If the program becomes inoperative, existing law requires all persons who have received, or are eligible to receive, comprehensive clinical family planning services pursuant to Family PACT to receive family planning services under other specified provisions of the Medi-Cal program or under the State-Only Family Planning Program, which is also established within the department. Current law requires enrolled providers in the Family PACT Program or the State-Only Family Planning Program to attend a specific orientation approved by the department and requires providers who conduct certain services to have prior training in those services. This bill would, for the Family PACT Program, require a site certifier of a primary care clinic or affiliate primary care clinic, as those terms are defined, to be a clinician who oversees the provision of Family PACT services and would authorize certain clinic corporations to enroll multiple, but no more than 10, service addresses under one site certifier. The bill would require any orientation or training that the department requires of a site certifier to comply with specified requirements, including, among others, being offered through a virtual platform and being offered at least once every other month.

Summary: Current law prohibits, with specified exceptions, a state agency authorized to enter into contracts relating to public benefit programs from contracting for services provided by a call center that directly serves applicants for, recipients of, or enrollees in, those public benefit programs with a contractor or subcontractor unless that contractor or subcontractor certifies in its bid for the contract that the contract, and any subcontract performed under that contract, will be performed solely with workers employed in California. Current law provides an exception for contracts between a state agency and a health care service plan, or a specialized health care service plan regulated by the Department of Managed Health Care and for contracts between a state agency and a disability insurer or specialized health insurer regulated by the Department of Insurance. Current law also authorizes the state to terminate a contract relating to services provided by a call center if the contractor or subcontractor performs services with workers not employed in California. This bill would, until July 1, 2030, instead require any state agency authorized to provide or enter into contracts relating to public benefit programs, or any local government agency authorized to provide or enter into contracts relating to public benefit programs funded by state funds, as specified, to provide services through, or contract for services provided by, a call center that directly serves callers with services performed solely with and by workers employed in California. The bill would also prohibit a state agency or specified local agency from using, or contracting with a call center that uses, artificial intelligence (AI) or automated decision systems (ADS) that would eliminate or automate core job functions of a worker, as specified. The bill would require an agency that utilizes AI or ADS that impact core job functions of workers to notify the workers, their collective bargaining representatives, and the public

Summary: Current federal law specifies different parts of Medicare that cover specific services, such as Medicare Part B, which generally covers medically necessary services and supplies and preventive services. The Knox-Keene Health Care Service Plan Act of 1975 provides for the licensure and regulation of health care service plans by the Department of Managed Health Care and makes a willful violation of the act a crime. Existing law provides for the regulation of health insurers by the Department of Insurance. Current federal law additionally provides for the issuance of Medicare supplement policies or certificates, also known as Medigap coverage, which are advertised, marketed, or designed primarily as a supplement to reimbursements under the Medicare Program for the hospital, medical, or surgical expenses of persons eligible for the Medicare Program, including coverage of Medicare deductible, copayment, or coinsurance amounts, as specified. Current law, among other provisions, requires supplement benefit plans to be uniform in structure, language, designation, and format with the standard benefit plans, as prescribed. Current law prohibits an issuer from denying or conditioning the offering or effectiveness of any Medicare supplement contract, policy, or certificate available for sale in this state, or discriminating in the pricing of a contract, policy, or certificate because of the health status, claims experience, receipt of health care, or medical condition of an applicant in the case of an application that is submitted prior to or during the 6-month period beginning with the first day of the first month in which an individual is both 65 years of age or older and is enrolled for benefits under Medicare Part B. Current law requires an issuer to make available specified Medicare supplement benefit plans to a qualifying applicant under those circumstances who is 64 years of age or younger who does not have end stage renal disease. This bill would delete the exclusion of otherwise qualified applicants who have end stage renal disease, thereby making the specified Medicare supplement benefit plans available to those individuals. The bill, on and after January 1, 2025, would prohibit an issuer of Medicare supplement coverage in this state from denying or conditioning the issuance or effectiveness of any Medicare supplement coverage available for sale in the state, or discriminate in the pricing of that coverage because of the health status, claims experience, receipt of health care, medical condition, or age of an applicant, if an application for coverage is submitted during an open enrollment period, as specified in the bill.

Summary: The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Current law requires the Director of Health Care Services to establish administrative appeal processes to review grievances or complaints arising from the findings of an audit or examination. Under current law, if recovery of a disallowed payment has been made by the department, a provider who prevails in an appeal of that payment is entitled to interest at the rate equal to the monthly average received on investments in the Surplus Money Investment Fund, or simple interest at the rate of 7% per annum, whichever is higher. Under current law, with exceptions, interest at that same rate is assessed against any unrecovered overpayment due to the department. In the case of an assessment against any unrecovered overpayment due to the department, this bill would authorize the department to waive the interest, as part of a repayment agreement entered into with the provider, if the unrecovered overpayment occurred 4 or more years before the issuance of the first statement of account status or demand for repayment, after taking into account specified factors, including the

impact of the repayment amounts on the fiscal solvency of the provider, and whether the overpayment was caused by a policy change or departmental error that was not the fault of the billing provider.

Summary: Would require a Medi-Cal managed care plan to offer a network provider contract to, and maintain a network provider contract with, each safety net provider, as defined, operating within the plan's contracted geographic service areas if the safety net provider agrees to provide its applicable scope of services in accordance with the same terms and conditions that the Medi-Cal managed care plan requires of other similar providers. The bill would set forth exceptions to that requirement in the case of a safety net provider no longer being willing to accept those terms and conditions, its license being revoked or suspended, or the department determining that the health or welfare of a Medi-Cal enrollee is threatened by the provider. The bill would require the plan to follow certain notification procedures if it terminates the network provider contract. The bill would condition implementation of these provisions on receipt of any necessary federal approvals and the availability of federal financial participation.

Summary: Would establish a definition for "safety net hospital" and would state the intent of the Legislature that this definition serve as a recommended definition for policymakers to elect to utilize when crafting policy aimed at focusing on or supporting those hospitals. Under the bill, the definition would not be construed as affecting existing or new references to safety net hospitals, unless future legislation or other action expressly makes reference to this definition, as specified.

Summary: Would express the intent of the Legislature to review California's essential health benefits benchmark plan and establish a new benchmark plan for the 2027 plan year. The bill would limit the applicability of the current benchmark plan benefits to plan years on or before the 2027 plan year. This bill contains other related provisions and other existing laws.

Summary: Under current law, a general acute care hospital is required to provide certain basic services, including medical, nursing, surgical, anesthesia, laboratory, radiology, pharmacy, and dietary services. Current law authorizes a

general acute care hospital to provide various special or supplemental services if certain conditions are met. Current regulations define a supplemental service as an organized inpatient or outpatient service that is not required to be provided by law or regulation. Current law requires a health facility to provide 90 days of public notice of the proposed closure or elimination of a supplemental service, and 120 days of public notice of the proposed closure or elimination of an acute psychiatric hospital. This bill would change the notice period required before proposed closure or elimination of the supplemental service of inpatient psychiatric unit or a perinatal unit from 90 days to 120 days. By changing the definition of a crime, this bill would impose a state-mandated local program. The bill would require the health facility to provide public notice of the proposed elimination of the supplemental service of either inpatient psychiatric unit or perinatal unit, as specified. The bill would require the health facility to conduct at least one noticed public hearing within 60 days of providing public notice of the proposed elimination of the inpatient psychiatric unit or perinatal unit and would require the health facility to accept public comment. The bill would require the health facility to post the public hearing notice and the agenda along with the public notice.

Summary: Current law requires the State Air Resources Board to develop and adopt regulations, consistent with federal law, to protect the public health from ozone emitted by indoor air cleaning devices, including medical and nonmedical devices used in occupied spaces. Current law requires those regulations to include, among other things, an emission concentration standard for ozone emissions that is equivalent to the federal ozone emissions limit for air cleaning devices. Current law generally sets forth crimes and penalties for violations of air pollution laws and any rule, regulation, permit, or order of the state board. This bill would instead require the state board, by July 1, 2026, or as soon as feasible, as provided, to include in these regulations an emission concentration standard for ozone emissions not greater than 0.005 parts per million, to the extent consistent with federal law, thereby imposing a more protective standard. The bill would require the regulations to include a ban on the sale or the offering for sale of devices that exceed that emissions limit, even if previously certified, after a date determined by the state board, unless the state board determines an exemption applies.

Summary: Current law provides for the regulation of disability insurers by the Department of Insurance. Current law requires a health care service plan contract or disability insurance policy issued, amended, or renewed on or after January 1, 2021, to provide coverage for medically necessary treatment of mental health and substance use disorders, as defined, under the same terms and conditions applied to other medical conditions. This bill would require a plan or insurer subject to the above-described coverage requirement, and its delegates, to establish a process to reimburse providers for mental health and substance use disorder treatment services that are integrated with primary care services and provided under a contract or policy issued, amended, or renewed on or after July 1, 2025. Because a willful violation of these provisions by a health care service plan would be a crime, the bill would impose a state-mandated local program.

1st House	2nd House	Conc.			

Summary: Current law requires the State Department of Health Care Services to license and regulate facilities that provide residential nonmedical services to adults who are recovering from problems related to alcohol, drug, or alcohol and drug misuse or abuse, and who need alcohol, drug, or alcohol and drug recovery treatment or detoxification services. Current law also requires the department to implement a voluntary certification program for alcohol and other drug treatment recovery services. The California Community Care Facilities Act generally provides for the licensing and regulation of community care facilities by the State Department of Social Services, to provide 24-hour nonmedical care of persons in need of personal services, supervision, or assistance. Current regulation includes an adult residential facility as a community care facility for those purposes. This bill would require the State Department of Health Care Services (department), by January 1, 2027, and in consultation with relevant public agencies and stakeholders, to establish, and provide for the administration of, a voluntary certification program for supportive community residences. The bill would define a "supportive community residence" as specified residential dwellings providing housing for adults with a substance use disorder, mental health diagnosis, or dual diagnosis seeking a cooperative living arrangement as a transitional or long-term residence during the process of recovery. The bill would require the certification program to include standards and procedures for operation, such as types of certifications needed and services navigation, and procedures and penalties for enforcing laws and regulations governing supportive community residences. The bill also would require the department to create and maintain a searchable online database of certified facilities, which would include specified contact and complaint information for those residences and would require the database to be updated on a monthly basis.

Summary: Current law provides for the licensing and regulation of long-term health care facilities, including, among others, skilled nursing facilities and intermediate care facilities, by the State Department of Public Health. A violation of those provisions is generally a crime. Existing law establishes the Medi-Cal program, which is administered by the State Department of Health Care Services, and under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. This bill would require the facility to provide aid, care, service, and other benefits available under Medi-Cal to Medi-Cal beneficiaries in the same manner, by the same methods, and at the same scope, level, and quality as provided to the general public, regardless of payment source. The bill would find and declare that this requirement is declaratory of existing law and thus not reimbursable under Medi-Cal Long-Term Care Reimbursement Act or any other Medi-Cal rate setting provisions, as specified. The bill would specify that if reimbursement is found to be required by state or federal law or regulation, as specified, the above requirement shall only become operative upon appropriation by the Legislature. The bill would also provide that this requirement and the above-described prohibition against discrimination on the basis of payment source be implemented only to the extent that these provisions do not conflict with federal law, that any necessary federal approvals are obtained, and that federal financial participation for the Medi-Cal program is available and is not otherwise jeopardized.

SB 1355 **(Wahab D) Medi-Cal: in-home supportive services: redetermination.**

Summary: Current law generally requires a county to redetermine a Medi-Cal beneficiary's eligibility to receive Medi-Cal benefits every 12 months and whenever the county receives information about changes in a beneficiary's circumstances that may affect their eligibility for Medi-Cal benefits. Current law provides for the In-Home Supportive Services (IHSS) program, administered by the State Department of Social Services and counties, under which qualified

aged, blind, and disabled persons are provided with supportive services in order to permit them to remain in their own homes. Current law authorizes certain Medi-Cal beneficiaries to receive IHSS as a covered Medi-Cal benefit. This bill would, to the extent that any necessary federal approvals are obtained, and federal financial participation is available and not otherwise jeopardized, require an IHSS recipient to be continuously eligible for Medi-Cal for 3 years, if they have a fixed income, and would prohibit a redetermination of Medi-Cal eligibility before 3 years, except as specified. The bill would make the implementation of its provisions contingent upon the department obtaining all necessary federal approvals, the department determining that systems have been programmed to implement these provisions, and the Legislature has appropriated funding to implement these provisions after a determination that ongoing General Fund resources are available to support the ongoing implementation of these provisions.

SB 1397 (**Eggman** D) **Behavioral health services coverage.**
Current Text: Amended: 4/15/2024 html pdf

Summary: Would require a health care service plan contract or health insurance policy issued, amended, renewed, or delivered on or after July 1, 2025, that covers medically necessary mental health and substance use disorder services to comply with rate and timely reimbursement requirements for services delivered by a county behavioral health agency, as specified. The bill would require in-network cost sharing, capped at the in-network deductible and in-network out-of-pocket maximum, to apply to these services. Unless an enrollee or insured is referred or authorized by the plan or insurer, the bill would require a county behavioral health agency to contact a plan or insurer before initiating services. The bill would authorize a plan or insurer to conduct a post claim review to determine appropriate payment of a claim, and would authorize the use of prior authorization as permitted by the regulating department. The bill would require the departments to issue guidance to plans and insurers regarding compliance with these provisions no later than April 1, 2025. Because a willful violation of these provisions by a health care service plan would be a crime, and the bill would impose a higher level of service on a county behavioral health agency, this bill would impose a state-mandated local program.

Summary: The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Under current law, each hospital designated by the State Department of Health Care Services as a critical access hospital and certified as such by the Secretary of the United States Department of Health and Human Services under the federal Medicare rural hospital flexibility program, Rural Hospital Flexibility Program, is eligible for supplemental payments for Medi-Cal covered outpatient services rendered to Medi-Cal eligible persons. Current law sets forth various other provisions regarding Medi-Cal reimbursement in consideration of small and rural hospitals. This bill would require the department to convene a Rural Hospital Technical Advisory Group, with a certain composition of stakeholders, at least bimonthly during the 2025 calendar year. The bill would set forth the purposes of the advisory group, including, among other things, analyzing the continued ability of small, rural, or critical access hospitals, as defined, to remain financially viable under existing Medi-Cal reimbursement methodologies, to provide related recommendations, and to identify key contributors to the financial challenges of those hospitals, as specified.

Summary: Under the California Constitution, the state is prohibited from denying or interfering with an individual's reproductive freedom in their most intimate decisions, including their fundamental right to choose to have an abortion. The Reproductive Privacy Act prohibits the state from denying or interfering with a pregnant person's right to choose or obtain an abortion prior to viability of the fetus, or when the abortion is necessary to protect the life or health of the pregnant person. Under the act, a person is not subject to liability or penalty based on their actions or omissions with respect to their pregnancy or pregnancy outcome. Under the act, a person who aids or assists a pregnant person in exercising their rights under the act is not subject to liability or penalty based solely on their aid- or assistance-related actions, as specified. Under the bill, a person, in exercising their individual rights under the above-described constitutional provision and the Reproductive Privacy Act, would not be subject to civil or criminal liability or penalty, or otherwise deprived of their rights, for using, receiving, possessing, or storing brand or generic mifepristone or any drug used for medication abortion.

Summary: The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Under existing law, one of the methods by which Medi-Cal services are provided is pursuant to contracts with various types of managed care plans. Current law sets forth requirements for private duty nursing and home health care under the Medi-Cal program. Current law imposes a managed care organization (MCO) provider tax, administered and assessed by the department, on licensed health care service plans and managed care plans contracted with the department to provide full-scope Medi-Cal services. Under existing law, proceeds from the MCO provider tax may be used, upon appropriation by the Legislature, for the increased costs incurred as a result of reimbursement requirements, among other things. This bill would provide that private duty nursing services provided to a child under 21 years of age by a home health agency are included as an eligible category for Medi-Cal reimbursement through the above-described scheme.

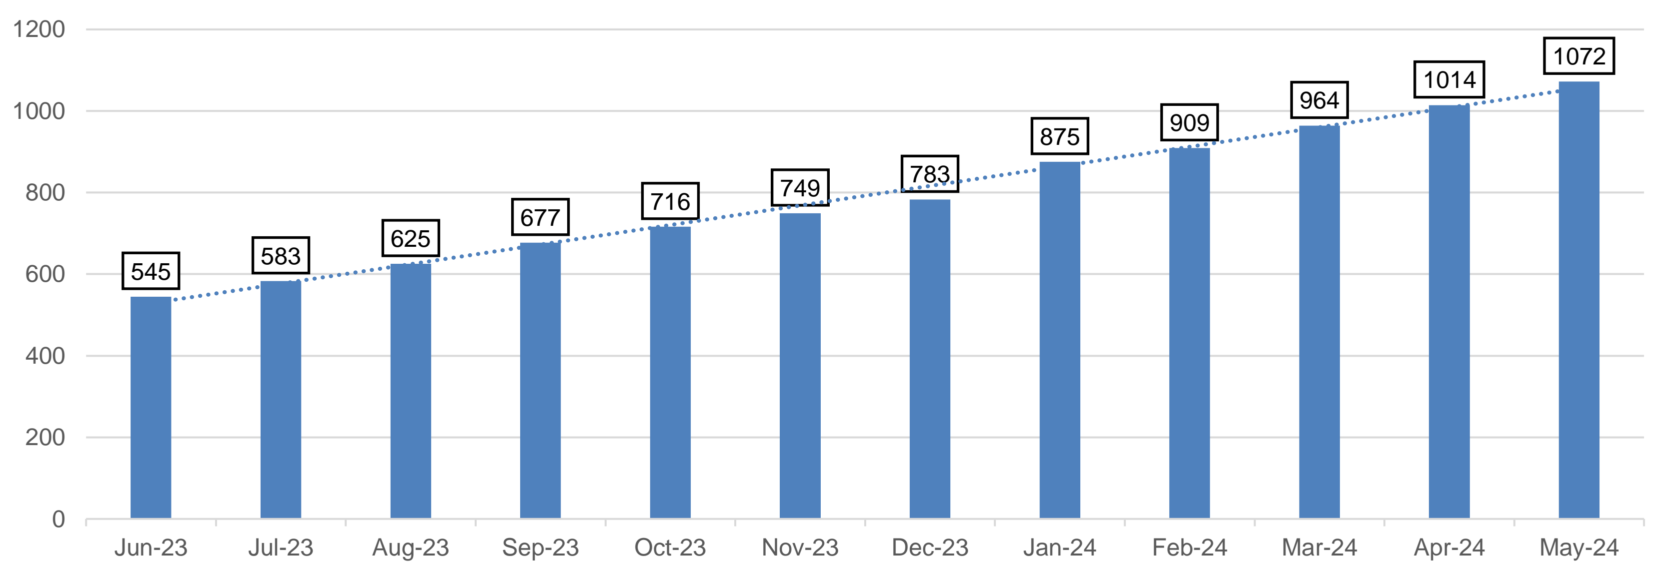
Behavioral Health Therapy (BHT)

- BHT is an evidence-based therapy used to assist members with autism and developmental disorders
- Members requiring BHT services have higher touch needs
  - The Alliance assigns a specific care manager that follows up with parents and caregivers to provide care coordination and personalize a member's care

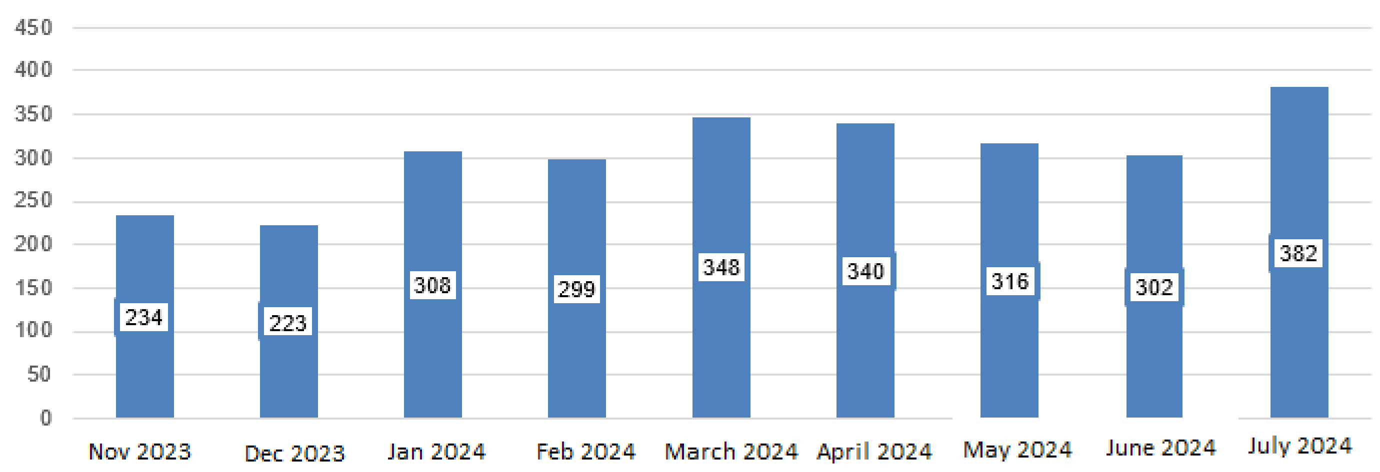
Unique Utilizers / Month

Behavioral Health Therapy



We have seen a 97% increase in unique utilizers from June 2023 to May 2024

BHT Authorization



- As shown under BHT Utilization, demand increased by 38% from December 2023 to January 2024 with the Anthem transition. We averaged 328 prior authorization requests per month in 2024.
- Notably, there was a spike in authorizations from June 2024 through July 2024, which is attributed to authorizations expiring every six months requiring updated BHT treatment plans be reviewed for reauthorization.

Successes

- Member Utilization has about doubled from pre-launch utilization
- Regulatory Compliance with recent DHCS Audit Success
- Behavioral Health Team meeting service line requirements
- Strong Community Relationships
  - Special Needs Committee, ACBH, High Volume Providers, Comprehensive Diagnostic Evaluation (CDE) Providers
- Expanded Network Since Insourcing
  - 53% overall increase in Mental Health Network

MH 66%

Challenges

- Understanding member needs
  - ~35% of authorized ABA services are provided
- Understanding what specific services a provider can provide
- Expanding the BHT Network to meet member needs
  - Encouraging & incentivizing providers to see members between 3PM - 7PM
  - Expanding Network to meet Linguistic and Cultural Member Needs
  - High Turn Over of the ABA paraprofessional providers who provide direct services
- Building out workflow for members flowing from member services to behavioral health team
  - Getting members to the right services at the right time

Looking Forward

- Provider Directory
  - Detailed Survey of Mental Health Providers to Improve Provider Directory and improve matching members with providers
- Care Coordination
  - Implement Sending the Mental Health Treatment Reports to PCPs for Coordination of Care (connecting mental health providers with PCPs)
  - Developing BHT/ABA Treatment Report Web Forms for improved Treatment Review and to send updated ABA Treatment Plans to referring PCPs, Psychologists and Pediatricians
  - Complete Data Exchange with ACBH for Closed Loop Referrals & Coordination of Care
  - Incentivize Mental Health Providers to submit coordination of care Treatment Reports and Transition of Care Forms (referrals to ACBH)

Looking Forward

- Network Development
  - Incentivize availability of BHT/ABA services for High-Demand times (2pm to 7pm)
  - Increase number of Providers who perform a Comprehensive Diagnostic Evaluation (CDE)
- Member Experience
  - Help members better understand how to access Mental Health / BHT benefits

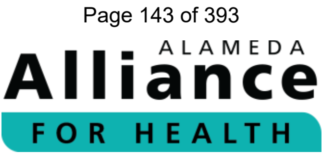
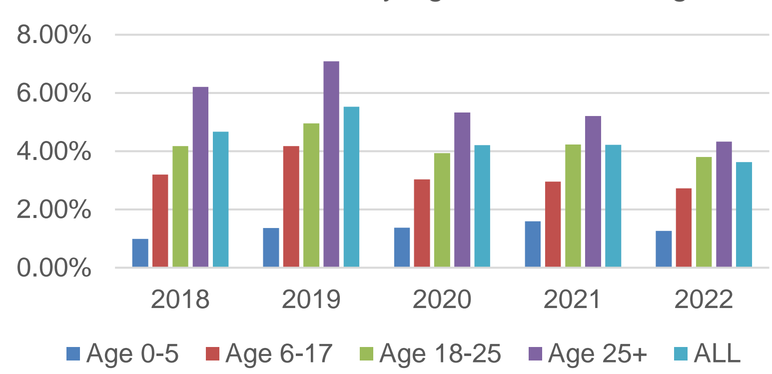
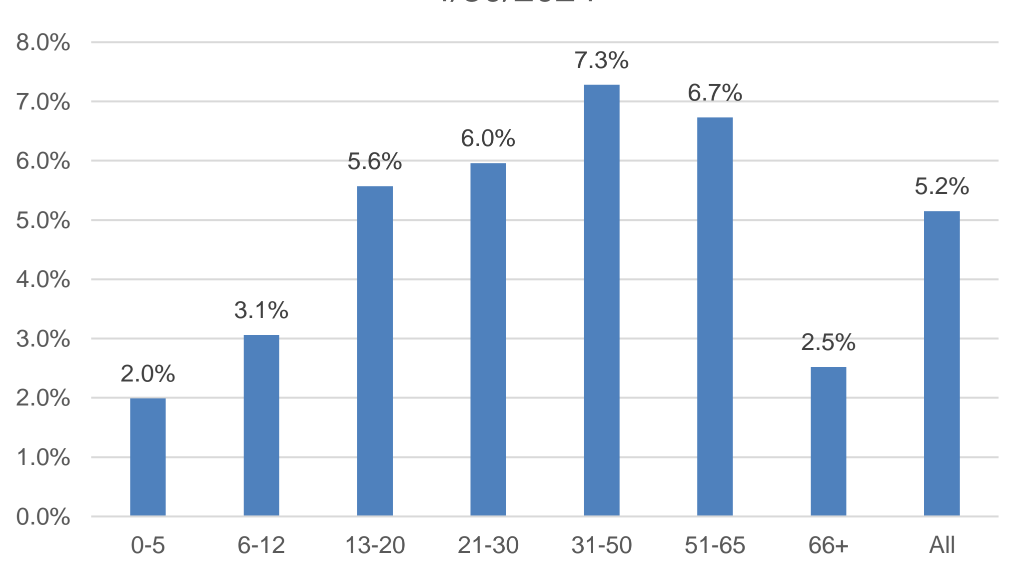
MH Utilization



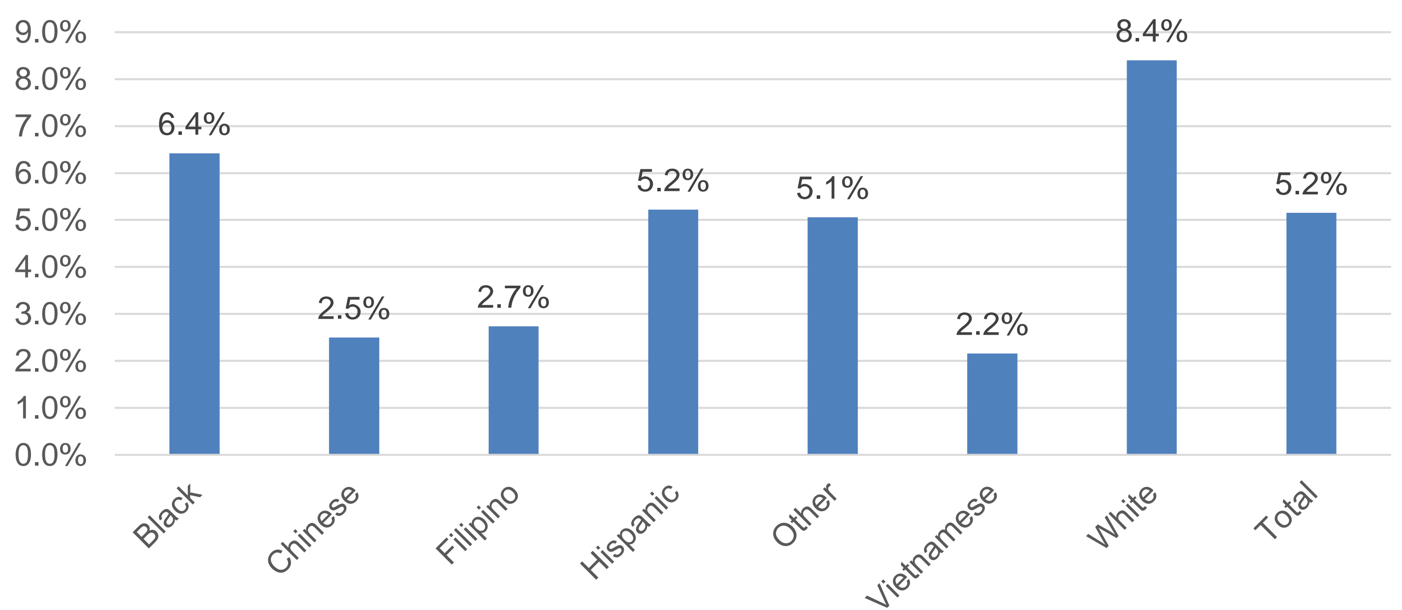
Utilization by Age





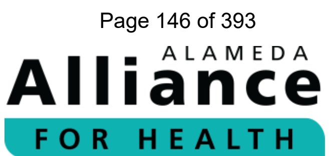
- The age categories we are reporting on are not directly comparable to those used by Beacon. However, across the board there has been an increase in utilization across every age group.
- The strongest utilization of the NSMH benefit is generally seen in the 18+ age category. Historically, the County Specialty Mental Health Plan has had more tools to serve children and youth, especially those 0-5. This is starting to change as the NSMH benefit has expanded to allow for family therapy and dyadic care.

Utilization by Race/Ethnicity: Post-Insourcing



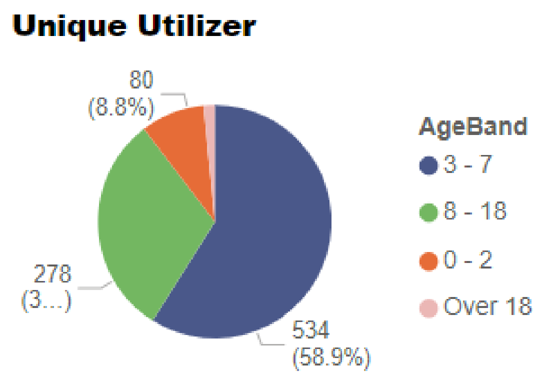
- While those who identify as White still have the greatest utilization of the NSMH benefit, we are seeing stronger utilization by other races/ethnicities than reported under Beacon management.
- For example, those who identify as Black had a 4% utilization rate in 2022 compared to 6.4% since in-sourcing. It is hard to know if this is due entirely to an increase under Alliance management, or if there was claims data Beacon was missing and/or issues in the data in the 834 sent to Beacon.
- While some races/ethnicities are showing improved utilization since in-sourcing the benefit, there is still significant work to do to explore any disparities in utilization and improve access for some populations, such as Chinese, Filipino and Vietnamese.

BHT Utilization



BHT Member Demographics

January 2024 through May 2024

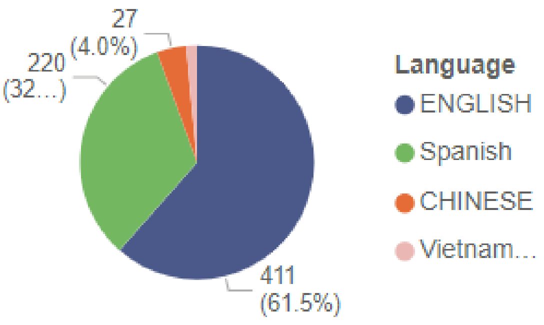


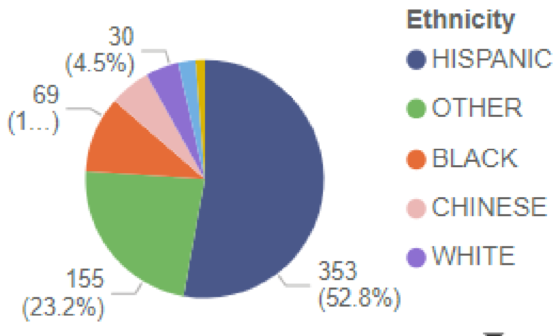
This data represents the unique utilizers categorized by age group from January 2024 through May 2024.

- The age group of 3-7 years old represents the highest number of individuals receiving services.
- Currently, there are 703 males and 203 females undergoing treatment.

BHT Member Demographics

January 2024 and May 2024





- We discovered that some providers were hesitant to accept members who do not speak the same language. This reluctance stems from the challenges associated with conducting comprehensive evaluations and developing effective treatment plans for these members when the provider does not speak the same language as the member's family.
- The Behavioral Health Department is supporting our providers by utilizing AAH interpreter services, Cyracom for telephonic interpretation services, and Hanna for in-person appointments. This approach aims to ensure that our members receive the essential communication support throughout their evaluations and treatments.

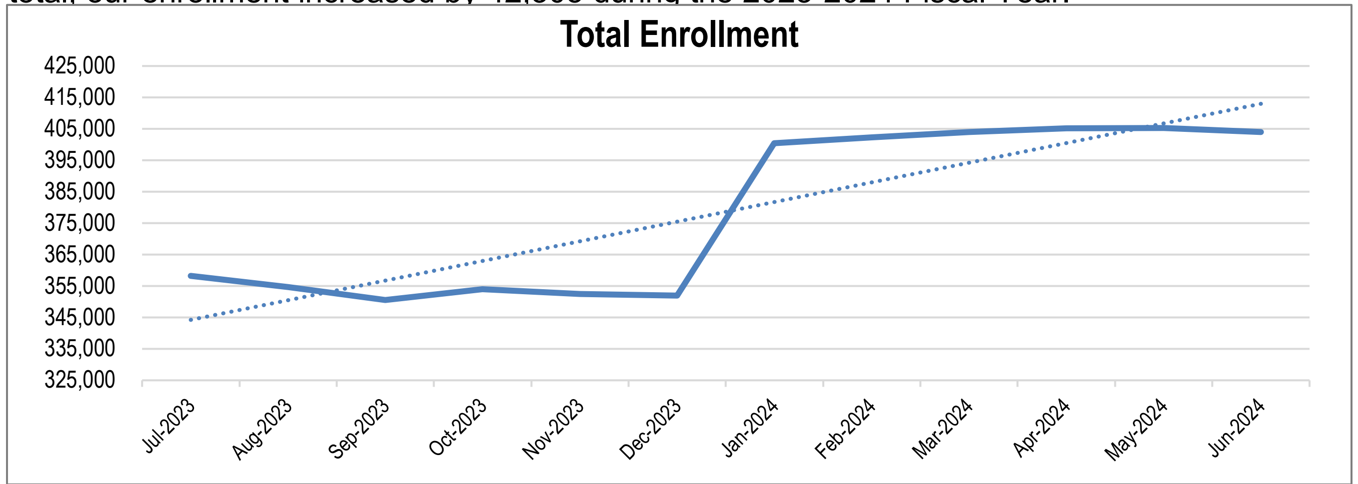
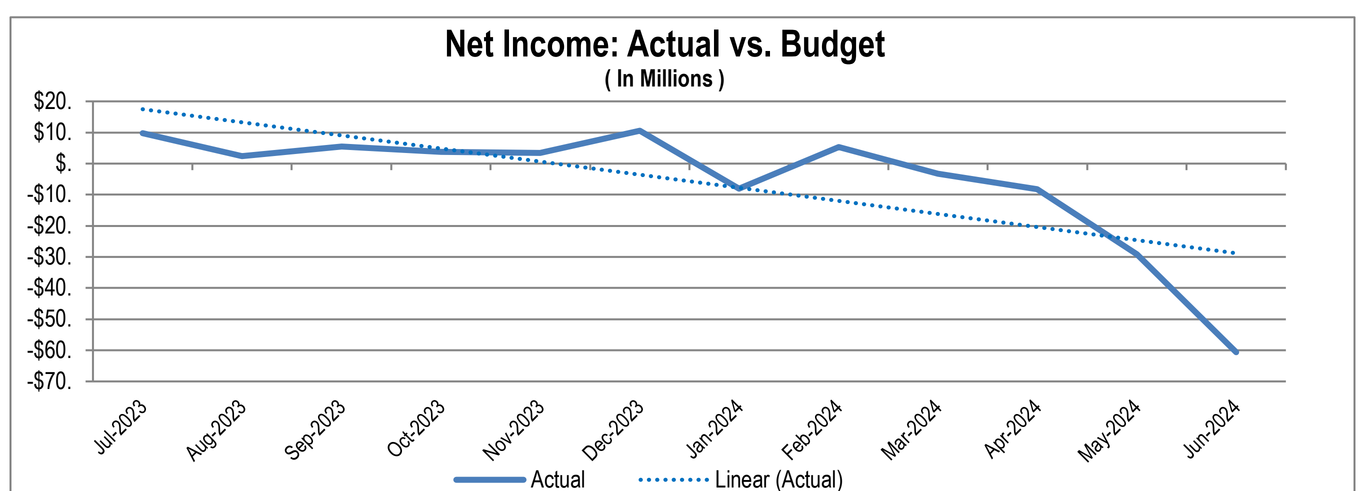
Executive Summary

For the month and fiscal-year-ended June 30th, 2024, the Alliance experienced a decrease in enrollment, ending our fiscal year at 404K members. A Net Loss of $60.6 million was reported in June. The Plan's Medical Expenses represented 139.2% of revenue. Alliance reserves decreased to 403% of required but remain above minimum requirements.

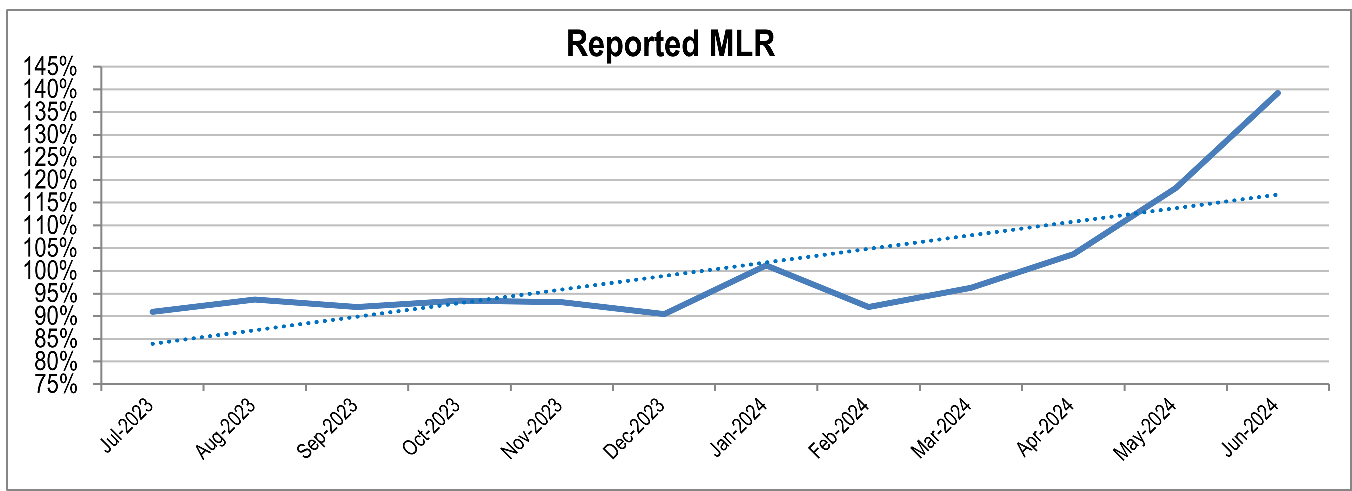
Enrollment – In June, Enrollment decreased by 1,289 members from the previous month. In total, our enrollment increased by 42,305 during the 2023-2024 Fiscal Year.



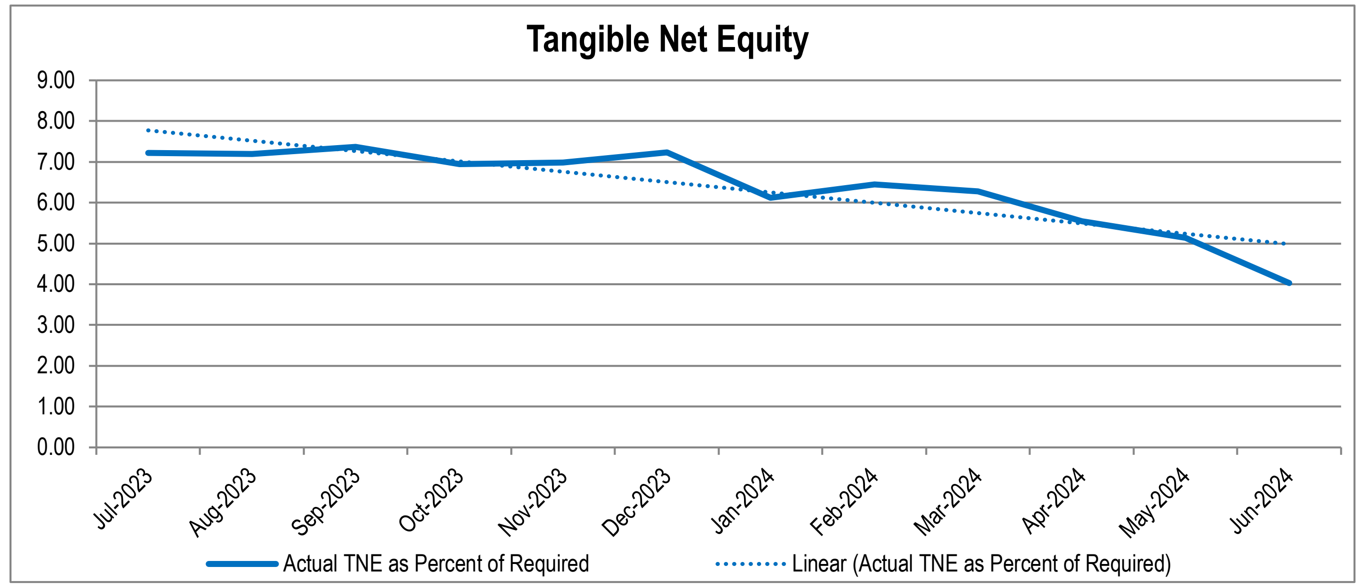
Net Income – For the month ended June 30th, 2024, actual Net Loss was $60.6 million vs. budgeted Net Loss of $1.8 million. Fiscal year-to-date actual Net Loss was $68.6 million vs. Budgeted Net Income of $9.3 million. For the month, Premium Revenue was unfavorable to budget, actual Revenue was $138.2 million vs. budgeted Revenue of $157.2 million.



Medical Loss Ratio (MLR) – The Medical Loss Ratio was 139.2% for the month and 100.1% for the fiscal year-to-date. Revenue reductions related to the CY23 acuity adjustment significantly impacted revenue and consequently the MLR, which compares revenue to medical expenses.



Tangible Net Equity (TNE) - The Department of Managed Health Care (DMHC) required $63.4M in reserves, we reported $192.0M. Our overall TNE remains above required levels at 403%.



The Alliance continues to benefit from increased non-operating income. For Fiscal year-to-date, we reported returns of $31.7M, in the investment portfolio, and paid $865,000 in claims interest expense.

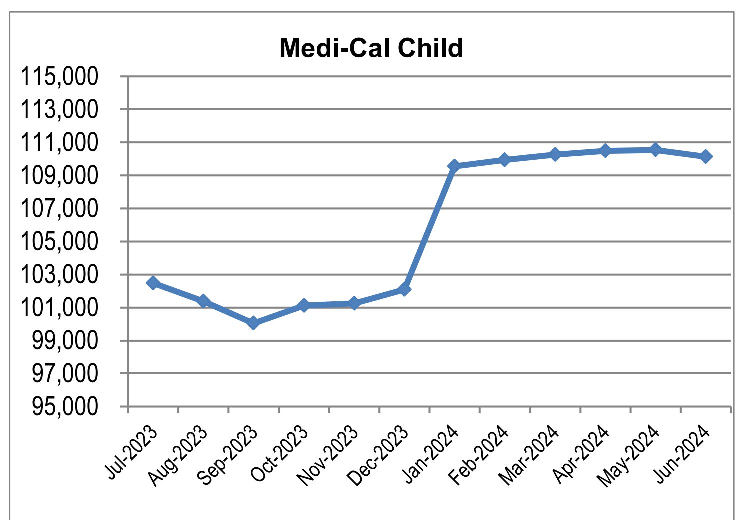
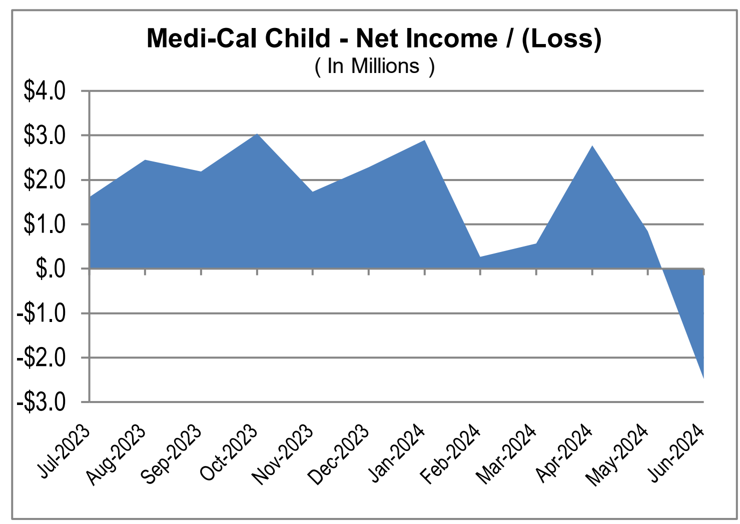
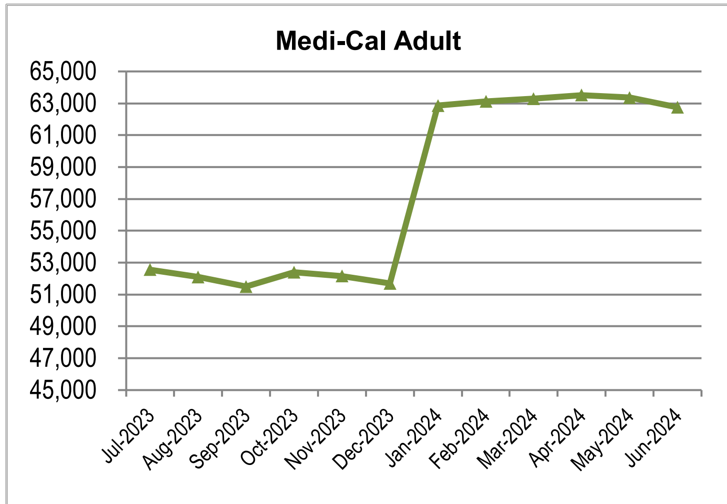
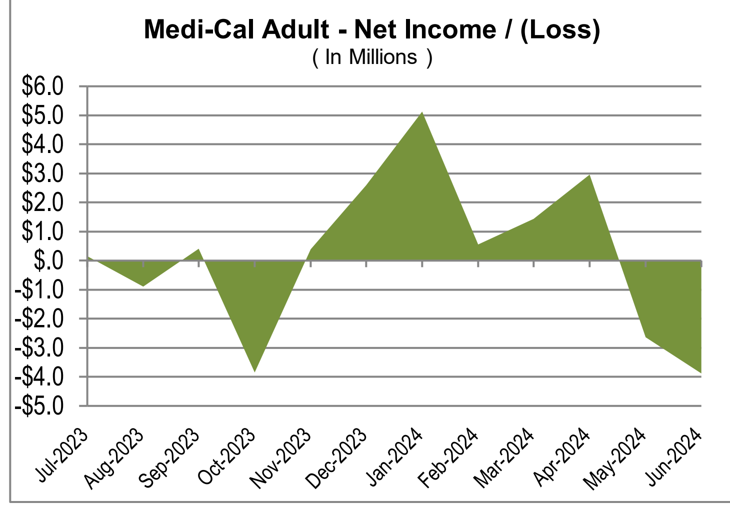
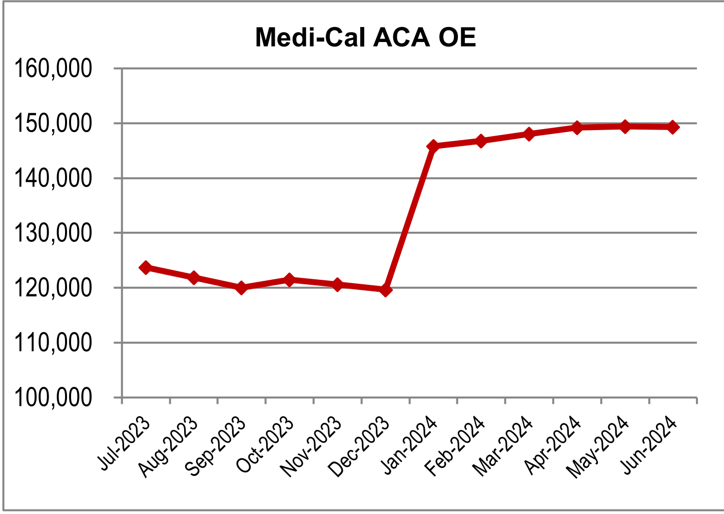
Enrollment and Profitability by Program and Category of Aid

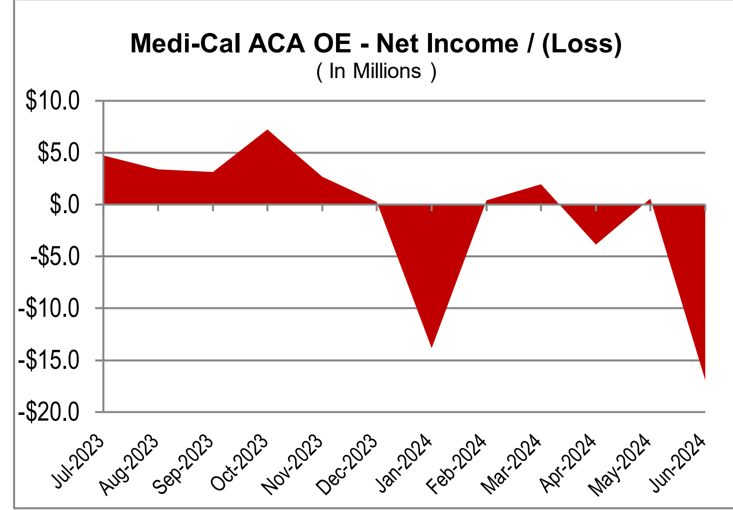




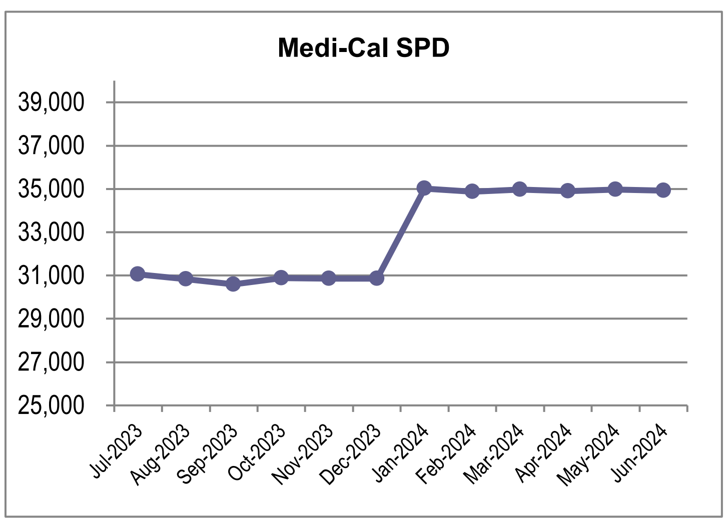


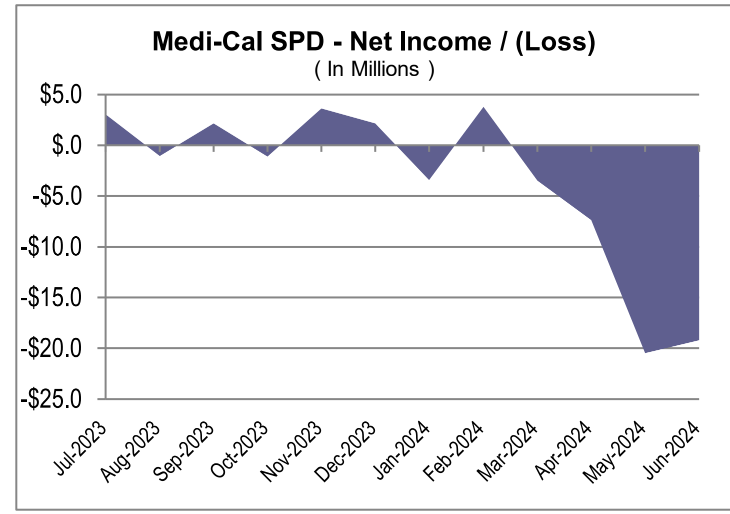


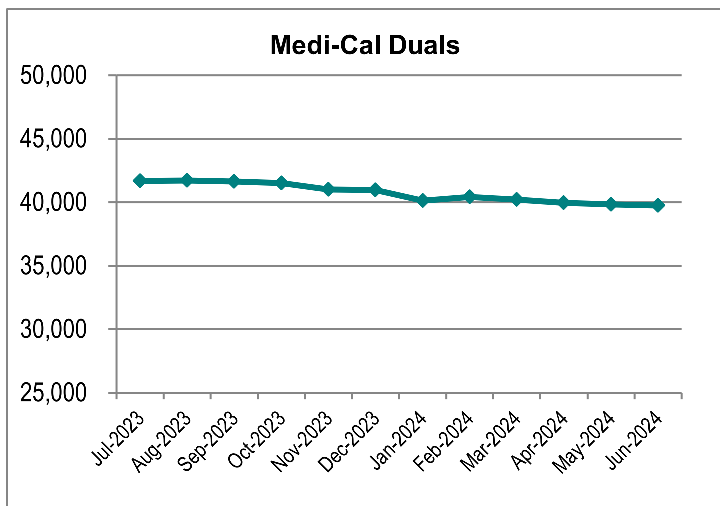


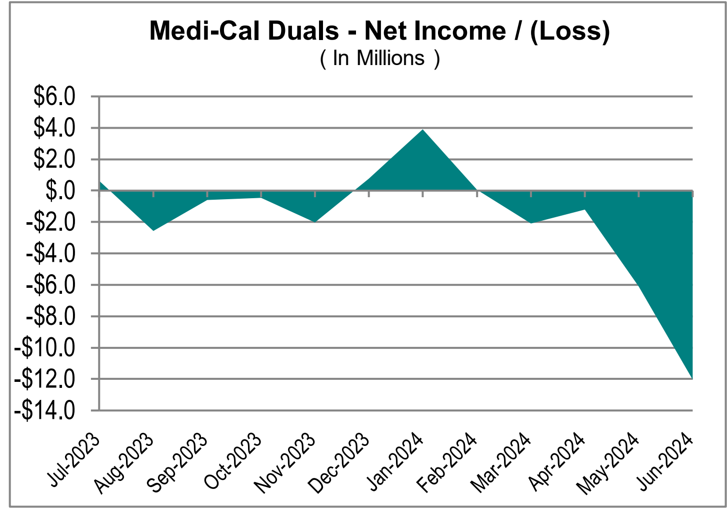


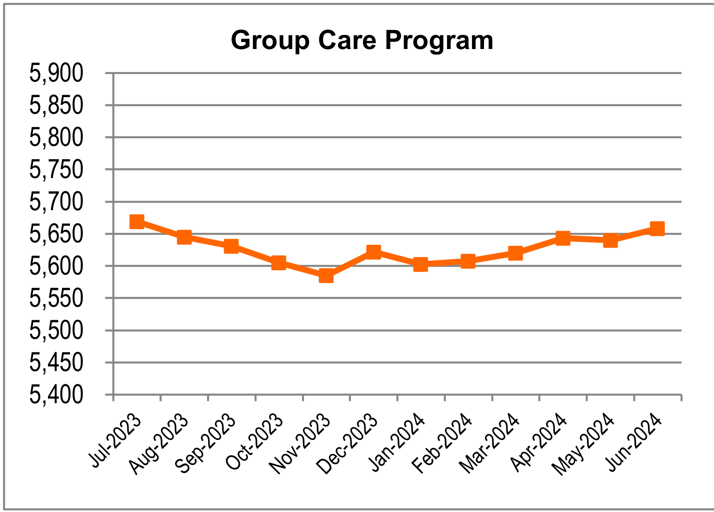
Enrollment and Profitability by Program and Category of Aid

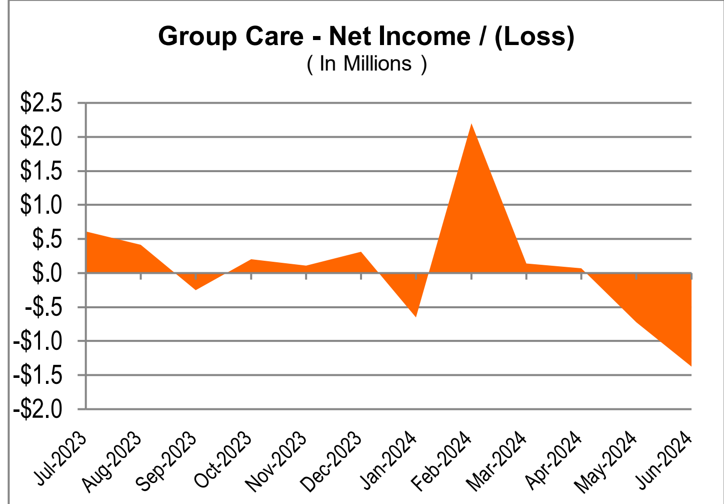




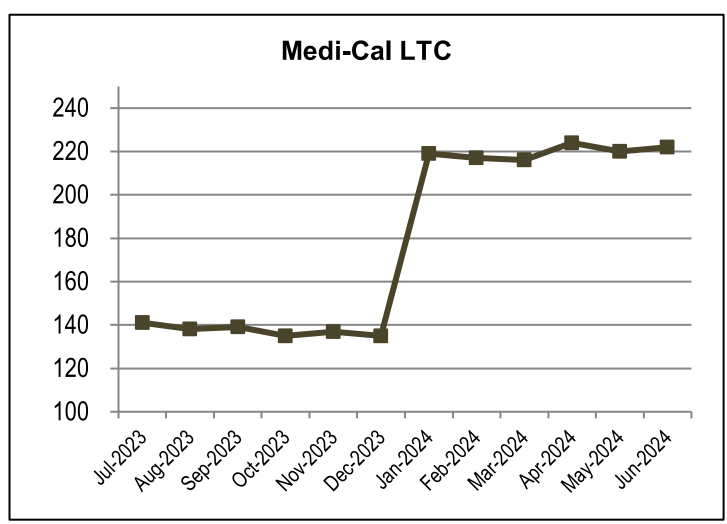


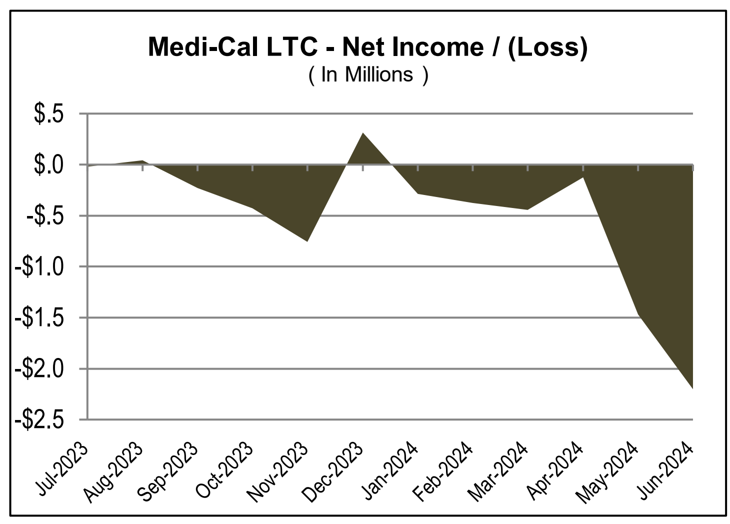


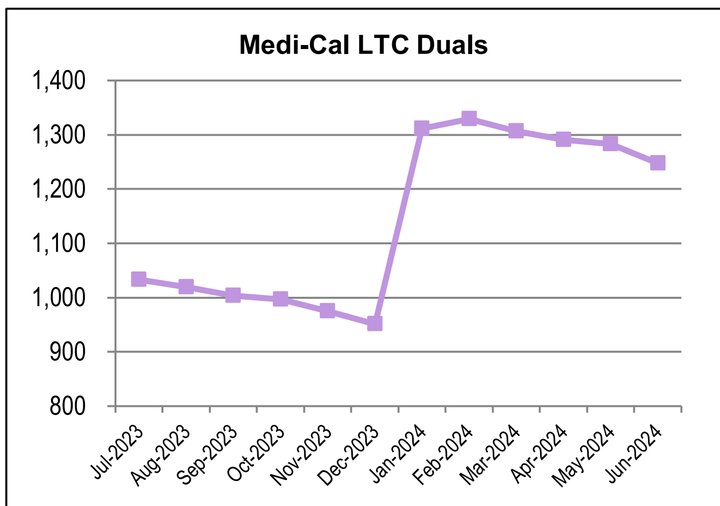


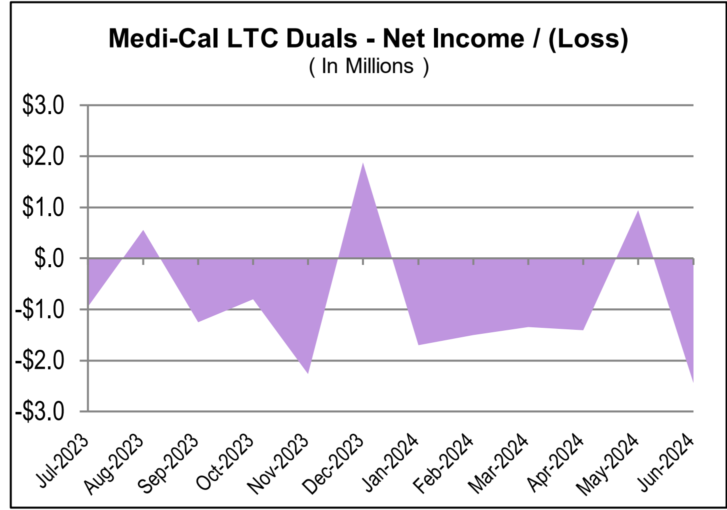


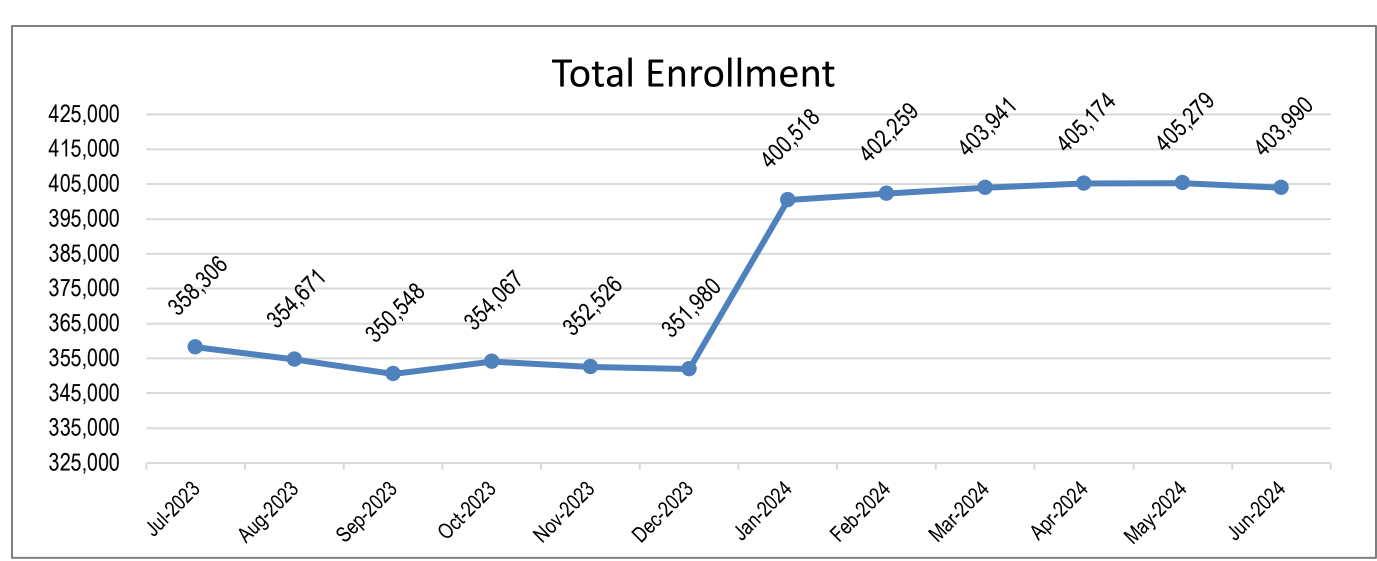
Enrollment and Profitability by Program and Category of Aid

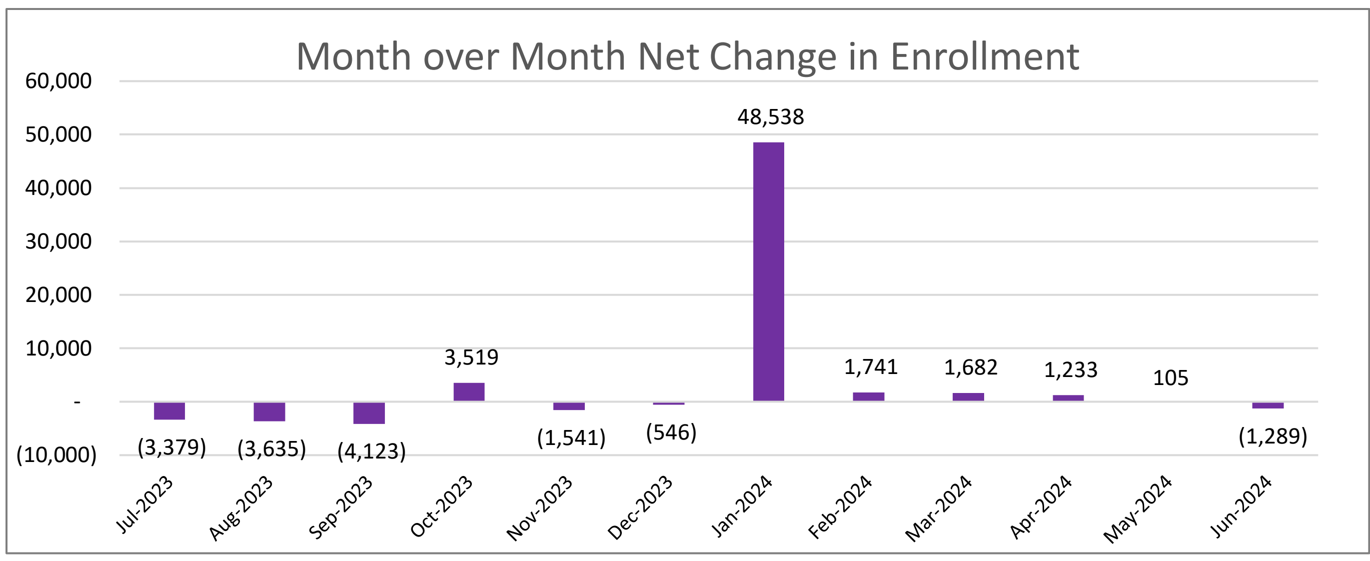










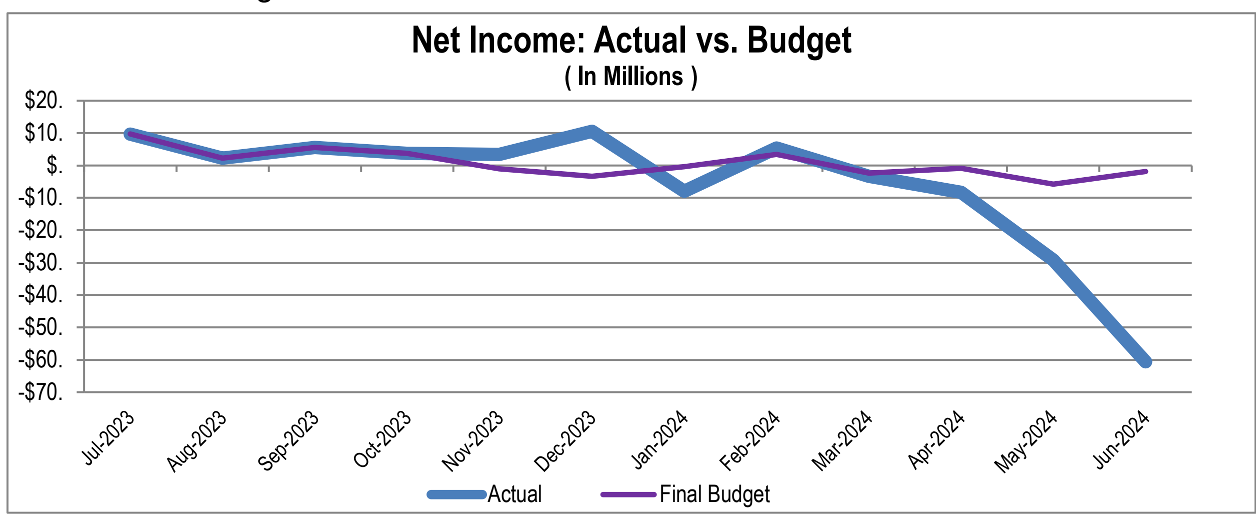


- The Public Health Emergency (PHE) ended May 2023. Disenrollments related to redetermination started July 2023 and ended May 2024. In preparation for the Single Plan Model, effective October 2023 DHCS no longer assigned members to Anthem, and instead new members were assigned to the Alliance.
- In January 2024, enrollment significantly increased due to transition to Single Plan Model and expansion of full scope Medi-Cal to California residents 26-49 regardless of immigration status. Kaiser's transition to a direct contract with the State resulted in a partially offsetting membership reduction.

Net Income

- For the month ended June 30th, 2024:
  - Actual Net Loss $60.6 million.
  - Budgeted Net Loss $1.8 million.

- For the fiscal YTD ended June 30th, 2024:
  - Actual Net Loss $68.6 million.
  - Budgeted Net Income $9.3 million.

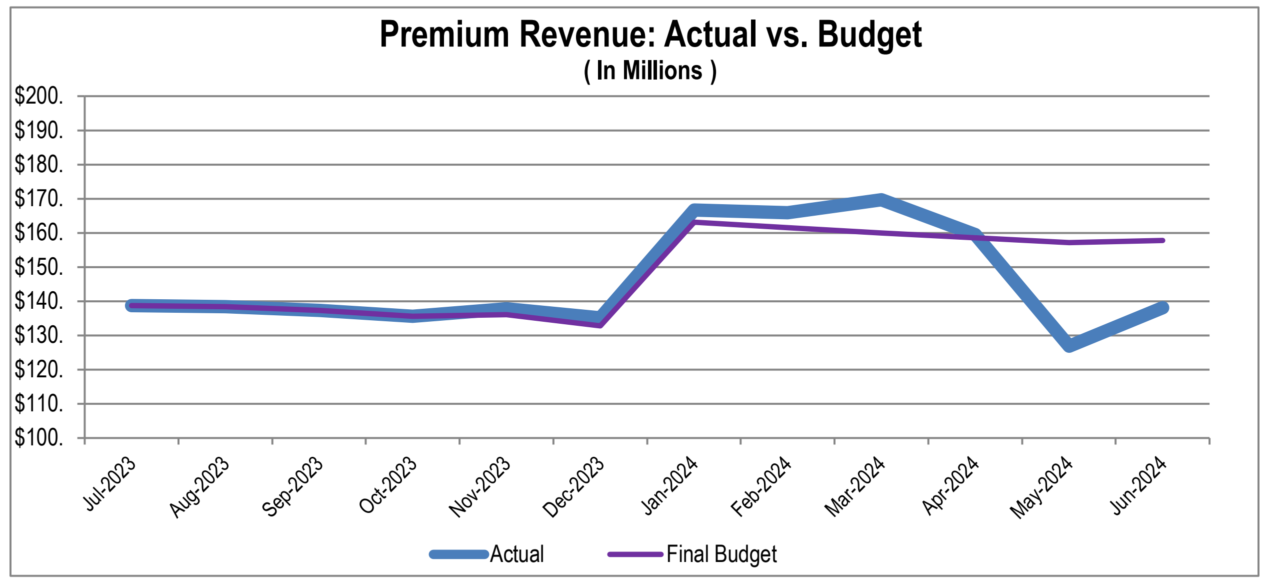


- The unfavorable variance of $58.8 million in the current month is primarily due to:
  - Unfavorable $40.0 million higher than anticipated Medical Expense.
  - Unfavorable $19.5 million lower than anticipated Premium Revenue.

Premium Revenue

- For the month ended June 30th, 2024:
  - Actual Revenue: $138.2 million.
  - Budgeted Revenue: $157.7 million.

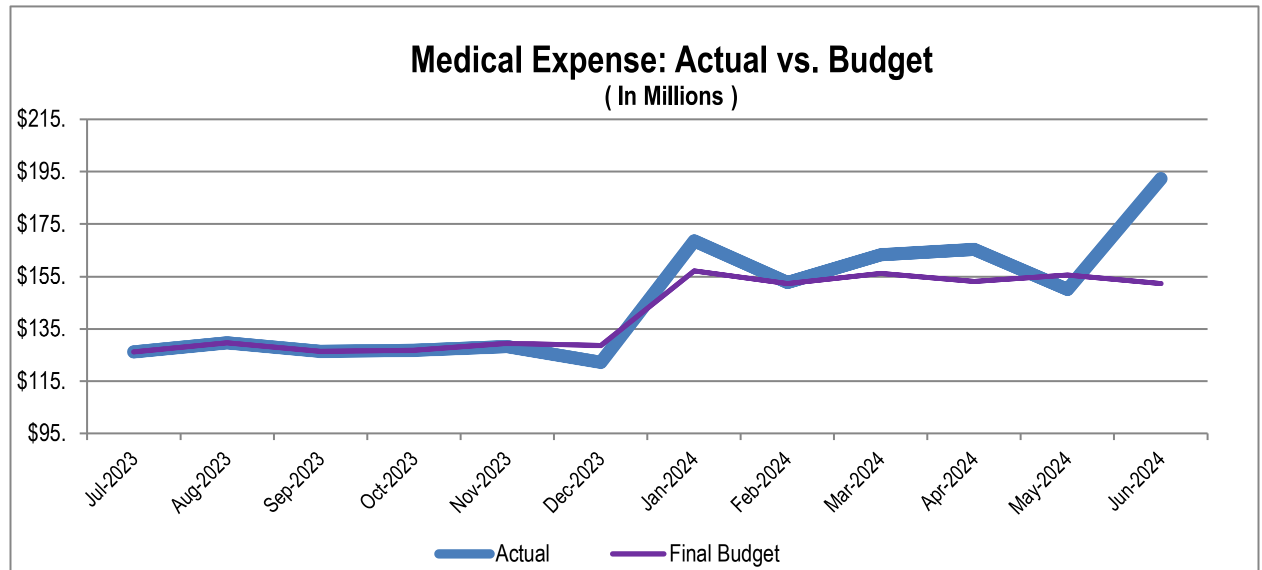
- For the fiscal YTD ended June 30th, 2024:
  - Actual Revenue: $1.8 billion
  - Budgeted Revenue: $1.8 billion.



- For the month ended June 30th, 2024, the unfavorable Premium Revenue variance of $19.5 million is primarily due to the following:
  - Unfavorable Medi-Cal Rate Acuity adjustment for CY2023 with greatly lower rates than anticipated.
  - Unfavorable accrual for the estimated 2023 Major Organ Transplant risk corridor payback to DHCS.
  - Medi-Cal Rate Acuity adjustment for CY2024
  - Favorable Medi-Cal Capitation Rate variance. Rates were not available at the time of budget and the magnitude of upcoming Targeted Rate Increase (TRI) revenue and expense was unknown and therefore not budgeted.
  - Favorable adjustment of historical Medical Loss Ratio (MLR) reserve.
  - Favorable retroactive Capitation payments for CY2022 Kaiser Contract.

Medical Expense

- For the month ended June 30th, 2024:
  - Actual Medical Expense: $192.3 million.
  - Budgeted Medical Expense: $152.3 million.
- For the fiscal YTD ended June 30th, 2024:
  - Actual Medical Expense: $1.8 billion.
  - Budgeted Medical Expense: $1.7 billion.



- Reported financial results include medical expense, which contains estimates for Incurred-But-Not-Paid (IBNP) claims. Calculation of monthly IBNP is based on historical trends and claims payment. The Alliance's IBNP reserves are reviewed by our actuarial consultants.

- For June, updates to Fee-For-Service (FFS) increased the estimate for prior period unpaid Medical Expenses by $26.5 million. Year to date, the estimate for prior years increased by $11.0 million (per table below).

- Prior period IBNP in June was driven primarily by Long Term Care FFS medical expense which had higher unit cost and utilization than anticipated. The Alliance has been receiving additional claims and adjustments for months which were thought to be relatively complete, which makes it difficult to calculate IBNP during an exact timeframe.

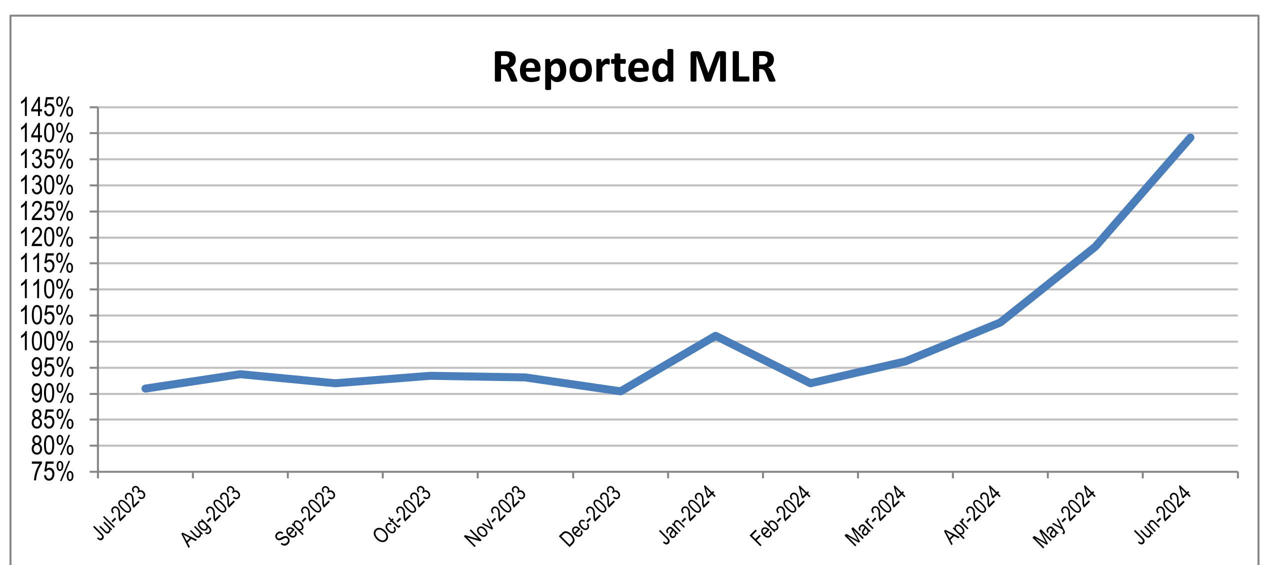
- Excluding the impact of prior year estimates for IBNP, year-to-date medical expense variance is $47.6 million unfavorable to budget. On a PMPM basis, medical expense is 1.5% unfavorable to budget. For per-member-per-month expense:
    - Capitated Expense is slightly over budget, largely driven by unfavorable PCP Capitation expense due to inception of Provider Targeted Rate

Increases (TRI), partially offset by favorable FQHC expense and favorable Global subcontract expense related to prior fiscal year rate adjustment.

- Primary Care Expense is under budget driven by the low utilization in the ACA OE, SPD, Adult and Child aid code categories and a surplus of Prop 56 revenue.
- Specialty Care Expense is below budget, driven mostly by less than expected SPD aid code category utilization.
- Outpatient Expense is under budget due to low lab and radiology utilization and facility other unit cost in all populations except for Child and LTC Dual populations.
- Ancillary Expense is over budget mostly due to higher than expected utilization in all populations except for the Child category of aid.
- Pharmacy Expense is under budget due to low Non-PBM expense driven by lower utilization in the ACA OE aid code category.
- Emergency Room Expense is over budget driven by high utilization in all populations except for LTC Duals and Group Care.
- Inpatient Expense is over budget driven by high utilization and unit cost in the ACA OE, SPD and LTC aid code categories.
- Long Term Care Expense is over budget due to high utilization and unit cost in all populations except for the LTC aid code category.
- Other Benefits & Services is under budget, due to lower than expected community relations, other purchased, professional and Cal Aim Incentive expense offset by HHIP and other employee expense.
- Net Reinsurance year-to-date is under budget because more recoveries were received than expected.

<u>Medical Loss Ratio (MLR)</u>

The Medical Loss Ratio (total reported medical expense divided by Premium revenue) was 139.2% for the month and 100.1% for the fiscal year-to-date.



Administrative Expense

- For the month ended June 30th, 2024:
  - Actual Administrative Expense: $9.5 million.
  - Budgeted Administrative Expense: $9.7 million.

- For the fiscal YTD ended June 30th, 2024:
  - Actual Administrative Expense: $97.7 million.
  - Budgeted Administrative Expense: $104.2 million.

The year-to-date variances include:

- Favorable Employee and Temporary Services and delayed training, travel, Recruitment and other employee-related expenses.
- Favorable Building Occupancy costs.
- Favorable Licenses, Insurance & Fees
- Favorable Consulting Fees
- Unfavorable impact of timing for Computer Support Services, Other Purchased Services; Medical Benefit Admin fees, Community Relation fees; as well as the change in account bookings for IT-related Licenses and Subscriptions.

The Administrative Loss Ratio (ALR) is 6.9% of net revenue for the month and 5.6% of net revenue year-to-date.

Other Income / (Expense)

Other Income & Expense is comprised of investment income and claims interest.

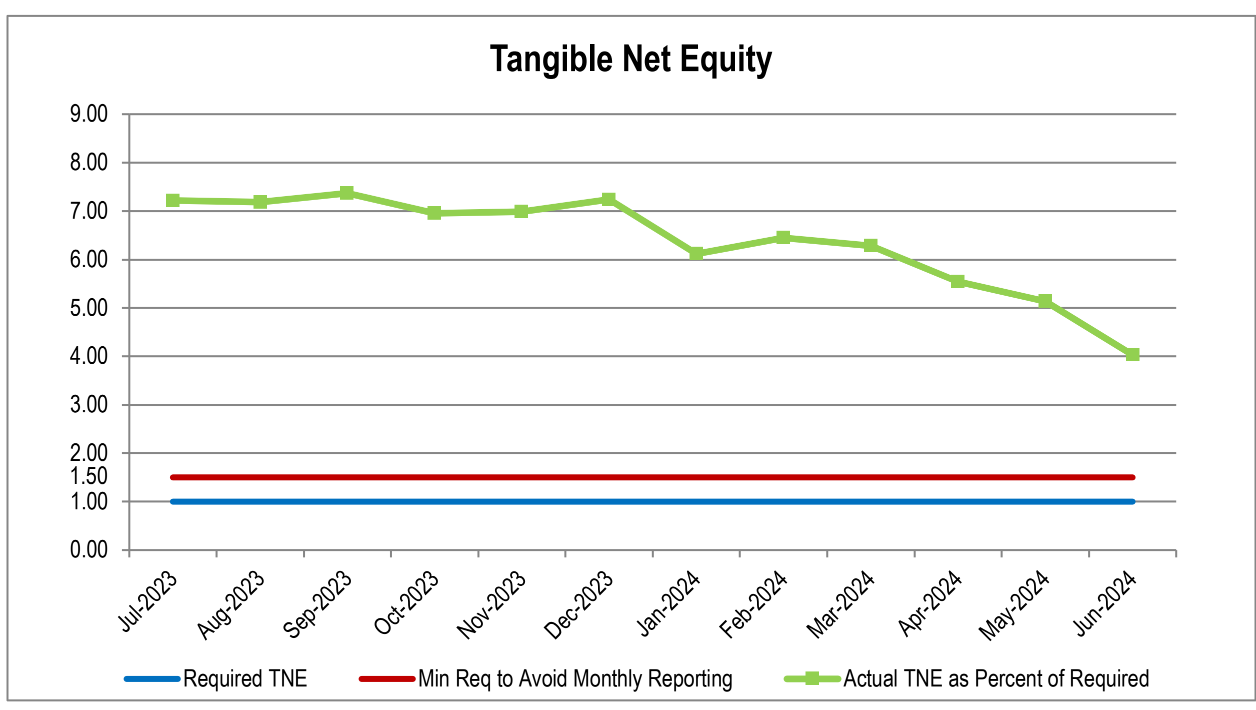
- Fiscal year-to-date net investments show a gain of $31.7 million.
- Fiscal year-to-date claims interest expense, due to delayed payment of certain claims, or recalculated interest on previously paid claims is $865,000.

Managed Care Organization (MCO) Provider Tax

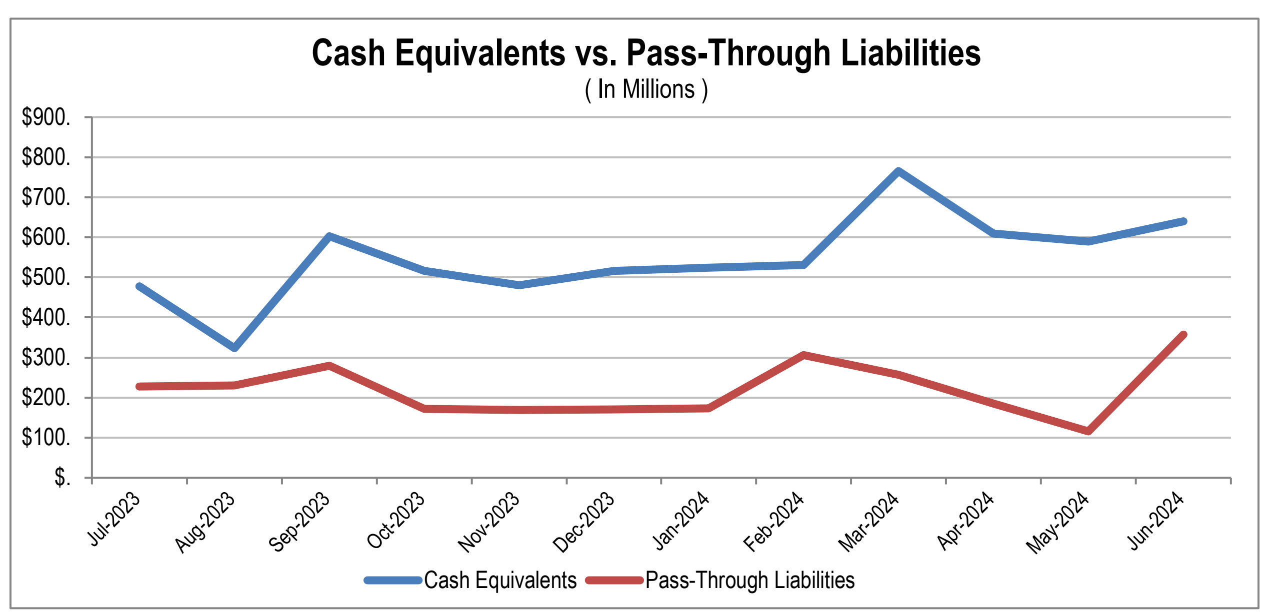
- For the month ended June 30th, 2024:
  - $114.8 million unbudgeted MCO Tax Revenue.
  - $114.8 million unbudgeted MCO Tax Expense.

Tangible Net Equity (TNE)

- The Department of Managed Health Care (DMHC) monitors the financial stability of health plans to ensure that they can meet their financial obligations to providers. TNE is a calculation of a company's total tangible assets minus a percentage of fee-for-service medical expenses. The Alliance exceeds DMHC's required TNE.
    - Required TNE $63.4 million
    - Actual TNE $255.4 million
    - Excess TNE $192.0 million
    - TNE % of Required TNE 403%



- To ensure appropriate liquidity and limit risk, the majority of Alliance financial assets are kept in short-term investments.
- Key Metrics
    - Cash & Cash Equivalents $640.3 million
    - Pass-Through Liabilities $357.5 million
    - Uncommitted Cash $282.9 million
    - Working Capital $212.7 million
    - Current Ratio 1.26 (regulatory minimum is 1.00)



Capital Investment

- Fiscal year-to-date capital assets acquired: $415,000.
- Annual capital budget: $1.6 million.
- A summary of year-to-date capital asset acquisitions is included in this monthly financial statement package.

Caveats to Financial Statements

- We continue to caveat these financial statements that, due to challenges of projecting medical expense and liabilities based on incomplete claims experience, financial results are subject to revision.
- The full set of financial statements and reports are included in the Board of Governors Report. This is a high-level summary of key components of those statements, which are unaudited.

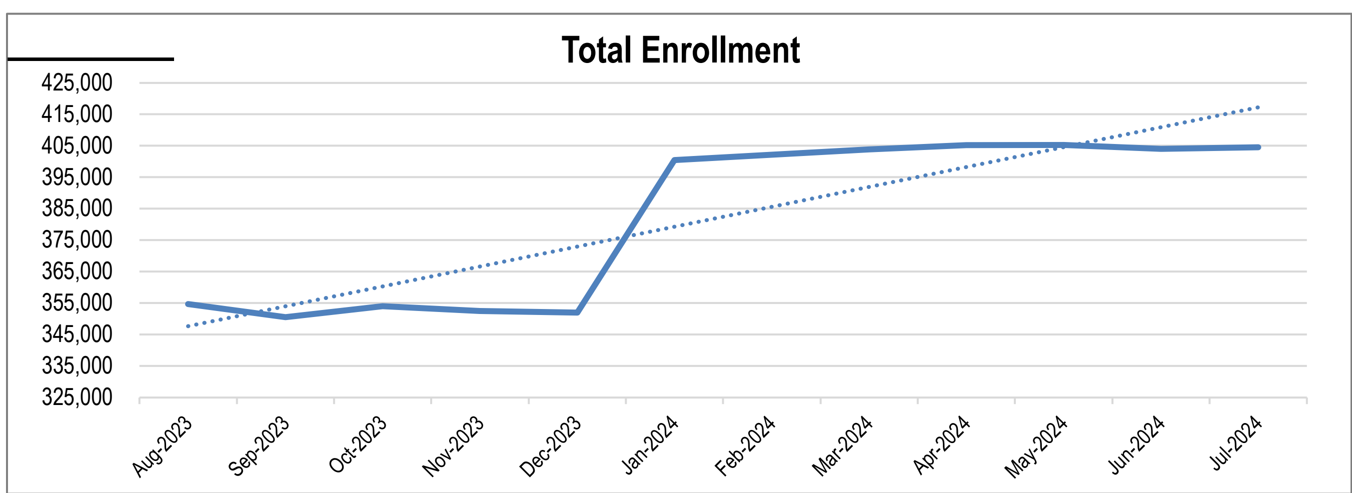
From: Gil Riojas, Chief Financial Officer

Date: September 13th, 2024

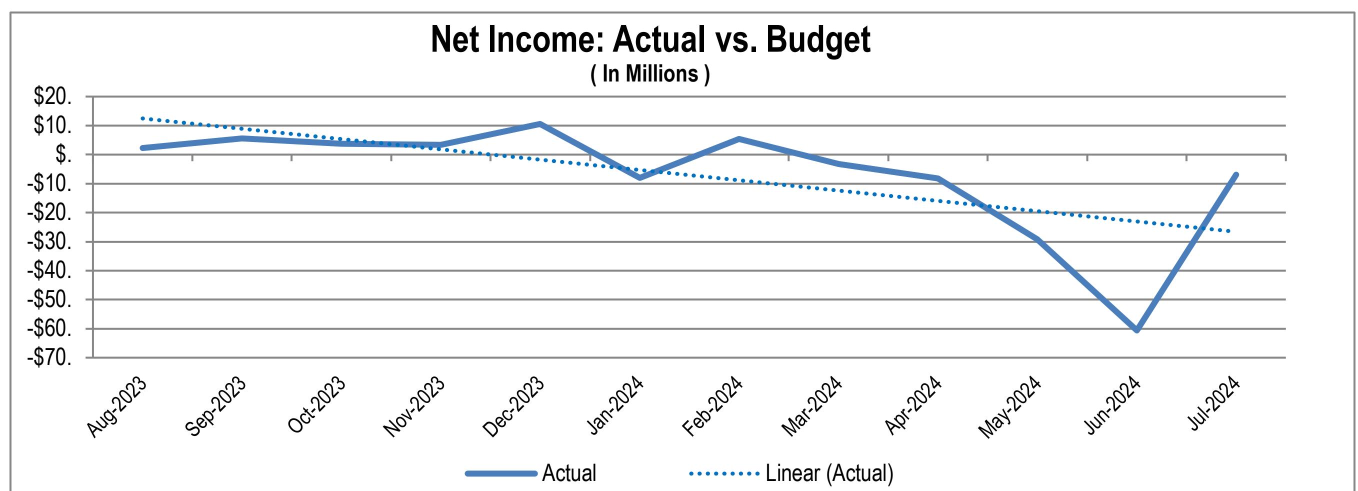
Subject: Finance Report – July 2024 Financials

Executive Summary

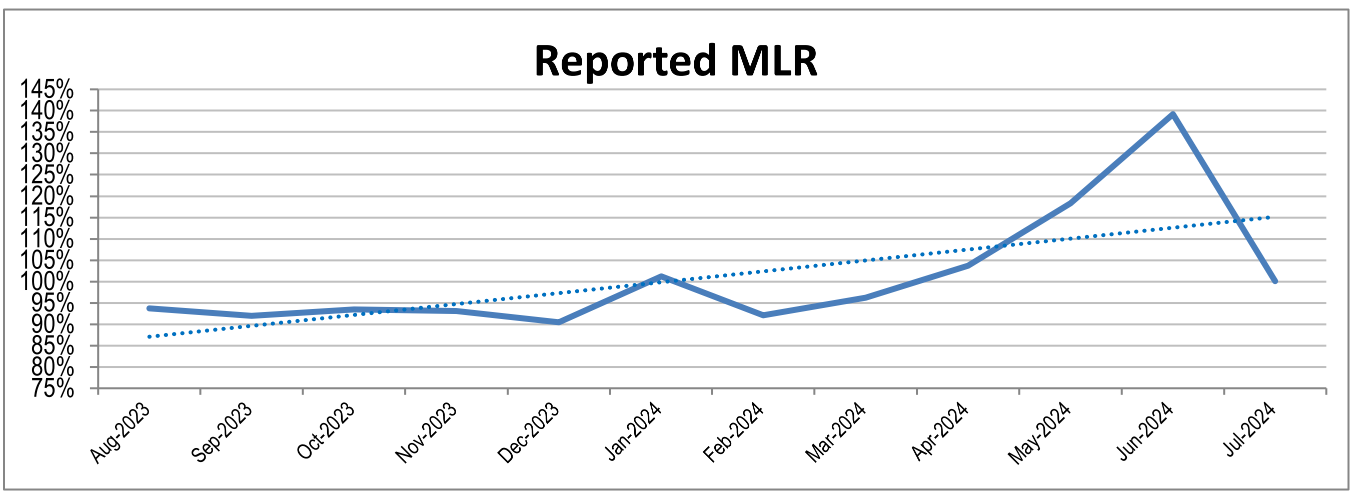
The Alliance started the new fiscal year with a slight increase in enrollment, reaching 405,000 members by month end July 31st, 2024. A Net Loss of $7.0 million was reported in July. The Plan's Medical Expenses represented 100.1% of revenue. Alliance reserves decreased to 361% of required but remain above minimum requirements.



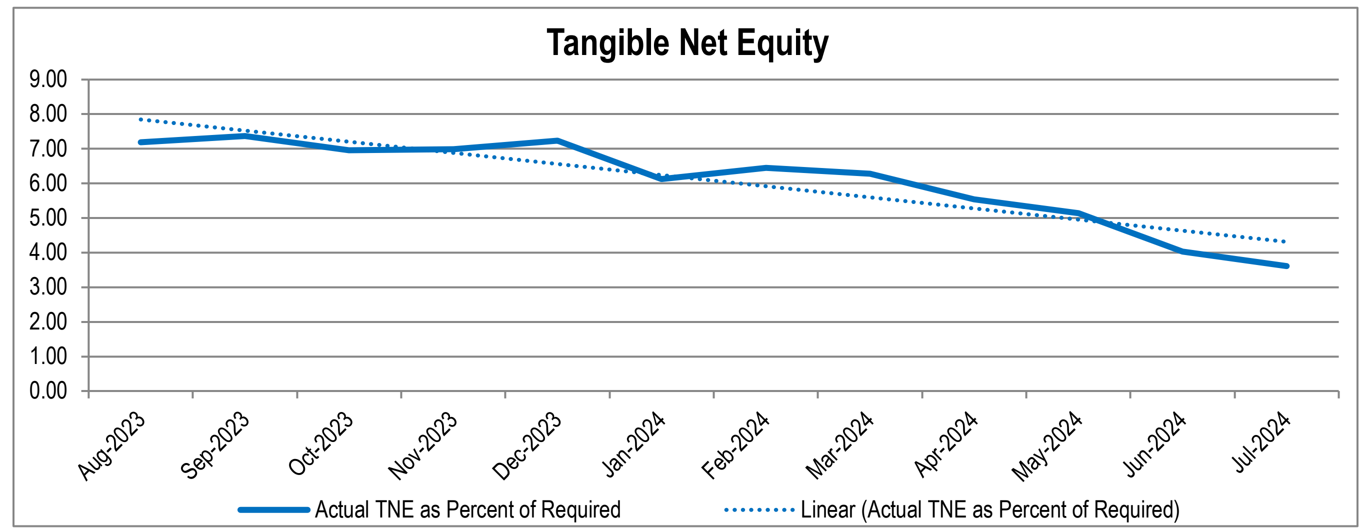
Net Income – For the month and fiscal YTD ended July 31st, 2024, actual Net Loss was $7.0 million vs. budgeted Net Loss of $2.4 million. For the month and fiscal YTD, Premium Revenue was slightly unfavorable to budget, actual Revenue was $164.3 million vs. budgeted Revenue of $166.0 million.



Medical Loss Ratio (MLR) – The Medical Loss Ratio was 100.1% for the month. The major variances include unfavorable Inpatient/SNF and Emergency Expense.



Tangible Net Equity (TNE) - The Department of Managed Health Care (DMHC) required $68.8M in reserves, we reported $179.6M. Our overall TNE remains above DMHC requirements at 361%.



The Alliance continues to benefit from increased non-operating income. For Fiscal year-to-date, we reported returns of $4.0M, in the investment portfolio, and paid $184,000 in claims interest expense.

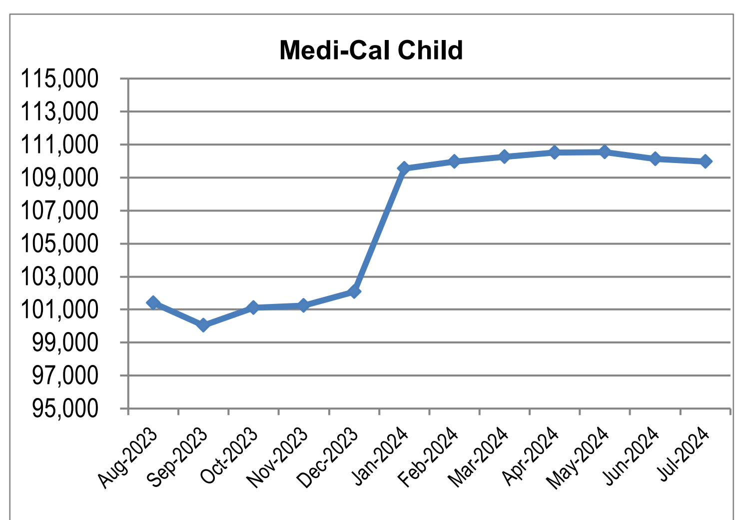
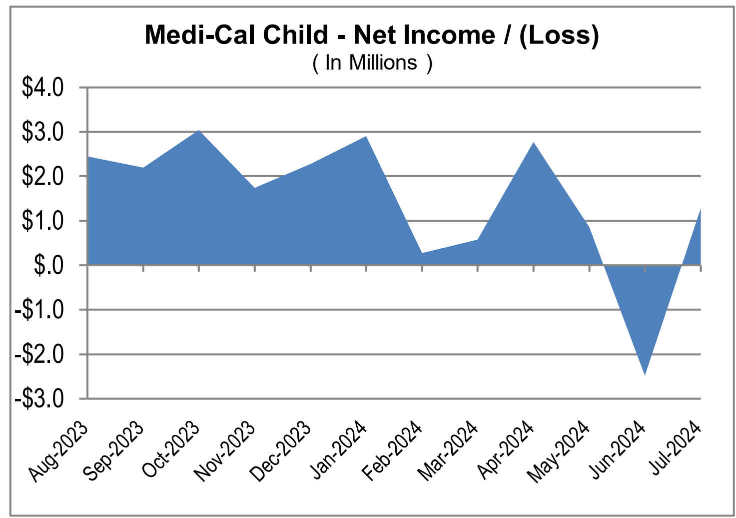
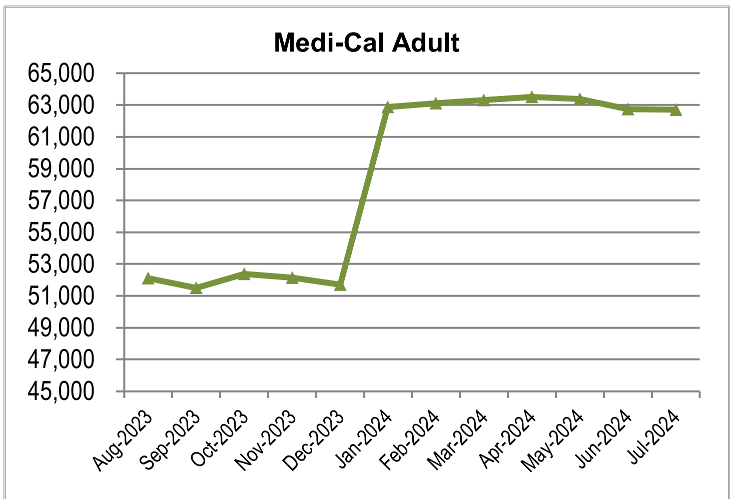
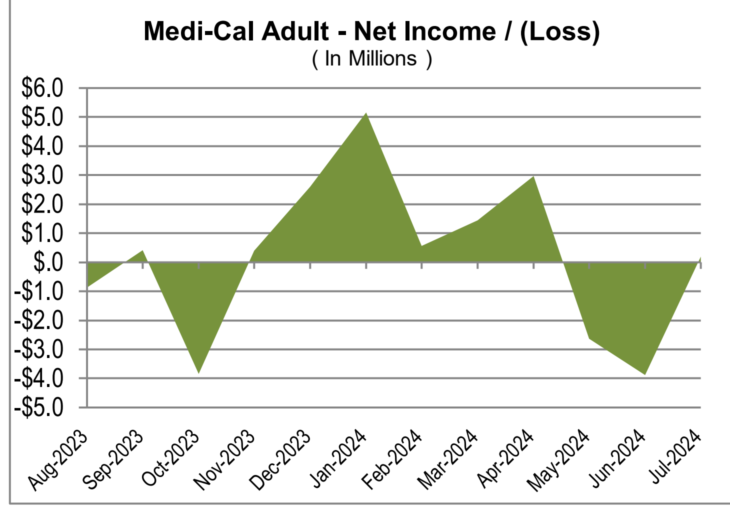
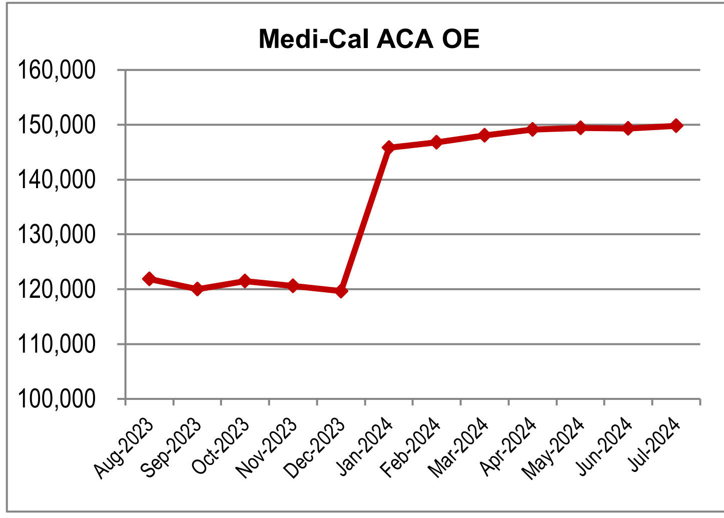
Enrollment and Profitability by Program and Category of Aid

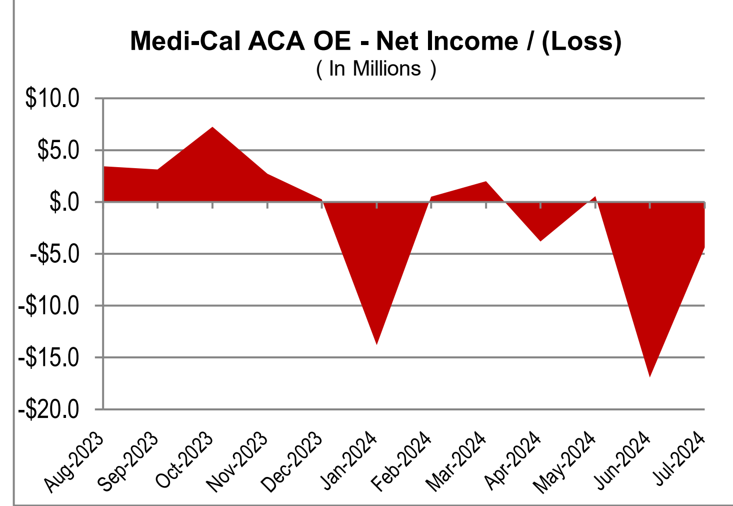




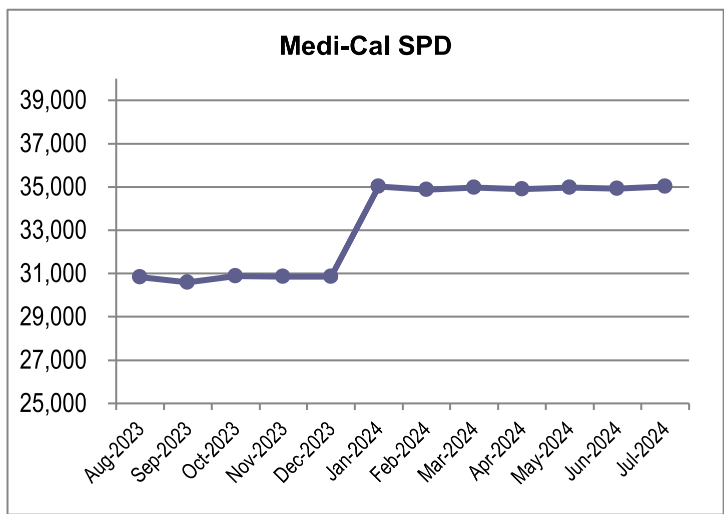


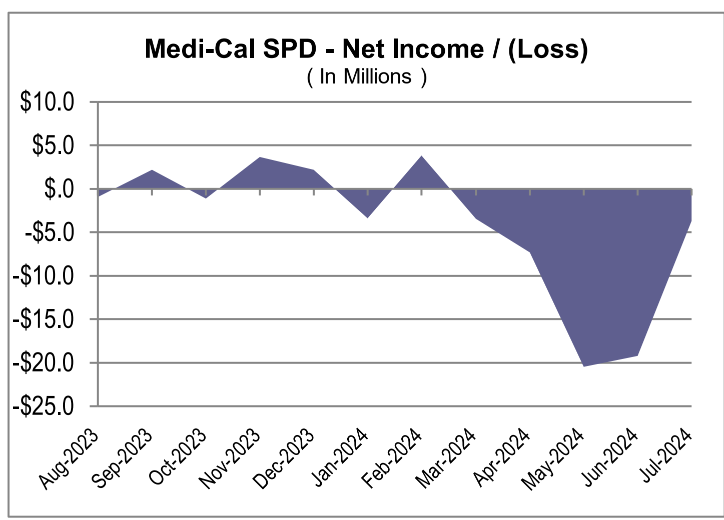


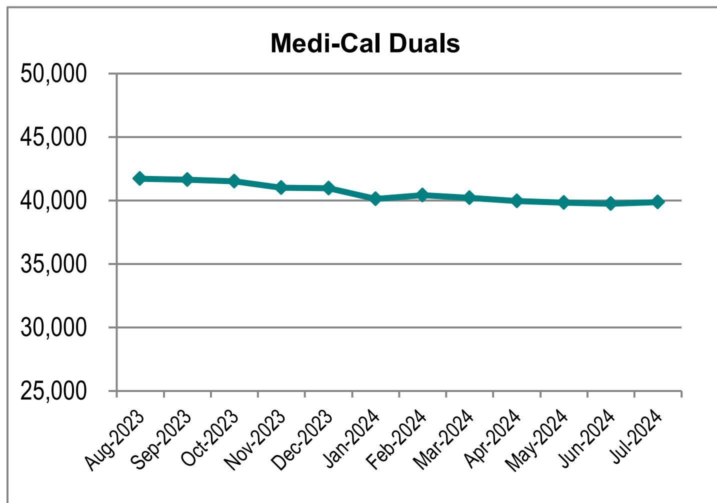


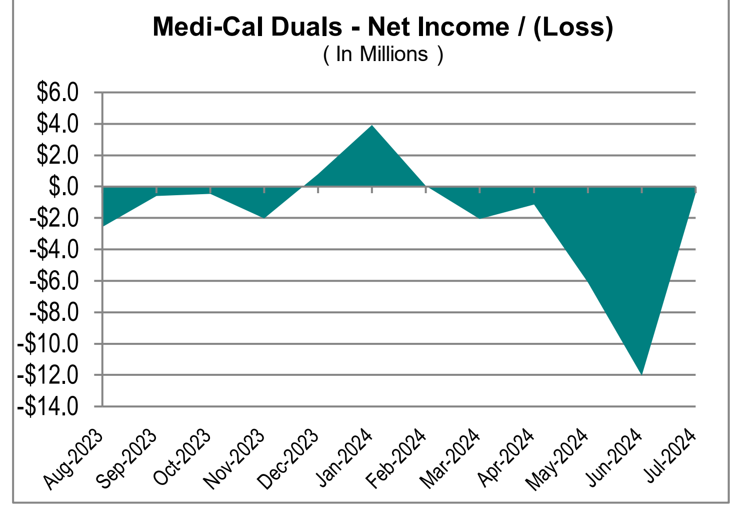


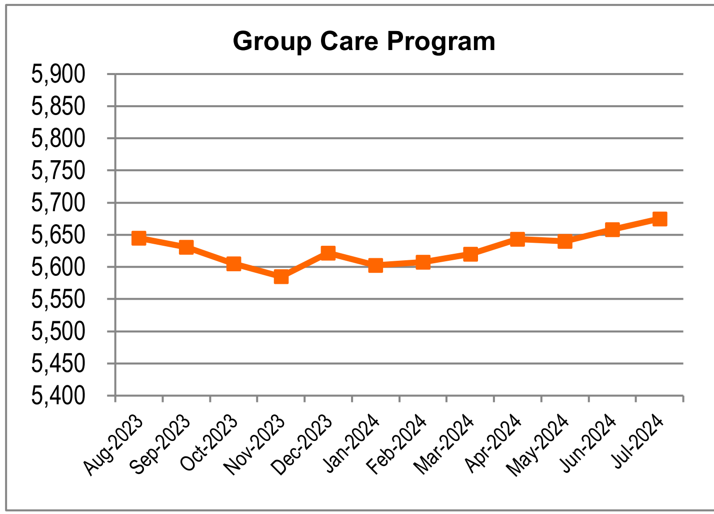
Enrollment and Profitability by Program and Category of Aid

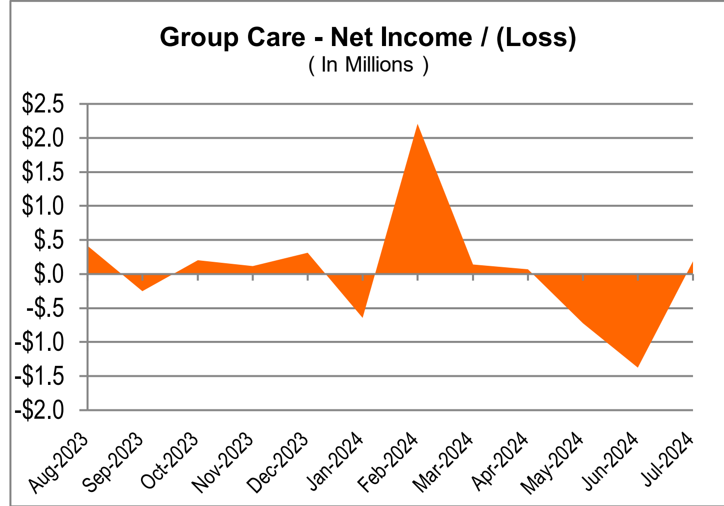




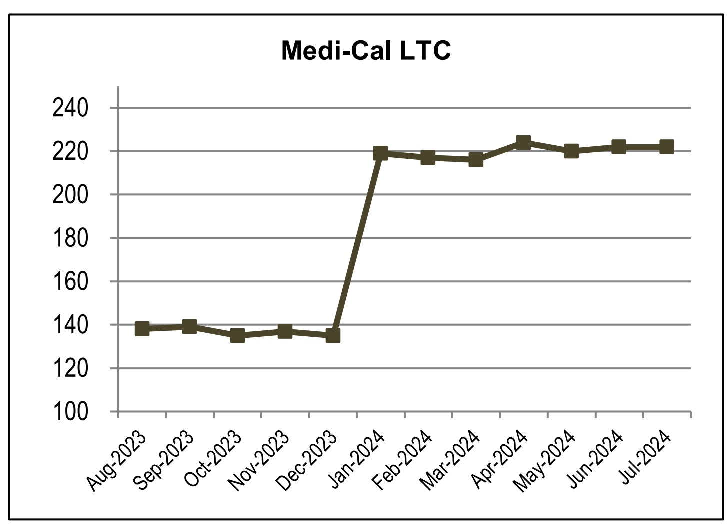


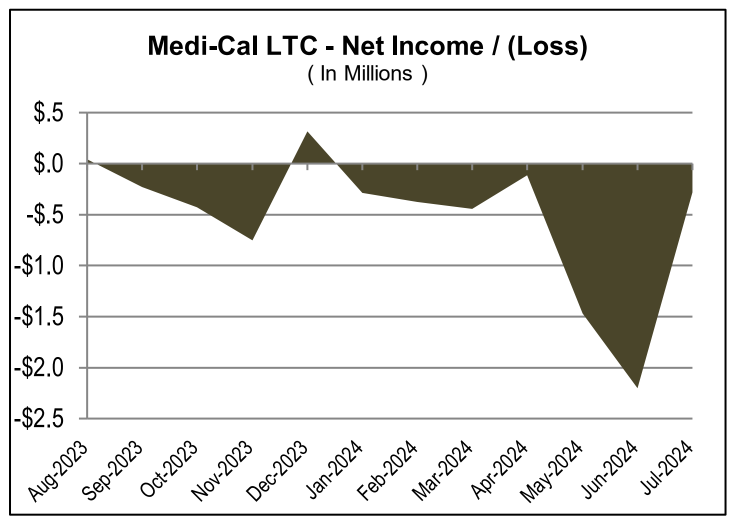


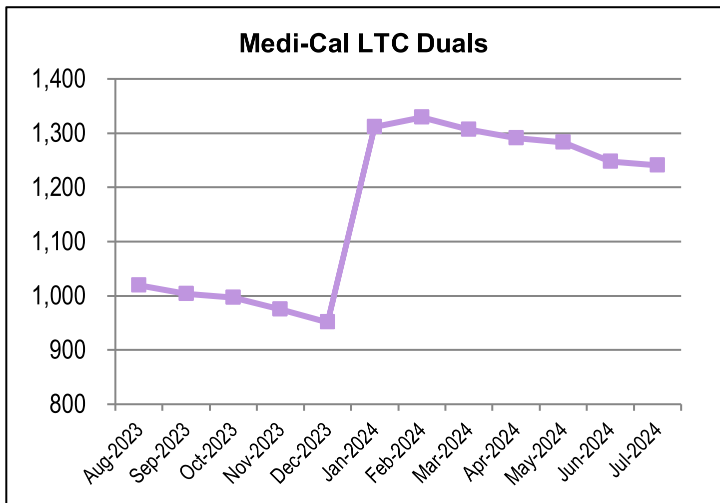


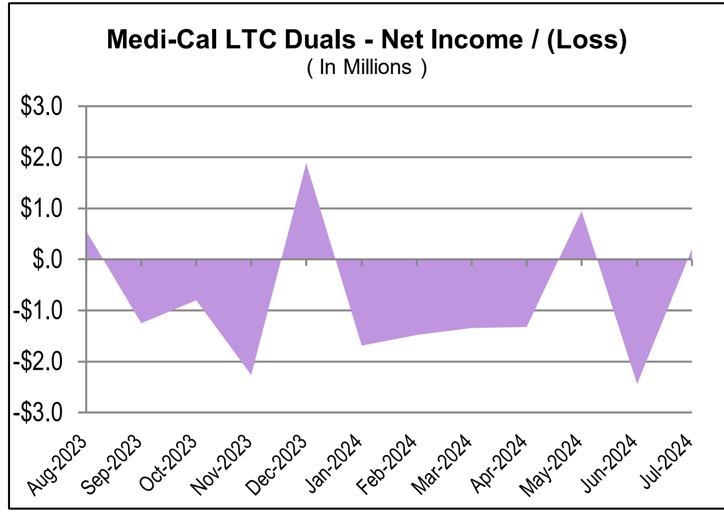


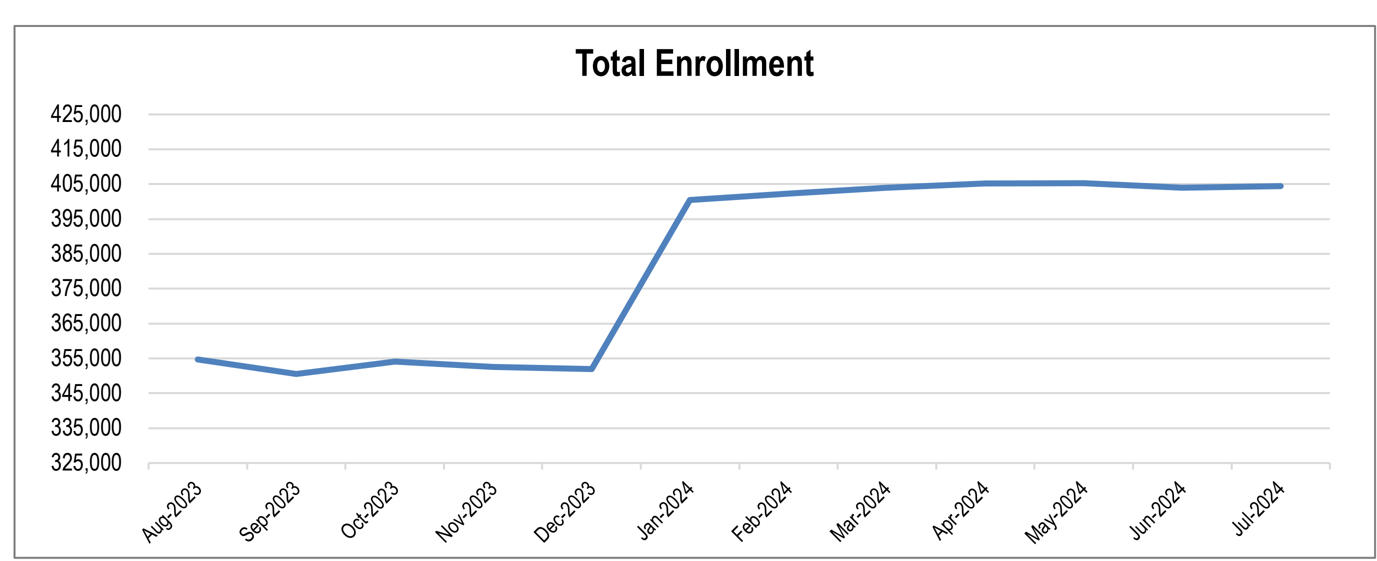
Enrollment and Profitability by Program and Category of Aid

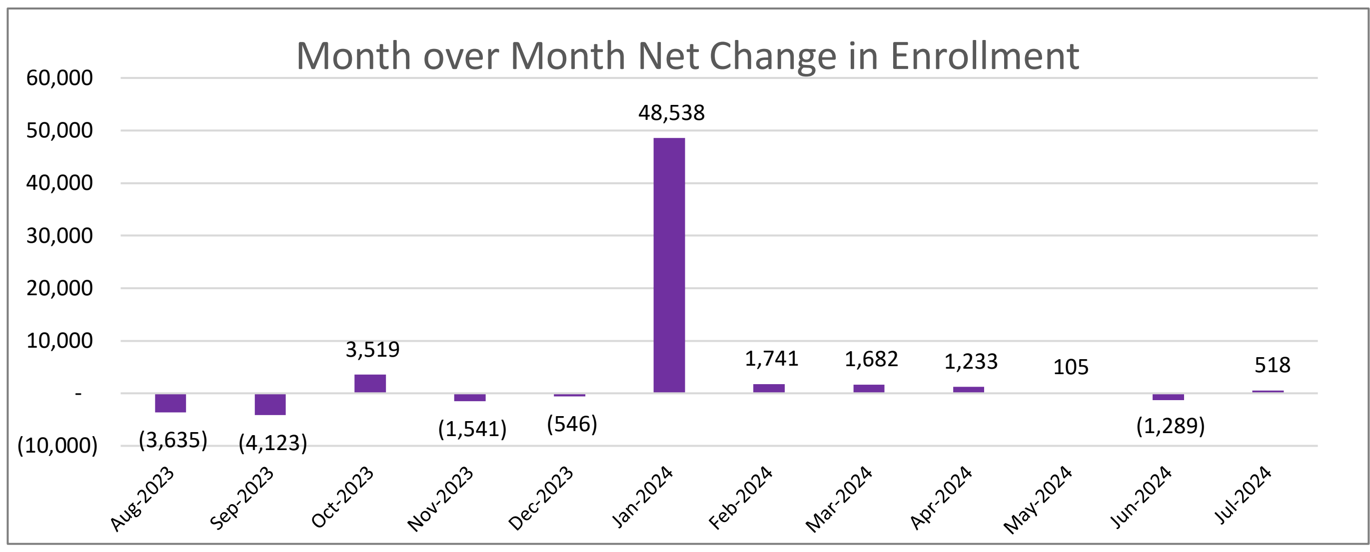








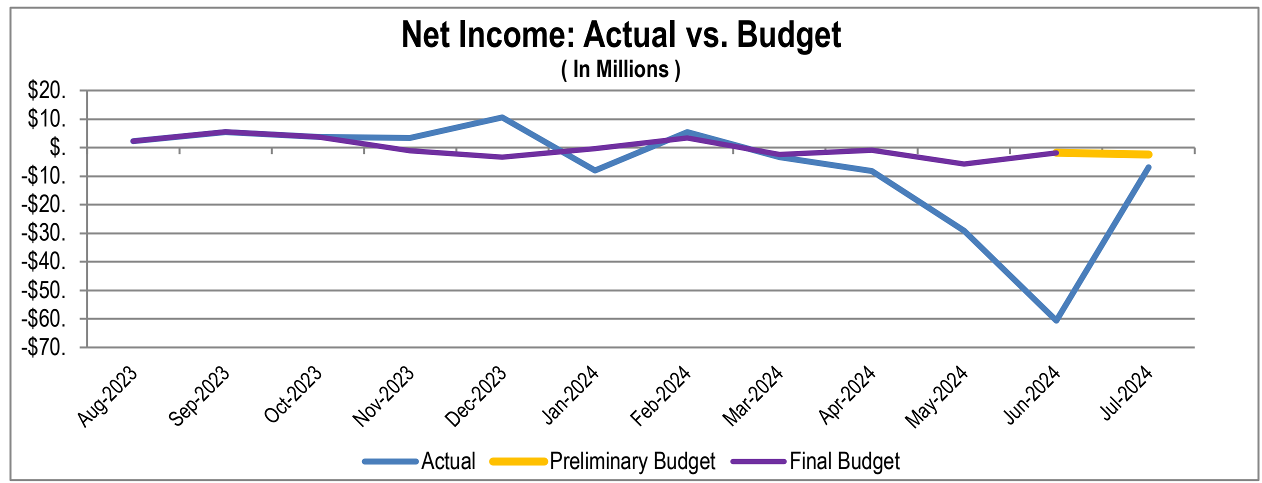




- The Public Health Emergency (PHE) ended May 2023. Disenrollments related to redetermination started July 2023 and are assumed to be largely complete as of June 2024. In preparation for the Single Plan Model, effective October 2023 DHCS no longer assigned members to Anthem, and instead new members were assigned to the Alliance.
- In January 2024, enrollment significantly increased due to transition to Single Plan Model and expansion of full scope Medi-Cal to California residents 26-49 regardless of immigration status. Kaiser's transition to a direct contract with the State resulted in a partially offsetting membership reduction.

Net Income

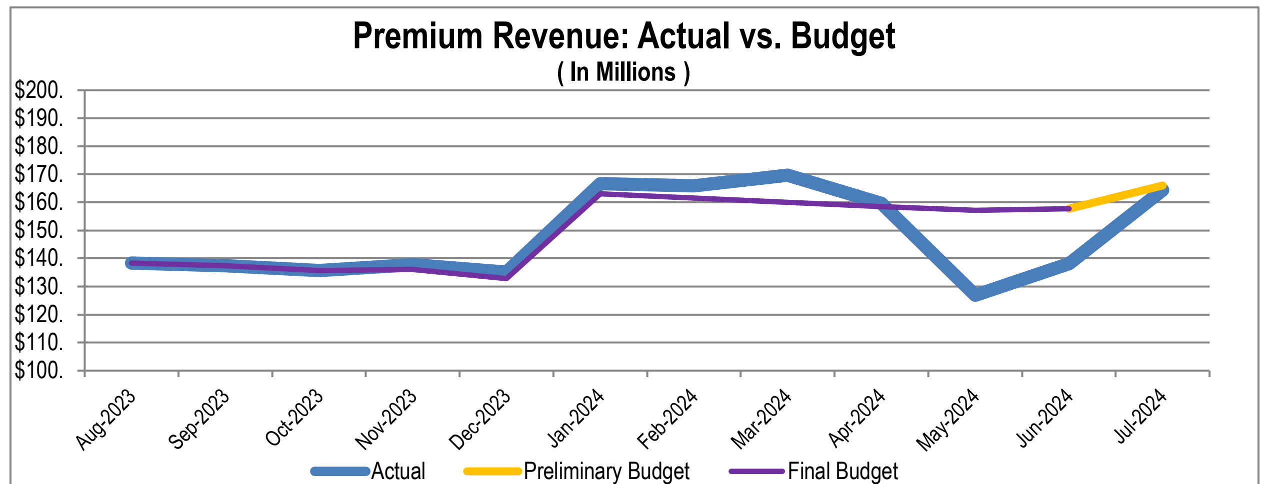
- For the month and fiscal YTD ended July 31st, 2024:
  - Actual Net Loss $7.0 million.
  - Budgeted Net Loss $2.4 million.



- The unfavorable variance of $4.6 million in the current month is primarily due to:
  - Unfavorable $2.3 million higher than anticipated Medical Expense.
  - Unfavorable $2.1 million higher than anticipated Administrative Expense.
  - Unfavorable $1.7 million lower than anticipated Premium Revenue.

Premium Revenue

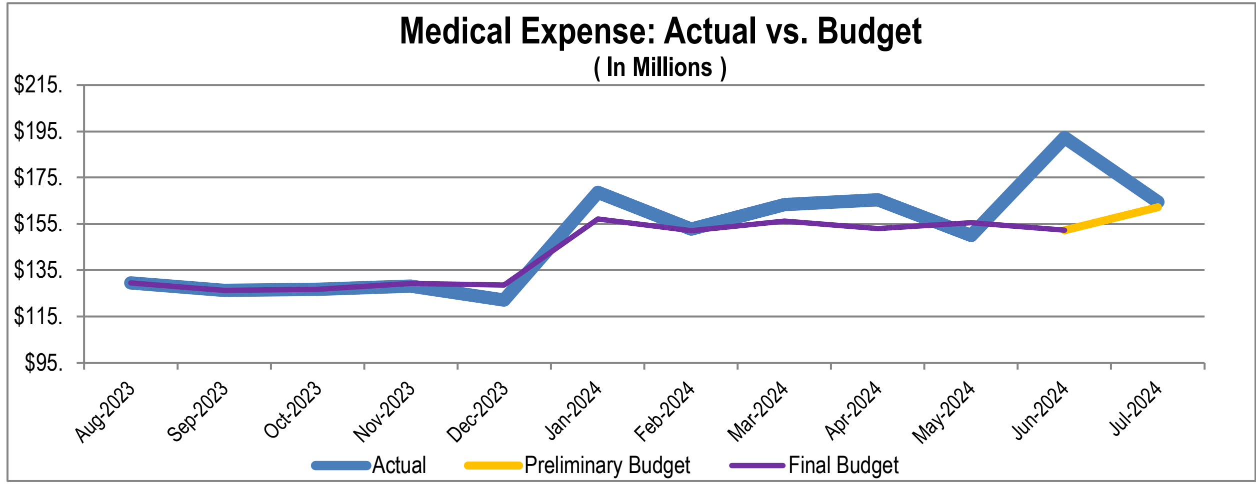
- For the month and fiscal YTD ended July 31st, 2024:
  - Actual Revenue: $164.3 million
  - Budgeted Revenue: $166.0 million.



- For the month ended July 31st, 2024, the unfavorable Premium Revenue variance of $1.7 million is primarily due to the following:
  - Unfavorable Medi-Cal Rate Acuity adjustment for CY2024

Medical Expense

- For the month and fiscal YTD ended July 31st, 2024:
  - Actual Medical Expense: $164.5 million.
  - Budgeted Medical Expense: $162.2 million.



- Reported financial results include medical expense, which contains estimates for Incurred-But-Not-Paid (IBNP) claims. Calculation of monthly IBNP is based on historical trends and claims payment. The Alliance's IBNP reserves are reviewed by our actuarial consultants.

- For July, updates to Fee-For-Service (FFS) increased the estimate for prior period unpaid Medical Expenses by $1,000. This small reduction in Medical Expense is related to returned checks and Grievance and Appeals resolutions for years prior to the normal IBNP time frame.

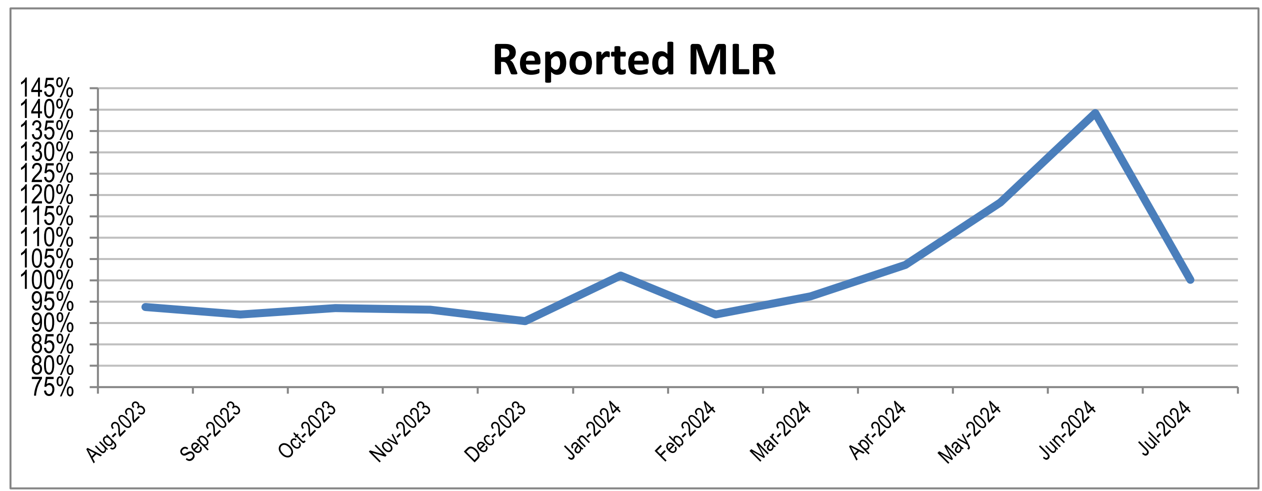
- Excluding the impact of prior year estimates for IBNP, year-to-date medical expense variance is $2.3 million unfavorable to budget. On a PMPM basis, medical expense is 1.6% unfavorable to budget. For per-member-per-month expense:
    - Capitated Expense is slightly under budget, largely driven by favorable PCP Capitation FQHC expense, partially offset by unfavorable PCP Capitation expense due to inception of Provider Targeted Rate Increases (TRI).
    - Primary Care Expense is under budget driven by the low utilization in the ACA OE, Child and Duals aid code categories.
    - Specialty Care Expense is below budget, driven mostly by less than expected SPD and Duals aid code category utilization.
    - Outpatient Expense is over budget due to higher utilization in the SPD and LTC Duals aid code category.
    - Ancillary Expense is over budget mostly due to higher than expected utilization in the SPD, ACA OE and Duals aid code categories.
    - Pharmacy Expense is under budget due to low Non-PBM expense driven by lower utilization in the ACA OE, Adult and Duals aid code categories.
    - Emergency Room Expense is over budget driven by high utilization in the SPD, ACA OE and Adult aid code categories.
    - Inpatient Expense is over budget driven by seasonally higher utilization and unit cost due to increased catastrophic case and contract change expense in the ACA OE, SPD and Adult aid code categories.
    - Long Term Care Expense is over budget due to high utilization in the SPD and Duals aid code categories.
    - Other Benefits & Services is under budget, due to lower than expected other purchased and professional services expense.
    - Net Reinsurance year-to-date is under budget because more recoveries were received than expected.

Medical Loss Ratio (MLR)

The Medical Loss Ratio (total reported medical expense divided by Premium revenue) was 100.1% for the month and fiscal year-to-date.



Administrative Expense

- For the month and fiscal YTD ended July 31st, 2024:
  - Actual Administrative Expense: $10.8 million.
  - Budgeted Administrative Expense: $8.7 million.

The year-to-date variances include:

- Unfavorable in Purchased & Professional Services. For the timing for Consulting Services, Computer Support Services, Other Purchased Services: HMS Recovery Fees, and Software Expense. The above is slightly offset by the delay in Hardware purchases.
- Unfavorable in Licenses, Insurance & Fees: increased costs in IT-related Licenses and Subscriptions, higher Bank Fees, fluctuations in Insurance Premium timing, and rising cost Other Expenses.
- Favorable Employee and Temporary Services and delayed training, travel, Recruitment and other employee-related expenses.
- Favorable Building Occupancy costs, Printing/Postage/Promotion and Supplies & Other Expenses.

The Administrative Loss Ratio (ALR) is 6.6% of net revenue for the month and year-to-date.

Other Income / (Expense)

Other Income & Expense is comprised of investment income and claims interest.

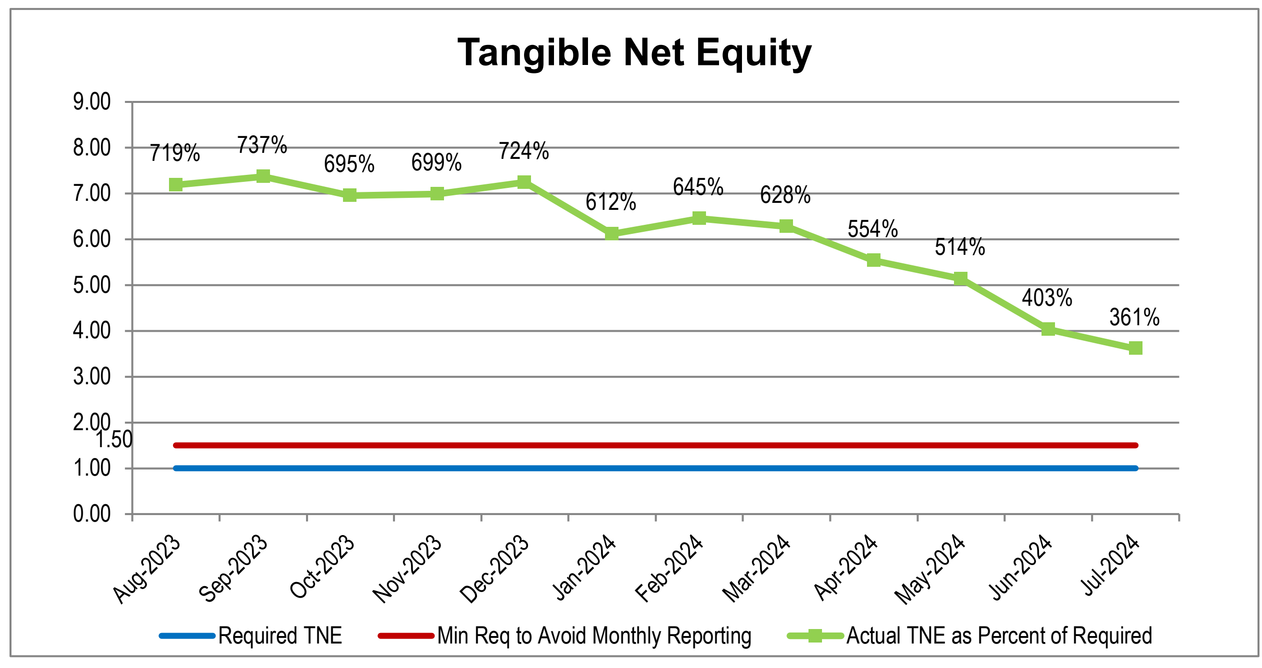
- Fiscal year-to-date net investments show a gain of $4.0 million.
- Fiscal year-to-date claims interest expense, due to delayed payment of certain claims, or recalculated interest on previously paid claims is $184,000. This account has been moved under Administrative Expenses for this month moving forward.

Managed Care Organization (MCO) Provider Tax

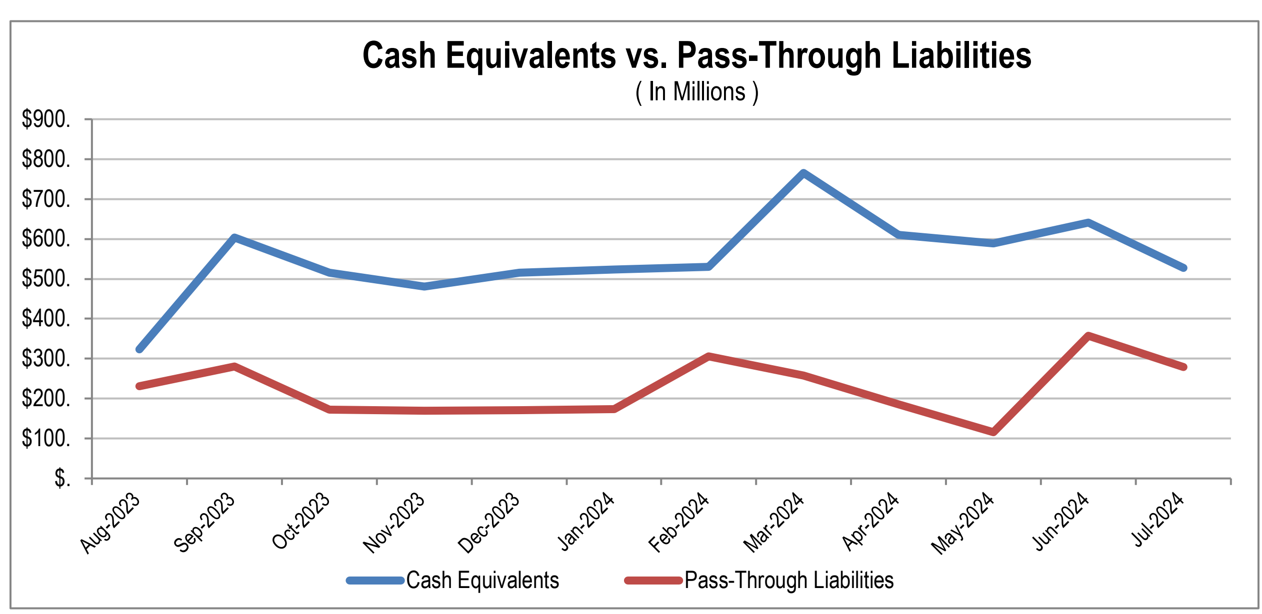
- Revenue: For the month and FYTD ended July 31st, 2024:
  - Actual: $46.9 million.
  - Budgeted: $47.0 million.
- Expense: For the month and FYTD ended July 31st, 2024:
  - Actual: $46.9 million.
  - Budgeted: $47.0 million.

Tangible Net Equity (TNE)

- The Department of Managed Health Care (DMHC) monitors the financial stability of health plans to ensure that they can meet their financial obligations to providers. TNE is a calculation of a company's total tangible assets minus a percentage of fee-for-service medical expenses. The Alliance exceeds DMHC's required TNE.
  - Required TNE $68.8 million
  - Actual TNE $248.4 million
  - Excess TNE $179.6 million
  - TNE % of Required TNE 361%



- To ensure appropriate liquidity and limit risk, the majority of Alliance financial assets are kept in short-term investments.
- Key Metrics
  - Cash & Cash Equivalents $527.2 million
  - Pass-Through Liabilities $171.4 million
  - Uncommitted Cash $355.8 million
  - Working Capital $179.8 million
  - Current Ratio 1.25 (regulatory minimum is 1.00)



Capital Investment

- Fiscal year-to-date capital assets acquired: $692,000.
- Annual capital budget: $1.7 million.
- A summary of year-to-date capital asset acquisitions is included in this monthly financial statement package.

Caveats to Financial Statements

- We continue to caveat these financial statements that, due to challenges of projecting medical expense and liabilities based on incomplete claims experience, financial results are subject to revision.
- The full set of financial statements and reports are included in the Board of Governors Report. This is a high-level summary of key components of those statements, which are unaudited.

Claims

- 12-Month Trend Summary:

    - The Claims Department received three hundred sixty-eight thousand two hundred thirty-five (368,235) claims in August 2024 compared to two hundred twenty-four thousand nine hundred seven (224,907) in August 2023.
    - The Auto Adjudication was eighty-four point six percent (84.6%) in August 2024 compared to eighty-two point six percent (82.6%) in August 2023.
    - Claims compliance for the thirty (30) day turn-around time was eighty-seven point one percent (87.1%) in August 2024 compared to ninety-three point one percent (93.1%) in August 2023. The forty-five (45) day turn-around time was ninety-nine point nine percent (99.9%) in August 2024 compared to ninety-nine point nine percent (99.9%) in August 2023.

- Monthly Analysis:

  - In the month of August, we received a total of three hundred sixty-eight thousand two hundred thirty-five (368,235) claims in the HEALTHsuite system. This represents an increase of ten point eighty-six percent (10.86%) from July 2024, and is higher, by one hundred twenty-three thousand three hundred twenty-eight (123,328) claims, than the number of claims received in August 2023.
  - The drivers of the higher volume of received claims includes:
    - The increased membership since January 2024
    - Certain provider types that bill more frequently, e.g., LTC facilities that bill weekly or bi-weekly
    - Providers with dual eligible members who are submitting paper claims even though we receive the same claim in our COBA file
  - We received ninety-one point zero percent (91.0%) of claims via EDI and nine point zero percent (9.0%) of claims via paper.
  - During the month of August, ninety-nine point eight percent (99.9%) of our claims were processed within forty-five (45) working days.
  - The Auto Adjudication rate was eighty-four point six percent (84.6%) for the month of August.

Provider Services

- 12-Month Trend Summary:

  - The Provider Services department's call volume in August 2024 was eight thousand two hundred thirty-three (8,233) calls compared to nine thousand six hundred sixty-one (9,661) calls in August 2023.
  - Provider Services continuously works to achieve first call resolution and reduction of the abandonment rates. Efforts to promote provider satisfaction is our first priority.
  - The Provider Services department completed five hundred sixty-seven (567) calls/visits during August 2024.
  - The Provider Services department answered six thousand five hundred seventy (6,570) calls for August 2024 and made eight hundred ninety-three (893) outbound calls.

Credentialing

There was no Credentialing meeting held in the month of August; therefore, no providers were approved or re-credentialed in August.

Provider Dispute Resolution

- 12-Month Trend Summary:
  - In August 2024, the Provider Dispute Resolution (PDR) team received two thousand one hundred ninety-three (2,193) PDRs versus two thousand ninety-two (2,092) in August 2023.
  - The PDR team resolved two thousand six hundred two (2,602) cases in August 2024 compared to one thousand six hundred twenty-seven (1,627) cases in August 2023.
  - In August 2024, the PDR team upheld sixty-two percent (62%) of cases versus seventy-one percent (71%) in August 2023.
  - The PDR team resolved ninety-nine point five percent (99.5%) of cases in August 2024 compared to ninety-nine point three percent (99.3%) in August 2023; the compliance standard is ninety-five percent (95%) within forty-five (45) working days.

- Monthly Analysis:
  - AAH received two thousand one hundred ninety-three (2,193) PDRs in August 2024.
  - In the month of August, two thousand six hundred two (2,602) PDRs were resolved. Out of the two thousand six hundred two (2,602) PDRs, one thousand six hundred twenty-three (1,623) were upheld and nine hundred seventy-nine (979) were overturned.
  - The overturn rate for PDRs was thirty-eight percent (38%), which did not meet our goal of twenty-five percent (25%) or less.
  - The two primary reasons that caused the Department to miss the goal of 25% or less are:
    - Member OHC corrections – one hundred eighty-eight (188) cases that were denied incorrectly.
    - Incorrect LTC/Subacute rate – two hundred thirty-seven (237) cases reviewed for updated AB1629 rates.
    - The combined volumes of these two primary reasons for overturned PDRs alone prevented us from achieving the goal of 25% or less.
    - The full breakdown of all nine hundred seventy-nine (979) overturned PDRs is included in the table below
  - Two thousand five hundred ninety-one (2,591) out of two thousand six hundred two (2,602) cases were resolved within forty-five (45) working days resulting in a ninety-nine point five percent (99.5%) compliance rate.
  - The average turnaround time for resolving PDRs in August was forty-three (43) days.
  - There were four thousand three hundred sixty-eight (4,368) PDRs pending resolution as of 08/31/2024, with no cases older than forty-five (45) working days.

Student Behavioral Health Incentive Program (SBHIP) – DHCS program commenced January 1st, 2022, and continues through December 31st, 2024

- Partner meetings continued with the Local Education Agencies (LEAs) regarding project plan activities for successful completion of the milestones
- The Alliance worked with LEAs to complete the Bi-Quarterly Report (BQR) submission for the reporting period of January – June 2024; the report was submitted to DHCS on June 27th, 2024, and we are still awaiting payment
- The Alameda County Office of Education (ACOE) is partnering with the Alliance through SBHIP to build infrastructure to sustain program activities post-SBHIP through regularly scheduled Learning Exchanges and Office Hour sessions
- To date, seven point four million dollars ($7.4M) has been awarded to the Alliance by DHCS for completed deliverables, and a total of six point six million dollars ($6.6M) has been paid to LEA and SBHIP partners

Housing and Homelessness Incentive Program (HHIP) – DHCS program commenced January 1st, 2022, and ended on December 31st, 2023

- Total earnable dollars by the Alliance under this program was forty-four million dollars ($44M)
- The Alliance received a total of thirty-eight million dollars ($38M) based on submission of deliverables and achievement of DHCS-defined metrics
  - Eighteen point six million dollars ($18.6M) has been awarded to our HHIP partners to date
- A HHIP funding opportunity was released earlier this year to SBHIP LEAs to address the challenges of students experiencing homelessness and associated behavioral health needs (i.e., anxiety, depression, etc.)
  - The Alliance received applications from ten (10) LEAs totaling one point three million dollars ($1.3M) and all submitted applications were approved; LEAs were notified of funding decisions on May 31st, 2024
  - Several MOU amendments have been fully executed and initial payments have been released

- A program to increase partnerships within the community to support HHIP goals of reducing and preventing homelessness utilizing funds earned from the S2 report was released on June 3rd, 2024, and up to ten million dollars ($10M) is available to partners through this program
    - Ten (10) applications were received totaling nineteen point nine million dollars ($19.9M) in funding requests related to capacity building, innovation, diversity and health equity, and housing stability; funding decisions will be released in September 2024

Equity and Practice Transformation (EPT) Payments Program – DHCS has implemented a one-time primary care provider practice transformation program called the Equity and Practice Transformation (EPT) Payments Program. The program is designed to advance health equity, reduce COVID-19-driven care disparities, and prepare practices to participate in alternative payment models.

- Of the fourteen (14) practices that submitted program applications, Alameda Health System was the only Alliance-associated applicant selected by DHCS to participate
- The original funding was (seven hundred million dollars ($700M) over five (5) years; however, due to state budget constraints, the funding has been reduced to one hundred forty million dollars ($140M) over three (3) years
    - One impact related to the funding reduction is that DHCS has delayed the initial program payment for practices to March 2025

Provider Recruitment Initiative (PRI) – internal Alliance program with funding up to two million dollars ($2M) in fiscal year 2024-25.

- Program launched on June 1st, 2024
- Program materials, including provider-facing program overview documents, application materials, evaluation criteria, governance structure, and policy and procedures were finalized and released in June
- Eleven (11) informational sessions were conducted to share program details with interested practices
- The application deadline was extended from August 30th to September 6th due to some last-minute interest from provider groups

- **<u>CalAIM Initiatives:</u>**
  - Community Supports (CS):
    - The following CS services are expected to launch by January 2025:
      - Sobering Centers
      - Day Habilitation Programs
      - Short-Term Post-Hospitalization Housing
      - Caregiver Respite (expansion of provider network)
      - Asthma Remediation (expansion of provider network)
    - 9 new providers have been identified for the new/expanded services
      - The healthcare services team is currently providing introductory calls to the identified providers
      - 7 providers have agreed to move forward with kick-off calls, more are expected to move forward as the introductory meetings complete

- The new providers will be meeting with AAH weekly to walk through site certification, contracting, credentialing, billing, and provider training

- Justice-Involved (JI) Initiative:
  - CalAIM Re-entry
    - Go-live date for the CalAIM Re-Entry initiative is October 1st, 2024, for all MCPs
      - Correctional facilities will have the ability to select their go-live date within a 24-month phase-in period (10/1/2024 – 9/30/2026)
      - Santa Rita Jail is targeting to go-live on 7/1/2026 with pre-release services; Juvenile Justice Center's go-live is TBD
      - Managed Care Plans (MCPs) must be prepared to coordinate with correctional facilities as of October 1st, 2024, even if facilities in their county will go-live at a later date
    - DHCS has indicated they intend to release a revised JI Policy Guide by October 1, 2024; impacts to project scope and schedule will be assessed once this is released
    - DHCS JI Learning Collaboratives initiated in August and continues through December. These collaborative sessions include correctional facilities, county behavioral health agencies, probation, managed care plans, and ECM providers
    - DHCS has announced that MCPs will be notified of individuals who are eligible for pre-release services and therefore eligible for ECM through the daily/monthly 834 file with the JI indicator starting in September 2024
      - Internal working sessions to document use cases for this JI indicator have been initiated with IT, Analytics, ECM, and other impacted departments
    - Bi-weekly workgroup meetings with Alameda County Sheriff's Office, Probation, Alameda County Behavioral Health, Social Security Administration, Kaiser Permanente and AAH continue to support collaboration on the strategy for this initiative
      - Workgroup is developing workflows and strategies to support behavioral health linkages, care plans, and the pre-release warm hand-off
    - Additional meetings will be held internally to further define the data requirements for AAH to share with external agencies in support of the JI initiatives
    - AAH meets monthly with the local Wellpath team (clinical provider within Santa Rita Jail) to continue discussions about data sharing and to learn about discharge planning
    - Alameda County Behavioral Health, Wellpath, and Alameda County Sheriff's office are creating a draft care plan for adults at Santa Rita Jail
      - Collaborative working session with ACBH, Wellpath, and ACSO to review initial draft of the care plan will occur in September
      - Youth population will have a separate care plan created by Probation. This work is anticipated to continue into July, with

partnership between Probation and Alameda County Behavioral Health

- AAH/Roots JI Pilot Project:
    - AAH's pilot for post-release services began in July 2023 in preparation for the 2024 programs related to this population
        - The analysis of the data from July 2023 through June 2024 is complete. In September, the final report will be presented to Roots and subsequently Alliance Senior Leadership to provide insights on the trends in the key data metrics identified by the project team
        - Initial data analysis has shown a disparity between the number of males vs. females seeking help upon release (roughly 10% of males vs. near 100% females). Roots is proposing an extension to the pilot period. The proposal from Roots is still under review with senior leadership as of September 4, 2024

- Community Health Worker (CHW) Benefit – Medi-Cal benefit effective July 1st, 2022, designed to promote the MCP's contractual obligations to meet DHCS broader Population Health Management standards and as adjunctive services as part of the interventions to positively impact health outcomes
    - Provider Recruitment – the Alliance is working or meeting with several organizations in order to grow the CHW network
        - Journey Health – contract fully executed
        - Pair Team – contract fully executed
        - Roots – contract fully executed
        - Alameda Health Systems – working with internal teams to create pathways for CHW emergency department services
        - Building Futures – pre-contract phase
        - East Bay Asian Local Development Corporation (EBALDC) – pre-contract phase
        - Family Resource Navigators – pre-contract phase
        - First 5 of California – pre-contract phase
        - Save DV – pre-contract phase
        - Youth Alive, West Oakland Collaborative, Alta Bates Medical – conducted CHW presentation with these groups
    - CHW Workgroup Activities:
        - APL 24-006 – DHCS released an updated CHW APL on May 13th; revised P&Ps addressing this APL's requirements were created, submitted, and approved by DHCS in August
        - Project workgroup is conducting a final audit of previously approved documentation, communications, and workflows to ensure they align with the requirements of APL 24-006
        - Project closeout will occur in September

- CYBHI Fee Schedule – Effective January 1st, 2024, the Alliance is partnering with Carelon (formerly known as Beacon) to implement the CYBHI Fee Schedule
    - Cohort 1 is intended to be a "learning" cohort

- DHCS continues holding a series of meetings with Cohort participants; these include Onboarding Sessions for the LEAs as well as Technical Office Hours each Thursday of the month
    - The meetings held have been heavily focused on the LEA process
- The Alliance will utilize Carelon as the Third Party Administrator (TPA)
- The Claims submission date has been extended from April 1, 2024 to July 1, 2024
    - It may not be true that all MCPs or LEAs have systems set up, however, LEAs may submit claims for up to 180 days from the date of service
    - Claims may be submitted retroactively back to July 1st, 2024 as long as it is submitted by end of the year
- MCPs have expressed concern over the initial TPA model and DHCS is considering two options, requesting MCP feedback
- DHCS has developed a new engagement model for the Health Plan Work Group (HPWG and will meet every week, Fridays between August and September 10-11 am
    - An email will be shared each Monday with recaps and agendas for subsequent meetings
    - High Level Timeline provided by Carelon for Claims Processing without solid Go Live Date
        - Interim ASO Model proposed
        - MOU & BAAs between Plans and Carelon not yet finalized, as well as clearinghouses
        - Program Design and Documentation not yet finalized
        - Invoice Template introduced
        - Establish electronic fund transfer with Carelon
        - Testing invoice and claims reconciliation

Integrated Planning

Supporting Documents Project Descriptions

Key projects currently in-flight:

- California Advancing and Innovating Medi-Cal (CalAIM) – program to provide targeted and coordinated care for vulnerable populations with complex health needs
  - Enhanced Care Management (ECM) – ECM will target eight (8) specific populations of vulnerable and high-risk children and adults
    - Three (3) Populations of Focus (PoF) transitioned from HHP and/or WPC on January 1st, 2022
    - Two (2) additional PoF became effective on January 1st, 2023
    - One (1) PoF became effective on July 1st, 2023
    - Two (2) PoF became effective on January 1st, 2024
  - Community Supports (CS) effective January 1st, 2022 – menu of optional services, including housing-related and flexible wraparound services, to avoid costlier alternatives to hospitalization, skilled nursing facility admission and/or discharge delays
    - As of January 1st, 2024, AAH will offer twelve (12) of the fourteen (14) DHCS-designated CS services
      - January 1st, 2022 – Six (6) Community Supports were implemented
      - July 1st, 2023 – Three (3) additional CS services went live
      - January 1st, 2024
        - Two (2) CS services that support the LTC PoFs that were effective January 2023 are being piloted in 7/1-12/31/2023 and went live in January
        - One (1) additional CS service is also targeted for implementation in July 2024
  - Justice Involved Initiative – adults and children/youth transitioning from incarceration or juvenile facilities will be enrolled into Medi-Cal upon release
    - DHCS is finalizing policy and operational requirements for MCPs to implement the CalAIM Justice-Involved Initiative
      - MCPs must be prepared to go live with ECM for the Individuals Transitioning from Incarceration as of January 1st, 2024
      - MCPs must be prepared to coordinate with correctional facilities to support reentry of members as the return to the community by October 1st, 2024
      - Correctional facilities will have two years from 10/1/2024-9/30/2026 to go live based on readiness
  - Dual Eligible Special Needs Plan (D-SNP) Implementation – All Medi-Cal MCPs will be required to operate Medicare Medi-Cal Plans (MMPs), the California-specific program name for Exclusively Aligned Enrollment Dual Eligible Special Needs Plans (EAE D-SNPs) by January 2026 in order to provide better coordination of care and improve care integration and person-centered care. Additionally, this transition will create both program and financial alignment, simplify administration and billing for providers and plans,

    and provide a more seamless experience for dual eligible beneficiaries by having one plan manage both sets of benefits for the beneficiary

- Community Health Worker Services Benefit – Community Health Worker (CHW) services became a billable Medi-Cal benefit effective July 1st, 2022. CHW services are covered as preventive services on the written recommendation of a physician or other licensed practitioner of the healing arts within their scope of practice under state law for individuals who need such services to prevent disease, disability, and other health conditions or their progression; prolong life; and promote physical and mental health and well-being
- 2024 Single Plan Model
    - 2024 Managed Care Plan Contract Operational Readiness – new MCP contract developed as part of Procurement RFP; all MCPs must adhere to new contract effective January 1st, 2024
        - Business Continuity Plan required as part of Operational Readiness
        - MOUs with third parties required as part of Operational Readiness
    - MCP Member Transition
        - Anthem members will transition to AAH effective January 1st, 2024
        - Members currently delegated to Kaiser will transition to Kaiser as part of their direct contract with DHCS effective January 1st, 2024
- CYBHI Statewide Fee Schedule – The Department of Health Care Services (DHCS), in collaboration with the Department of Managed Health Care (DMHC), has developed and a multi-payer, school-linked statewide fee schedule for outpatient mental health or substance use disorder services provided to a student 25 years of age or younger at or near a school site. CYBHI requires commercial health plans and the Medi-Cal delivery system, as applicable, to reimburse, at or above the published rates, these school-linked providers, regardless of network provider status, for services furnished to students pursuant to the fee schedule. Effective January 1st, 2024, the Alliance is partnering with the Alameda County Office of Education (ACOE) and several Local Education Agencies (LEAs) who were selected to participate in the CYBHI Fee Schedule Cohort 1.

COMMUNICATIONS & OUTREACH DEPARTMENT

ALLIANCE IN THE COMMUNITY

FY 2024-2025 | AUGUST 2024 OUTREACH REPORT

ALLIANCE IN THE COMMUNITY

FY 2024-2025 | AUGUST 2024 OUTREACH REPORT

During August 2024, the Alliance completed **1,544** member orientation outreach calls among net new members and non-utilizers and conducted **97** member orientations (**6%** member participation rate). In addition, in August 2024, the Outreach team completed **66** Alliance website inquiries, **6** service requests, **1** social media inquiry, **3** community events, and **3** member education events. The Alliance reached a total of **1,610** people and spent a total of $820 in donations, fees, and/or sponsorships at the 2024 Oakland Chinatown Chamber of Commerce (OCCC) 35th StreetFest, the 23rd Annual Laurel Street Fair & World Music Festival, Community Wellness Fair, Care Fair, and St. Mary's Garden Home.*

The Communications & Outreach Department began reporting the number of members reached during outreach activities in late February 2018. Since July 2018, **34,612** self-identified Alliance members have been reached during outreach activities.

On Monday, March 16, 2020, the Alliance began helping members by telephone only, following the statewide Shelter-in-Place (SIP) guidance to protect the general public from Coronavirus Disease (COVID-19). Subsequently, the Alliance proactively postponed all face-to-face member orientations until further notice.

On **Wednesday, March 18, 2020,** the Alliance began conducting member orientations by phone. As of Saturday, August 31, 2024, the Outreach Team completed **40,464** member orientation outreach calls and conducted **8,846** member orientations (**21.9%** member participation rate).

The Alliance Member Orientation (MO) program has been in place since August 2016. In 2019, the program was recognized as a promising practice to increase member knowledge and awareness about the Initial Health Appointment (IHA) by the Department of Health Care Services (DHCS), Managed Care Quality and Monitoring Division (MCQMD). We have steadily increased program participation. Our 2019 6-month average participation rate was **111** members per month. Between August 1, through August 31, 2024 (22 working days) – **97** members completed an MO by phone.

After completing a MO **100%** of members who completed the post-test survey in August 2024 reported knowing when to get their IHA, compared to only **26.5%** of members knowing when to get their IHA in the pre-test survey.

Compliance Audit Updates

- 2024 Department of Health Care Services (DHCS) Routine Full Medical Survey
  - The 2024 DHCS Routine Full Medical Survey began on June 17th, 2024, and ended on June 28th, 2024.To date, the Plan has received three-hundred and forty-five (345) document requests; three-hundred and thirteen (313) end-of-day requests and an additional thirty-two (32) post-audit requests. The Plan has addressed all of the additional requests. Once the preliminary report is received, the Plan will have fifteen (15) days to respond to the agency with additional information.
- 2023 Department of Health Care Services (DHCS) Focused Medical Survey
  - On September 4th, 2024, the Plan received the DHCS Focused Audit Report and CAP Request Letter for the 2023 DHCS Focused Medical Survey. The Plan has nine (9) findings: four (4) findings in Behavioral Health Services, and five (5) findings in Transportation Services (Non-Medical Transportation and Non-Emergent Medical Transportation (NMT/NEMT). The CAP response is due to the DHCS on October 4th, 2024.
- 2024 Health Services Advisory Group, Inc. (HSAG) Network Adequacy Validation Audit (NAV)
  - On March 15th, 2024, HSAG informed the Plan of its 2024 NAV Audit. The virtual NAV Audit was held on July 15th and July 17th, 2024. On August 29th, 2024, the Plan received additional requests from HSAG. The Plan submitted the response timely to HSAG on August 30th, 2024. The Plan is awaiting the preliminary report.

Compliance Activity Updates

- DMHC Medicare Filings – 2026 Medicare Launch
    - 2024 Medicare License Expansion Material Modification Filing (E-Filing *No. 20241128*): The Plan provided responses to the DMHC's remaining comments in August 2024. The Plan expects the DMHC to respond to the Plan in early October 2024 with final comments or approval.
    - 2024 D-SNP (Dual-Eligible Special Needs Plan) Material Modification Filing (E-Filing *No. 20244060*): The Plan must make a second filing to add the D-SNP product to the Plan's current license with the DMHC. Plan Senior Leadership has reviewed the documents and finalized materials for submission to the DMHC. The filing was submitted on Monday, September 9th, 2024.
- California Department of Managed Health Care (DMHC) Material Modification – 2024 RFP Readiness, Single Plan County Model Transition Submission (E-Filing No. 20234323):
    - On Tuesday August 27th, the DMHC issued an Order of Approval and Closing Letter, officially closing filing *No. 20234323*.
- 2024 Corporate Compliance Annual Training:
    - On Monday, September 9th, 2024, the Plan distributed the Annual Corporate Compliance Trainings. Annual training covers the following areas: HIPAA, FWA, and Cultural Sensitivity. Staff will have ninety (90) days to complete the assigned training, which is due on December 9th, 2024.
- 2024 Long Term Care Intermediate Care Facilities/ Intermediate Care Facility for the Developmentally Disabled (LTC-ICF/DD) Phase I Corrective Action Plan (CAP)
    - Effective January 1st, 2024, the Plan is contractually required to cover LTC-ICF/DD Services. To demonstrate its readiness to provide services at this level of care, the Plan must attempt to contract with *all* California Department of Public Health (CDPH) licensed and certified LTC-ICF/DDs within California. On July 3rd, 2024, DHCS deemed the Plan to be out of compliance with this requirement. The Plan has diligently attempted to contract with facilities outside of Alameda County and statewide and continues to report its efforts to DHCS. The Plan is required to submit CAP responses by the 1st of each month. The response for September was submitted to DHCS on August 30, 2024.

- As a part of the Corporate Internal Audit Plan, the Plan has conducted the Kaiser Behavioral Health Comparison Audit (BHCA) to identify potential areas for improvement in relation to its Commercial product line, as it relates to the following:
  - DMHC settlement agreement with Kaiser regarding Kaiser's violation of timely access and clinical standards
  - 2022 DMHC Behavioral Health Investigation Report for Alameda Alliance for Health
- During the review, Plan Internal Auditors developed sixty-nine (69) Review Criteria for evaluating the Plan. The Health Plan Audits Department examined policies, procedures, workflows, data, and other relevant documents plus met with subject matter experts to discuss the Review Criteria. Plan Internal Auditors have drafted a Preliminary Audit Report outlining their review, analysis, findings, recommended corrective actions, suggestions for improvement, and supporting resources.
- The Plan will present a summary of the Preliminary Audit Report to the Plan's senior leadership team and will then issue the Preliminary Audit Report to the Audited Departments. The BHCA remains on track for presentation at the October 2024 Meeting of the Board of Governors.

- 2022 Behavioral Health Insourcing: Material Modification
  - On March 29th, 2023, the Plan received a conditional Order of Approval from the Department of Managed Health Care (DMHC), conditioned upon the Plan's full performance of eight (8) Undertakings. Undertaking No. 6 remains outstanding. Status for Undertaking 6 is outlined below:

Undertaking No. 6		
Undertaking Deliverable	**Progress**	**Next Milestone**
"Submit an Amendment filing to demonstrate compliance with the Federal Mental Health Parity and Addiction Equity Act ("MHPAEA")	To comply with this deliverable, the Plan must demonstrate that the financial requirements and treatment limitations the Plan imposes on mental health/substance use disorder (MH/SUD) benefits are *no* more restrictive than the financial requirements and treatment limitations that it applies to medical/surgical (Med/Surg) benefits in the same classification. This is called mental health parity.	The Plan must respond to DMHC's comments by October 3rd, 2024. The Plan anticipates closing this filing within the next 60 days

(42 USC § 300 gg-26) and its regulations (45 CFR § 146.136) and Section 1374.76 of the Act.”	With support from outside counsel, the Plan is preparing response to the fifth round of comments (approximately 40 new comments). Compliance continues to coordinate with Legal, Utilization Management, Behavioral Health, Credentialing and Pharmacy subject matter experts to complete the Non-Quantitative Treatment Limitations (NQTL) Tables, update policies as applicable, and respond to the various comments.

1	UM	(1.5.1) Notice of Action (NOA) Letters The Plan did not ensure a delegate sent NOA letters to providers and members.	The Plan received the delegate's Root Cause Analysis (RCA) and CAP on 04/14/2023. After review and evaluation of the delegate's document the Plan issued a formal CAP on 05/31/2023 and received the delegate's CAP response on 06/27/2023. The initial corrective actions completed by the delegate includes updating their IT script and ensuring the identified missing NOA letters were sent out to the members and that outreach was completed to confirm that services approved or had denial modification authorizations were utilized by members. The delegate also developed workflows to detect and mitigate failures. The CAP includes the delegate's implementation of a remediation plan. The remediation plan includes updates in their workflow, training, and an internal monthly audit- with results submitted to The Alliance for review. The Plan reviewed and evaluated the delegate's CAP implementation and progress during the interim and provided guidance. The CAP was approved and closed on 09/25/2023. (Completed) The delegate is expected to continue its internal monthly audit for the NOA letters and fax confirmation. The Plan will continue to monitor the audit results for compliance. Please see document 1.5.1_AAH Response for full details. (On Track) Additionally, the Plan will review the UM delegates' P&P's to ensure that preventative, detective, and oversight measures are in place for internal NOA letter generation and fax confirmation and these will be evaluated annually at minimum. (On Track) 1a. Monitoring of the delegate's monthly internal audit is ongoing. (On Track) 2. Review the UM delegates' policies and procedures to ensure that preventative, detective, and oversight measures are in place for internal NOA letter generation and fax confirmation. (On Track) Update 3/8/2024 P&P review complete and P&P deemed adequate. Review of the delegate's P&P regarding NOAs is ongoing and The Alliance will continue to meet with the delegate to have P&P appropriately updated. **Update 4/5/2024** The delegates have submitted all requested policies for review. The policies have been reviewed and the delegates have made all necessary revisions.	**3/31/2024**	Completed	Compliance UM	State	DHCS	2023

3	BHT	(2.3.1) Behavioral Health Treatment (BHT) Plan Elements The Plan did not ensure members' BHT treatment plans contained all the required elements.	1. The Behavioral Heath team developed the attached Treatment Plan Guidelines for our ABA Providers (please see attachment). This document outlines the treatment plan elements that are listed in APL 23-010. All treatment plans and prior-authorization requests for ABA services are reviewed by Board Certified Behavior Analysts (BCBA).The guidelines were emailed to all providers and will also be available on-line for providers to access. In addition to the document, the ABA clinicians worked with the Provider communication team to send out updates/reminders to providers regarding the treatment plan guidelines. Our team is also available to meet with providers and educate them on how to apply the guidelines to their treatment plan templates. (Completed) 1a. Pending Project: We are currently developing an on-line treatment plan template/form that will be utilized by our ABA providers when completing the initial assessment and subsequent progress reports. This form includes the treatment plan elements required in APL 23-010 and providers will be required to complete this form when submitting the initial assessment/FBA and subsequent progress reports. This will ensure that all ABA providers use the same template and include the required elements in their reports/assessments. (On Track) In the interim while the project is pending, if information is missing from the Treatment Plan, the Plan will inform the provider and ask that they add the information and re-submit. Update 4/5/2024: Policy BH-004 is scheduled to be approved at April Compliance Committee. **Update 5/10/2024:** Policy BH-004 was approved at Compliance Committee on 4/10/2024. 1b. The Plan intends to conduct audits on our Treatment Review documentation to ensure that all required elements are covered in the review process in compliance with the requirements in the APL. The expected implementation date of this audit is Q1 of 2024. **Update 5/10/2024**: Q1 2024 treatment plan audits are in progress pending completion at end of March. The next audit period (Q2) will go through June. 1c. The Provider/PCP Manual is also pending updates that will include a FAQ for PCPs, provider education regarding the prior authorization process, and the referral process. This is currently under review-pending completion. **Update 5/10/2024:** Provider Manual revised and submitted to DHCS Plan Communications Department, who is reviewing proposed revisions and once completed will be made available via the provider portal	**5/10/2024**	**Completed**	Behavioral Health	State	DHCS	2023

5	Family Planning and State Supported Services	(3.6.1) Non-contracted Provider Payments The Plan did not pay non-contracted providers at the appropriate Medi-Cal fee-for-service rate.	A Change Request was entered to change non-contract mid-level providers reimbursements to 100% of the Medi-Cal rate moving forward. (Completed)	11/16/2023	Completed	Claims	State	DHCS	2023
6	Family Planning and State Supported Services	(3.6.2) Proposition 56 Family Planning Payments The Plan did not distribute add-on payments for institutional family planning service claims as required by APL 22-011.	1. P&P has been revised to ensure that Family Planning services paid on institutional claims are paid As part of Prop 56 payments. 1a. The Plan's Analytics Team is in the midst of preparing the payment details for the retro payment on the FP institutional data and looking to complete by 11/30/2023 timeline. (On Track) 2. The Analytics dept has calculated the retroactive payments due to facilities as a result of finding 3.6.2, APL 22-011 and APL 23-008. (On Track) 2a. 7	NMT & NEMT	(3.8.1) **R** Physician Certificate Statement (PCS) Forms The Plan did not ensure PCS forms were on file for members receiving NEMT services.	1.The Plan made the decision to no longer allow courtesy NEMT trips for members without a PCS form on file and the decision to insource PCS form acquisition to the Plan's Case Management Department beginning 3/1/23. Working alongside the Plan's transportation subcontractor, the Plan created new workflows to ensure the transportation subcontractor was not scheduling NEMT trips for members unless there was a confirmed valid PCS form on file, or the Plan provided a verbal authorization due to a trip being of an urgent nature. The Plan hired two transportation coordinators to focus on PCS acquisition leveraging the Plan's preexisting relationships with the provider network and access to EHR's. Through the end of 2022 and beginning of 2023, the Plan's transportation subcontractor trained its call center agents on the new workflow. On 2/14/23, the Plan trained its transportation coordinators on PCS acquisition. On 2/21/23, the Plan trained its entire case management team, that participates in phone shifts for the Plan's case management phone line, on the parameters for verbal authorizations for NEMT trips of an urgent nature. The Plan continues to report on the success of the new workflows at the Plan's UM Committee. (On Track) 1a.The Plan is working with its analytics team to create a report using PCS data elements to match up against subcontractor's report of all NEMT trips taken each month. This report will assist in finding any gaps in PCS compliance. The Plan estimates this report to go live 12/1/2023. (On Track)	12/15/2023	Completed	Case Management	State	DHCS	2023
8	NMT & NEMT	(3.8.2) Transportation Providers' Medi-Cal Enrollment Status The Plan did not ensure all transportation providers were enrolled in the Medi-Cal program.	The Plan has updated the P&P VMG-005 from reviewing the Transportation Providers (TP) on a quarterly review to a monthly review. Attached for reference is the updated P&P. The Plan began reviewing the TP monthly for the utilization from April 2023 to current. (Completed and Ongoing)	4/1/2023	Completed	Vendor Management	State	DHCS	2023

9	Member Rights	(4.1.1) **R** Grievance Acknowledgement and Resolution Letter Timeframes The Plan did not send acknowledgement and resolution letters within the required timeframes.	A grievance processing timeline was created to outline the grievance 30 calendar day process, day by day. The timeline outlines that by day 5, acknowledgement letters will be sent out. We will continue to monitor the daily aging report to ensure that acknowledgement letters are sent in a timely manner. The timeline also outlines that on Day 20, "If response is not received, after at least two follow-up attempts, task to a Medical Director in Quality Suite." Complying with this process will ensure that the Medical Director has sufficient time to reach out to the provider or facility to assist in obtaining a response. The Grievance and Appeals staff were trained on the new timeline on 8/1/2023, copies of the timeline were distributed to the department. (Completed and Ongoing)	8/1/2023	Completed	G&A	State	DHCS	2023
10	Member Rights	(4.1.2) **R** Grievance Letters in Threshold Languages The Plan did not send acknowledgement, resolution delay, and resolution letters in threshold languages.	The Plan's Grievance and Appeals Department has created a reporting mechanism in our daily aging reports to monitor what cases are still pending translation and when was the request for translation sent out, this was implemented on 4/12/2023. We have then assigned one specific team member to be responsible for following up on translation letters to ensure that they are getting the attention that they need to be completed in a timely manner. The Grievance Processing Timeline will be updated to include when a request for translation needs to be sent out and the Grievance and Appeals staff will be provided with the updated timeline and a refresher training will be conducted on 10/10/2023. (Completed and ongoing)	10/10/2023	Completed	G&A	State	DHCS	2023
11	Member Rights	(4.1.3) **R** Written Notification of Grievance Resolution Delays The Plan did not notify members of resolution delays in writing for grievances not resolved within 30 calendar days and did not resolve grievances by the estimated resolution date in the delay letters.	The Plan's Grievance and Appeals Department will be updating our system, Quality Suite, to better capture data on if and/or when a delay letter is sent out. Once the system is updated, we will be able to create a reporting mechanism in our daily aging reports to monitor for when a case needs a delay letter and if the letter was sent out. The Grievance Processing Timeline will also be updated to include the process for sending out a delay letter and the Grievance and Appeals staff will be provided with the updated timeline and a refresher training will be conducted. (Completed and Ongoing)	12/1/2023	Completed	G&A	State	DHCS	2023
12	Member Rights	(4.1.4) Grievance Delay Timeframes The Plan inappropriately utilized a 14 calendar day delay timeframe for grievance resolutions.	In review of our current policy and procedures, and workflows; they were in line with the APL requirements. There was miscommunication in the staff training to use 14 calendar days instead of an estimated resolution date in the delay letters. There was a refresher training for the Grievance and Appeals staff held on 4/18/2023, the staff was provided the requirement and were reminded to provide an estimated resolution date in the delay letters if a resolution is not reached within 30 calendar days. 17	Fraud and Abuse	(6.2) The Plan did not report preliminary investigations of all suspected cases of fraud and abuse to DHCS within 10 working days of the Plan receiving notification of the incident.	The Plan has created an interdepartmental team working in collaboration to develop a reporting process for timely submissions of possible HIPAA and FWA incidents to Compliance. Six points of entry for possible incidents have been identified. The team is utilizing technological improvements as well as developing staff training to be able to identify a possible incident for immediate reporting to compliance. At the initiation of the Reporting Process Enhancement, the FWA Specialist will conduct training designed for each department identified as a point of entry. 1	UM	The Plan failed to timely implement the requirements of Sections 1374.72 and 1374.721 (SB 855)	The Alliance reviews and/or updates all policy and procedures at least annually, to ensure our policy and procedures content is reflective of current regulatory requirements. All UM policy and procedures including any updates and the UM Program Description, are reviewed in the Utilization Management Committee (UMC), subsequently reviewed, and approved at our Board Delegated Quality Improvement Health Equity Committee (QIHEC) which reports directly to the Alliance Board of Governors. In response and in compliance with SB 855, The Alliance has updated UM-063 - Gender Affirmation Surgery and Transgender Services and the Alliance UM Program Description. Both bodies of work are aligned with current WPATH Standards of Care. The Alliance is contracted with WPATH to provide training on WPATH Standards of Care - all UM decision makers (including RNs and physicians) are required to complete WPATH training to ensure the most current WPATH standards required by SB 855 are used for medical necessity decision-making. 100% of current UM reviewers will complete WPATH Training by Q2 2024 & 100% of newly hired UM reviewers will complete WPATH Training within 90-days of their start date The Alliance also conducts annual Inter-Rater Reliability Studies (IRR) with all UM decision makers to ensure that documented criteria is being applied consistently and accurately by decision makers. Additional training and testing is conducted when a passing score is not met. 1	Claims Payment Accuracy	The Department's examination disclosed that the RBO failed to reimburse one paid claim correctly due to a systematic error. The claims system failed to classify the provider as a contracted provider. The claim was paid incorrectly at the non-contracted rate, which was less than the contracted rate. The RBO represented to the Department that this deficiency was due to a contract amendment, effective February 1, 2021, that was not updated in their claims system. This deficiency was noted in paid claims sample number P-18.	Delegate updated claims system to accurately reflect all providers listed on the provider roster as contracted with the effective date of 2/1/2021 to align with the contract amendment. A claims sweep was completed with a lookback to 2/1/2021. All claims previously paid noncontracted were reprocessed as contract and have been paid with any accrued interest and/or penalties associate with each claim reprocessed on 10/12/2022. Evidence of the complete claims audit sweep associated with members was sent to The Alliance on 1/19/2023 via secure email. Draft policy was created to ensure provider contracts and rosters are appropriately loaded within delegate's claims system. Draft policy will be presented to the delegate's Compliance Committee on 3/29/2023 for review and approval. Update 4/14/2023: The delegate's Compliance Committee rescheduled to 4/26/2023. The updated policy will be approved at that time. Update 5/12/2023: The delegate approved the policy at their Compliance Committee	5/12/2023	Completed	Claims Compliance		State	DMHC	2022
2	Claims Payment Accuracy	The Department's examination disclosed that the RBO failed to reimburse two high dollar claims correctly due to a systematic error. The contracted provider was not paid per contract for laboratory procedures. The RBO stated the laboratory procedures were based on an old boiler plate and should not have been included in the contract. The contract was amended on 9/1/2022. This deficiency was noted in high dollar claims sample numbers HD-18 and HD-24	There were no Alliance members impacted by this deficiency. Effective 10/12/2022 all claims were reprocessed and paid.	10/12/2022	Completed	Claims Compliance		State	DMHC	2022
3	Incorrect Claim Denials	The Department's examination disclosed that the RBO failed to reimburse one denied claim correctly due to a systematic error. The RBO incorrectly denied claims for podiatric and chiropractic services at federally qualified health centers and rural health clinics. The denial reason instructed the provider to bill "Medi-Cal EDS" when it should have been paid. This deficiency was noted in denied claims sample number D-29.	There were no Alliance members impacted by this deficiency. Effective 10/12/2022 all claims were reprocessed and paid.	10/12/2022	Completed	Claims Compliance		State	DMHC	2022

1	Claims Payment Accuracy	The Department's examination disclosed that one of 30 high dollar claims were not reimbursed correctly. The claims billed with Current Procedural Terminology (CPT) codes 93005 were underpaid. This deficiency was noted in high dollar claim sample number 28.	The RBO is reprocessing all claims with code 93005 underpaid from January 2021 to present and will upload corrected explanations of benefits upon completion. Corrected explanations of benefits showing additional payment (plus interest and penalty where applicable) as well as the requested report and policies will be submitted to DMHC on or before 1/30/2023.	1/30/2023	Completed	Claims Compliance		State	DMHC	2022
2	Misdirected Claims	The Department's examination disclosed that five out of 40 denied claims were not forwarded. This deficiency was noted in the following denied claims sample numbers: 3, 6, 20, 34, and 37. This deficiency was also noted in the high dollar claim sample numbers: 3, 5, 9, 10, and 25.	There is a system limitation (i.e. mapping issue) where some of the claims (837I encounters) are not being forwarded through our claims processing system. Because of this issue, 837I claims are not being forwarded to health plans. 837I misdirected claims are denied as health plan responsibility and providers are notified via weekly explanations of benefits. The mapping issue was discovered Q1 2022 and tests began at that time with health plans and clearinghouses. 837P files continue to be submitted successfully. The delegate is working with IT to upgrade the server so that updates provided by our software vendors can be implemented for the mapping issue to be resolved. The expected compliance date will be on or before 2/28/2023. 1/26/2023: server updates completed, system updates happening this week. 1/27/2023: system consultant met with the software vendor and their development team to identify and resolve issues so that system updates can happen successfully. 1/30/2023: all system updates completed successfully on test environment	1/30/2023	Completed	Claims Compliance		State	DMHC	2022
3	Reimbursement of Claims Overpayments	The Department's examination disclosed that the RBO failed to send a written request for overpayment reimbursement to the provider. This deficiency was noted in the following late claim sample numbers: 16, 32, and 35.	Examiner error. When the claims examiner reprocessed these claims, the overpayment was reversed instead of a refund request letter being sent to the provider. Compliance met September 27, 2022 when the claims examiner was reminded in a verbal meeting of the above rule as well as the Delegate's internal policy on overpayments. Also, there is a report run prior to the weekly check run to ensure compliance. Because the overpayment was reversed in the adjusted claims, a refund request was not sent for the original claims.	1/30/2023	Completed	Claims Compliance		State	DMHC	2022

1	Provider Dispute Resolutions	The Department's examination disclosed that the Plan failed to timely acknowledge receipt of 12 out of 71 provider disputes reviewed.	1. Policies and procedures, including internal claims audit procedures, implemented to ensure provider disputes are acknowledged timely. Update 2/13/2023: Policy updated and will be approved at Committee 3/25/2023 2. Staff training completed January 2023 and created a audit workflow effective 01/01/2023. 3. A daily audit will be conducted before the 15th due date to assure all cases are acknowledged timely.	2/24/2023	Completed	Claims		State	DMHC	2022
2	Claims	The Department's examination disclosed that, due to systemic issues, claims were not reimbursed accurately, including interest and penalties.	CORRECTIVE ACTION TAKEN DURING EXAMINATION The Plan submitted evidence on October 28, 2022, that the Plan reprocessed and paid claims previously paid incorrectly. This correction and remediation resulted in the additional payment of $5,742.29, plus interest of $7,675.43, on 742 claims. In addition, the Plan submitted evidence on October 28, 2022, that the Plan reprocessed and paid claims previously denied incorrectly. This correction and remediation resulted in the additional payment of $64,718.77, plus interest of $6,002.98, on 750 claims. The Plan corrected the deficiencies noted above and completed the required remediation during the course of the examination; therefore, no additional response is required.	10/28/2022	Completed	Claims		State	DMHC	2022
3	Changes in Plan Personnel	**R** The Department's examination disclosed that the Plan did not timely file changes in plan personnel.	1. The Plan revised its Desktop Procedure to define the Key Personnel as "Persons holding official positions that are responsible for the conduct of the Plan including but not limited to all Senior Leadership, all members of the BOG and other principal officers." The Desktop Procedure further clarifies the activities that will constitute an official personnel change event for Senior Leadership versus Board of Governors members. Finally, the Desktop Procedure was revised reflect that Key Personnel Change filings must be submitted within five (5) calendar days. 2. We have taken steps to improve the communication with the internal stakeholders to ensure personnel change events are routed to the Regulatory Affairs and Compliance team in a timely manner. The Board Clerk is responsible to immediately notify the Compliance Department of any Board Member changes. To ensure no updates are missed, each month the Compliance Specialist will email the Board Clerk and the Human Resources Department to confirm whether the BOG or SLT has experienced any personnel changes. The Compliance Specialist also maintains a log of Key Personnel Changes. Furthermore, once a personnel change event is anticipated, the Compliance Specialist immediately begins an electronic file and begins preparation of the necessary documents for submission.	1/13/2023	Completed	Compliance		State	DMHC	2022
4	Fidelity Bond	The Department's examination disclosed that the Plan's fidelity bond did not have a provision for 30 days' notice to the Department prior to cancellation.	Immediately after receiving the DMHC's audit request, The Alliance finance staff requested its insurance broker to work with the insurer in adding the requested provision. Before the DMHC's audit exit conference, such requested provision was provided to the DMHC auditor, and the auditor expressed that the supplied document was satisfactory. 3	Provider Relations	**R** (1.5.1) The Plan did not ensure that its subcontractors submitted complete ownership and control disclosure information.	1. The Alliance has made updates to its Provider Services Standard Operating Procedure (SOP) – Ownership and Control Disclosure Reviews for Delegates. This includes an additional layer of review from the Alliance Compliance Department when ownership and control forms are received from delegates. The SOP and tracking sheet has been updated. 2. The findings specifically mentioned two (2) forms: • The delegate who provided the Alliance with the email confirming that the form they submitted to the Alliance is the same form that it files with DHCS. According to the delegate, DHCS confirmed acknowledgement of the form with no additional feedback. • Another delegate who does not have a sole owner and provided a list of their leadership team with the FEIN for each of the clinics. The Alliance will notify the impacted delegates of the findings to receive forms that meet requirements by DHCS. 3. The Alliance will collect the new forms starting Q1 2023 Update 03/10/2023: Delegate has submitted an updated form and delegate is currently working toward completion of the form for submission to the Plan. Provider Services and Compliance will review to validate all fields are complete once all forms are received. 5	CM	**R** (2.5.1) The Plan's MOU with the county MHP did not include the responsibility for the review of disputes between the Plan and the MHP.	1. The Alliance has made several updates to the MOU and incorporated APL 18-015, as well as APL 21-013 Dispute Resolution Process Between Mental Health Plans and Medi-Cal Managed Care Health Plans. The Alliance has had a series of meetings with the MHP to review redline changes to the MOU. The MHP is currently under review of the redline changes and will notify the Alliance when they can move forward with signing the MOU. The MHP MOU vetting process includes County Board of Supervisor (BOS) approval. Therefore, the Alliance is hoping to execute the MOU by the end of 2022.	12/31/2023	Completed	Provider Relations		State	DHCS	2022
6	Provider Relations	**R** (3.1.1) The Plan did not monitor the network providers' compliance with requirements for when appointments were extended.	1. The Provider Manual was edited to update the requirements, providers were advised in the Quarterly Provider Packet, and The Alliance Provider Representatives advised providers during PCP visits. Additionally, fax blasts were sent to providers regarding the updated requirements, and the Provider Education document was updated to reflect the requirements. 2. Edit P&P and Quality of Access Workflow to ensure all cases are reviewed by a QI Nurse. If a case is determined to be related to access, QI / A&A staff will review data for ED / Inpatient Stays as a result of delay in appointment. If the member does have an ED / IP Claim, the QI RN will then work the case up as a PQI / Quality of Care. This will be reviewed by the Medical Director and follow the PQI process. Finally, all QOA cases with available MRs will be reviewed to ensure the appropriate provider documentation. 1	Grievances & Appeals	When the Plan has notice of a case requiring expedited review, the Plan does not immediately inform complainants of their right to contact the Department.	The Plan updated the process to state when a call is received by the Member Services Department and it is categorized as a potential expedite, the call is transferred to the Grievance & Appeals Department queue and the Clerk will provide the member with their DMHC rights.	5/3/2022	Completed	G&A		State	DMHC	2021
2	Grievances & Appeals	The Plan's online grievance submission procedure is not accessible through a hyperlink clearly identified as "GRIEVANCE FORM," does not allow a member to preview and edit the form before submission, and does not include the required disclosure.	The Plan has worked with our internal Information Technology (IT) Department to have the updates made to the website to include the GRIEVANCE FORM hyperlink, the edit/preview functionality and to update the disclosure statement. Exhibit 2A_Preview_Edit_Disclosure shows the updates on the testing site. Regarding the disclosure statement, the Plan identified an outdated version of the statement. The Plan has updated the disclosure statement so that it is in alignment with the verbiage from Knox-Keene (see attached Exhibit 2B_Knox-Keene).	8/11/2022	Completed	G&A		State	DMHC	2021
3	Grievances & Appeals	The Plan does not correctly display the statement required by Section 1368.02(b) in all required enrollee communications.	The Plan identified an outdated version of the statement. The Plan has updated the disclosure statement so that it is in alignment with the verbiage from Knox-Keene (see attached Exhibit 3A_Knox-Keene). Exhibit 3F will apply to both the appeals and grievance letters. The Plan's UM materials were likewise updated to reflect compliance with the verbiage. Revised Your Rights attachments for NOAs and NARs were implemented in TruCare on 1/18/2022. Update 7/9/2021: Delegate has provided evidence that the revised policy was approved on 6/23/2021 c. Train its staff on the new Concurrent review process. Update 7/9/2021: Delegate states they are developing the training for their staff and are on track to provide the documents to The Alliance. Update 9/10/2021: Staff training completed, training documents provided. d. Provide evidence of the training, including the training materials and the attendance records. Update 9/10/2021: Delegate provided attestations to show training completed 6/23/2021 3. The Plan will audit the Delegate on a quarterly basis to ensure that the process is implemented, starting at the end of Q3 2021, and report the results of the audit at the Plan's UM Committee on a quarterly basis. Update 10/8/2021: Q3 2021 audit completed 9/29/2021, and initial audit results provided to the Delegate; final audit report will be issued to the Delegate by 10/13/2021. Update 11/12/2021: The next quarterly audit is scheduled for 12/17/2021. Update 04/08/2022: The next quarterly audit is scheduled to be completed in May 2022 4. At annual Delegate oversight audits, concurrent reviews and letters will be examined to ensure compliance. Update 11/12/2021: The next annual Delegation Oversight Audit is scheduled for February 2022. Concurrent reviews and letters will be reviewed at that time. Update 04/08/2022: The next quarterly audit is scheduled to be completed in May 2022. Update 5/13/2022: The delegate does not have any cases that meet the criteria for audit for Q1 2022. DHCS advised The Alliance they consider the findings of this audit closed as of 4/19/2022. Update 07/08/2022: The Alliance is currently in the process of quarterly delegate audit. Update 09/09/2022: The quarterly delegate audit is in progress and is expected to be completed by October 2022. Update 10/14/2022: The quarterly delegate audit has been completed, there were no findings. This audit will be closed and the findings noted by DHCS will continue to be reviewed during the annual audit.	9/23/2022	Completed	UM		State	DHCS	2020	In Progress

1	Grievances & Appeals	The Plan failed to accurately and consistently identify grievances received by telephone. Coverage Dispute issues were processed as an exempt grievance and not a standard grievance as required.	The G&A current procedures appropriately process coverage disputes as a standard grievance. Member Services will provide a refresher staff training of the procedures by 3/31/2020 to ensure coverage disputes are processed appropriately. Update as of 4/10/2020 Refresher training for benefits coverage disputes was completed on 3/12/2020.	3/12/2020	Completed	Member Services/ G&A	✓	State	DMHC	2020	Completed
2	Grievances & Appeals	The Plan does not consistently provide immediate notification to complainants of their right to contact the Department regarding expedited appeals.	G&A staff training was conducted to review regulations on 1/30/2020. G&A application was updated to include a new log type for expedited DMHC rights notification that was implemented on 2/6/2020.	2/6/2020	Completed	G&A	✓	State	DMHC	2020	Completed
3	UM	The Plan does not include the statement required by Section 1363.5(c) when disclosing medical necessity criteria for UM decisions.	Cover sheet being created in the TruCare system for all requests by providers for clinical criteria used to adjudicate requests. Creation of tracking log, workflow and training to be completed by 3/31/2020. 4	Access to Emergency Services	The Plan does not provide all non-contracting hospitals in the state with Plan contact information needed to request authorization of post-stabilization care. DMHC expects the onus to be on the Plan to reach out to the hospitals and notices should be mailed at least annually.	The Plan is working with the Hospital Association to assist in sending out the notices to non-contracted hospitals. Update as of 6/12/2020: Notices were mailed to non-contracted hospital providers on May 26.	5/31/2020	Completed	Provider Relations	✓	State	DMHC	2020	Completed
5	Access & Availability	The Plan failed to adequately review and address access issues as part of its quality assurance (QA) program.	The QI Team and Member Services team perform an annual training to ensure that the appropriate process is followed. The Alliance is working on additional training to ensure the appropriate referral of PQIs. All access-related exempt grievances are compiled in a track and trend report and referred to Quality Improvement via the Access and Availability Sub-Committee	4/30/2020	Completed	Quality Management	✓	State	DMHC	2020	Completed

1	Payment Accuracy	Three out of 50 late paid claims (a compliance rate of 94 percent). This deficiency was caused by the Plan using the incorrect date to calculate interest on improperly denied and reprocessed claims. Three out of 30 high dollar claims. The deficiency was caused by the Plan not paying interest on a claim improperly denied for missing authorization when the independent practice association (IPA) authorized services but did not forward the authorization to the Plan, and underpaying claims due to processor error.	Late Claims – processing errors identified in this finding are attributable to human error by one specific individual. The incorrect handling was addressed verbally with the employee at the time of the audit. Refresher training on CLM-001 Claims Processing, CLM-003 Emergency Services Claims Processing and Claims Change Alert Clean Claim Interest Workflow was completed on March 13, 2020 to ensure that all staff who handles adjustments are using the appropriate received date for adjusted claims. Update 5/1/2020: At the Department's request, the Plan created a report to identify claims where the incorrect received date was used on an adjusted claim. The report was provided to the Department on 4/21/2020. The identified claims have been adjusted and the report has been updated to add the check date, check # and the amount of interest and penalties paid. Current policies and procedures do not require changes and meet compliance requirements. High Dollar Claims – processing errors identified in this finding are attributable to human error. Refresher training on CLM-001 Claims Processing and Claims Change Alert - Clean Claim Interest Workflow was completed on 3/13/2020 to ensure that all staff who handles adjustments are using the appropriate received date for adjusted claims.	4/29/2020	Completed	Claims	✓	State	DMHC	2019	Completed
2	Incorrect Claim Denials	Claims were improperly denied and should have been paid in three out of 50 denied claims (a compliance rate of 94 percent). The deficiency was caused by the Plan not re-processing retro enrollment, incorrectly denying a claim as duplicate and a system configuration issue that incorrectly denied claims as not the financial responsibility of the Plan.	Retro Eligibility Denial – The Plan's Claims management is working with its Information Technology/Analytics Department to create a retroactive eligibility report to identify claims that were denied correctly at the time of processing, but may be impacted due to the retroactive reinstatement of eligibility. Once the report is completed, the Plan will make sure to adjudicate any claims found to be improperly denied since 5/29/2018, and provide evidence that the claims were adjudicated appropriately. Update 5/1/2020: Report was put into production on 5/1/2020 and will be run weekly. Claims is working with IT to identify impacted claims from 5/29/2018-9/30/2019 and will adjust impacted claims and provide the final spreadsheet to the Department by 5/15/2020. Division Of Financial Responsibility (DOFR) Denial - this issue was identified as a configuration error for one specific service, and corrected in October 2019 prior to the audit. Update 5/1/2020: At the Department's request, the Plan created a report to identify claims where the service had been denied incorrectly. The report was provided to the Department on 4/21/2020. The identified claims are being adjusted and should be complete by 5/15/2020. The report will then be updated to add the check date, check # and the amount of interest paid. Duplicate Denial - duplicate claims refresher training on HS-004 Duplicate Claims was completed on 3/13/2020 for all staff that handles adjustments. Due to the unique cause of this non-system related error, a remediation report cannot be run.	~~4/15/2020~~ 5/15/2020	Completed	Claims	✓	State	DMHC	2019	Completed
3	Clear & Accurate Denial Explanation	Plan provided an incorrect denial explanation in three out of 50 denied claims (a compliance rate of 94 percent).	The Plan reviewed the deficient cases and found that the three denial errors identified in the audit were related to Division of Financial Responsibility (DOFR) issues. The Plan will review the services where there are DOFR conflicts, come to agreement with the delegates, and make any required configuration changes to the system. Update 5/1/2020: System changes for the delegate were completed and put into production on 4/16/2020. The claims were originally denied correctly as the responsibility of another delegate but contained an additional incorrect message that they were forwarded to delegate. These claims do not need to be re-adjudicated and re-denied again. Due to the Coronavirus Pandemic, meetings with delegate have been put on hold. The Plan has updated the system to correct the configuration with out of area office visits that was identified during the audit. At the Department's request, the Plan created a report to identify claims where these services had been denied incorrectly. The report was provided to the Department on 4/21/2020. The identified claims are being adjusted and should be complete by 5/15/2020. The report will then be updated to add the check date, check # and the amount of interest paid.	~~6/30/2020~~ 5/15/2020	Completed	Claims	✓	State	DMHC	2019	Completed

4	Change in Plan Personnel	Plan shall within five days, file an amendment when there are changes in personnel of the plan. Plan did not file the Board of Governors changes for three members.	The Plan has updated its internal procedures to ensure key personnel requirements are met. The Plan implemented a monthly quality check capturing any changes with the Plan's Board of Governor member seats. The Plan's Compliance team staff completed updated training for key personnel filing procedures on March 30, 2020. As of 3/31/2020, the Plan has also completed updates to the filings for three Board members as requested: Member 1: DMHC Filing #20201241 Member 2: DMHC Filing #20200184/#20201243 Member 3: DMHC Filing #20200644	4/1/2020	Completed	Compliance	✓	State	DMHC	2019	Completed
5	Control over Mailroom Claims Processing	Plan does not have sufficient control over its mailroom claims processing as the mailroom staff does not stamp the date of receipt on paper claims. In addition, the Plan's mailroom staff does not count the number of claims sent to vendors for further processing, impeding the Plan's ability to reconcile the number of claims received and processed.	The Plan has an established process for receiving claims in its onsite mailroom for capturing receipt dates. The Plan performs quality checks for reconciliations of claims count scanned and received to ensure all claims are captured for processing. The Plan has daily logs of professional and facility claims received and scanned. The logs have the original claim count, the claim count successfully scanned, the rejected claim count and the merged claim count. The Plan utilizes the daily log counts to perform reconciliation when the files are received and loaded. Included with the CAP response is the weekly reconciliation sample report and sample logs of claims as evidence of this quality internal control process for counting the number of claims.	4/1/2020	Completed	Support Services/ Claims	✓	State	DMHC	2019	Completed

1	UM Delegation	The Plan did not ensure a delegate complied with all contractual and regulatory requirements. The delegate required PA for an initial visit with a mental health provider to determine if the member had mild-to-moderate mental health issues, which the contract does not allow.	The Alliance scheduled a meeting with the delegate to discuss the findings and will put a corrective action plan in place. Update as of 12/5/2019: The delegate has revised policy, and submitted to The Alliance for review. The Alliance will review and discuss changes with the delegate on the next Operations call. Update as of 1/8/2020: Plan reviewed documents and agree with the changes for member self-referral process. Discussing with DHCS prior to final CAP submission. 2	UM Delegation	The Plan did not ensure a delegate complied with all contractual and regulatory requirements. The delegate required a two-step prior authorization (PA) process for BHT services, which is allowed, but did not send written notification when it denied services at the first step. The delegate did not consistently apply criteria for approving BHT.	The Alliance scheduled a meeting with the delegate to discuss the findings and will put a corrective action plan in place. Update as of 12/5/2019: The delegate has revised policy, and submitted to The Alliance for review. The Alliance will review and discuss changes with the delegate on the next Operations call. Update as of 1/8/2020: Plan reviewed documents and still have open items not documented. Plan will be meeting with the delegate to discuss criteria and procedures for further documentation needed. Update as of 2/7/2020: Met with the delegate to review their criteria and approval process. Requested policy language changes to meet the regulatory requirements. 6	Referral Tracking process	The Plan did not track all approved PAs; the specialty referral tracking process did not include modified PAs and in-network approved services.	The UM Department is working with analytics to expand the routine referral tracking report to include all approved authorizations. Update as of 12/5/19: Clarity is being sought from DHCS on the scope of specialty referral tracking. Update as of 1/8/20: An updated referral tracking report is being developed to include all decision types and specialty services that require authorization. Update as of 2/7/20. Updated report sample generated and submitted to DHCS. Working with Analytics to create routine report that captures all needed data elements. Update as of 3/5/2020 UM met with Analytics to create the routine report capturing all needed elements. Report is in development. Update as of 5/8/20 Specialty Tracking Report has been created by Analytics, including all required elements, and will now be routinely reported quarterly through UMC and HCQC. Reported at HCQC on 5/21/20. Update as of 6/12/20: Report sent to HCQC on 5/21/20 and reviewed at UMC at 5/29/20.	Yes	5/21/2020	Completed	Utilization Management	✓	State	DHCS	2019	Completed
7	Prior Authorizations	A review of PA data showed non-qualified Plan staff denied retrospective cases for administrative reasons other than non-eligibility for membership. The Plan denied retrospective service requests without review by a medical director if the provider submitted the request more than 30 days after the service delivery date, or if requests did not meet Plan-imposed conditions. The Plan's contract did not specify submission timeframes or other conditions that, if not met, allowed eliminating medical necessity review of retrospective requests for covered services.	Policy and procedure UM-001 Utilization Management will be updated to comply with the contractual requirements. Workflows will be updated to have all retrospective requests reviewed by a medical director. Workflows have been updated to have all retrospective requests reviewed by a medical director. Update as of 12/5/2019: Clarity is being sought from DHCS on allowing a time limit of 30 days. Update as of 1/8/2020: Plan received clarity from DHCS and is updating internal procedures. Update as of 2/7/2020: P&Ps updated to reflect that only an MD can deny retro PA requests. P&Ps approved at HCQC on 1/16/2020.	Yes	1/16/2020	Completed	Utilization Management	✓	State	DHCS	2019	Completed
8	Prior Authorizations	(1.2.2) The Plan did not ensure it used appropriate processes to review and approve medically necessary covered services when it did not ensure that qualified medical personnel rendered medical decisions. Dependent practitioners reviewed, assessed and approved requests for continued hospital stays	The process for ensuring LVNs perform only within their scope of practice was updated and implemented on 10/2/2019. Additional changes to the UM systems to better track the change in process are being developed. Update as of 12/5/2019: Changes to the UM systems to better track the RN oversight role with the LVNs completed. Other Managed Medi-Cal plans have LVNs performing UM. Clarity is being sought from DHCS on the use of LVNs in UM. Policies and procedures and job descriptions are being reviewed to be aligned with the updated oversight process. Update as of 1/8/2020: Plan received clarity from DHCS and updated procedures for RN oversight.	No	1/8/2020	Completed	Utilization Management	✓	State	DHCS	2019	Completed
9	Prior Authorizations (UM and Rx)	The Plan's notice of action (NOA) letters did not follow specifications in Health and Safety Code Section 1367.01. Provider letters in medical cases did not include the decision makers' direct phone number or contained the incorrect number. Letters did not explain the reasons for the denial. Pharmacy NOAs were not concise.	Accurate phone numbers for the decision makers are on the NOA, monitoring will be conducted through internal audits. UM NOA template letters were updated and implemented on 11/4/2019, internal auditing will be conducted monthly to ensure that the letters are clear and concise and explain the reasons for denial. Pharmacy NOA template letters were updated and implemented in April 2019, internal auditing will be conducted at least monthly to ensure that the letters are clear and concise and explain the reasons for denial. 12	Case Management & Care Coordination - HRAs	The Plan did not follow the specified timeframes required for completion of the HRAs for newly enrolled SPD members. The Plan did not ensure that HRAs were completed within 45 calendar days of enrollment for those identified by the risk stratification mechanism as higher risk, and within 105 calendar days of enrollment for those identified as lower risk.	HRA tracking had been implemented in early 2019, and continues at present. HRAs are sent out within the required timeframes. Robo calls are made to low risk members to encourage them to complete and send in the HRA within the timeframe. Direct calls are made by CM staff on high risk members to encourage them to complete and send in the HRA within the timeframe. A tracking log is kept to ensure that the required timelines are met. 16	Emerg Family Planning Claims/SSS	The Plan paid non-contracted family planning services at less than the Medi-Cal Fee-For-Service rate. The Plan's claim system misclassified non-contracted family services as non-billable. The Plan is required to pay all covered family planning services regardless if these services are contracted with the Plan.	This finding is specific to one provider based on the list of services identified in the contract. No other provider was impacted by this issue. The claims system has been re-configured to reimburse services as follows: * services listed in the provider contract will be reimbursed at the contracted rate * covered Medi-Cal services not listed in the contract will be reimbursed at 100% of the prevailing Medi-Cal rate	No	9/5/2019	Completed	Claims	✓	State	DHCS	2019	Completed
17	Emerge Family Planning Claims	The Plan did not inform members of the correct minor consent provision for family planning services in its Evidence of Coverage (EOC). #	Category	Deficiency	Corrective Action Plan (CAP)	Completion Date	Internal CAP Status	Department Responsible	Validation Status	State/Self Identified	Agency	Year	Status
1	Utilization Management (UM) Program	1.1.1 The Plan did not continuously update and improve its UM program during the audit period.	The Plan's policy and procedure UM-001 includes the annual review process of the UM program. The 2018 UM program was approved by Committee timely this year on 3/20/2018. The Plan will continue to update its UM program annually and track for a timely approval by Committee.	3/31/2018	Completed	Utilization Management	✓	State	DHCS	2018	Completed
2	Prior Authorizations	1.2.1 The Plan did not conduct IRR testing to evaluate the consistency of UM criteria application during the audit period.	The Plan has implemented an IRR testing policy and procedure to ensure clinical staff is evaluated on an annual basis to ensure consistency in decision making and criteria application. - UM/Appeals IRR conducted on 5/25/2018 - Pharmacy IRR conducted on 12/17/2018 Update as of 1/31/2019: IRR testing for Health Care Services (Pharmacy & UM) has been completed as of 1/31/2019.	12/17/2018	Completed	Utilization Management/ Pharmacy	✓	State	DHCS	2018	Completed
3	Prior Authorizations	1.2.2 The Plan did not use appropriate processes to determine medical necessity for PA requests. The Plan's UM staff used outdated criteria and criteria that did not meet the case details.	The Plan has updated its policy and procedure to ensure the Plan's criteria is reviewed at least annually. IRR testing of clinical staff is completed annually to ensure consistency in decision making and criteria application. - UM/Appeals IRR conducted on 5/25/2018 - Pharmacy IRR conducted on 12/17/2018 Update as of 1/31/2019: IRR testing for Health Care Services (Pharmacy & UM) has been completed as of 1/31/2019.	12/17/2018	Completed	Utilization Management	✓	State	DHCS	2018	Completed
4	Prior Authorizations	1.2.3 The Plan denied retrospective service requests for medical services without documentation of a qualified health care professional's review for medical necessity.	The Plan updated its policy and procedure for the retrospective authorization request process to include details of the review process. The P&P and workflow will be reviewed and approved on 1/17/2019. Staff training will then be conducted on 1/22/2019. Update as of 1/31/2019: Updated P&P and workflow retro authorization request processes were approved at HCQC on 1/17/2019. 5	Prior Authorizations	1.2.4 The Plan did not respond to pharmacy requests within 24 hours or one business day.	The Plan monitors pharmacy authorization request timeframes by a daily aging report. Staff training of the turnaround timeframe requirements was provided on 10/02/2018. Update as of 1/07/2019: The Plan has determined that timeframe requirements were not consistently met due to a lack of coverage on weekends and holidays. The Plan has updated its Pharmacy Benefit Management contract to include coverage for weekends and holidays as of 12/1/2018. Staff training of the updated procedures will be completed by 1/22/2019. Update as of 1/31/2019: Staff training was completed on 1/23/2019.	1/22/2019	Completed	Pharmacy	✓	State	DHCS	2018	Completed
6	Prior Authorizations	1.2.5 The Plan's NOA letters were not clear and concise, or at sixth grade reading level.	Update as of 3/5/2019: Continuing internal audits revealed issues with how TruCare generates letters, leading to potentially confusing language for members. A team is working on a plan to mitigate the issues. Once the TruCare issues are resolved, staff will be retrained on the mitigation procedures. In the meantime, audits continue to ensure that the language is clear and concise and a process for final review before sending out is being developed. The updated timeline for completion is 4/30/2019. Update as of 4/10/2019: Denial rationale language has been updated. Staff training was completed on 3/29/2019.	4/30/2019	Completed	Utilization Management/ Pharmacy		State	DHCS	2018	Completed
7	Prior Authorizations	1.2.6 The Plan provided incorrect appeal, grievance, and state fair hearing information in translated pharmacy member notifications. The translated "Your Rights" attachments did not follow the required format.	The Plan will update its pharmacy member notifications to ensure the translated versions are in the required format with updated member rights information by 1/25/2019. Update as of 2/4/2019: Updated translated versions of the "Your Rights" attachments have been provided to the Pharmacy Benefits Manager. Utilization Management: Inpatient

- Total inpatient auth volume had a slight decrease from July to August after the slight increase from June to July.

- After an increase in average LOS from 5.5 in May to 5.8 in June, there was a significant decrease in average LOS in July to 5.2. This corresponded with a decrease in days per thousand, conversely a slight increase in admits per thousand .

- IP Auth TAT compliance continues to surpass benchmark, with overall TAT of 99% in July.

- IP UM is receiving ADT feed for Authorization automation from Alameda Health System's, Alta Bates Summit Medical Center, Eden Hospital, Washington Hospital, and St Rose. IP UM team has, in working with IT, automated the auth request process for these hospitals. This has reduced the administrative burden on the hospital provider side while facilitating real time communication on member admissions. The team continues to pursue ADT feeds at Stanford and UCSF, and is working with IT to increase SNF ADT feeds.

- IP UM team continues to identify members eligible for care management services who are currently admitted to a hospital, conducts inpatient discharge risk assessment, provides the name of Care Manager for inclusion in the discharge summary, and refers to Case Management department for follow up. The TCS process continues to be refined to ensure all members with care transitions receive the correct level of support.

- IP UM continues weekly hospital rounds with tertiary care centers UCSF and Stanford, as well as contracted hospital providers; Alameda Health System, Sutter, Kindred LTACH, Kentfield LTACH, and Washington, to review members' current active admissions discuss UM issues, address discharge barriers, and refer to Case Management programs including Complex, offer support in terms of ECM, Community Supports services, and other opportunities for supporting throughput and appropriate discharge.

- Month to Month, the admissions, days and readmissions are decreasing. From May to July the admissions decreased by 62.07%, the days decreased by 69.83% and the readmissions also decreased by 34.21%. Some of this could be due to a lag in claims data being available, but we are seeing a decrease, overall.

- LTC Staff continue to participate in SNF collaboratives around the county to ensure that our facility partners are updated with the processes and program enhancements.
- Having virtual rounds with AHS and Eden LTC facilities to coordinate on complex cases
- Social Workers continue visiting LTC facilities in person, on monthly and quarterly basis depending on census to assist with discharge planning and access to other resources.
- Continue referrals to TCS and other internal/external programs to provide wraparound supports to members preparing to discharge from an LTC custodial facility.
- The team continues to work closely with the facilities to assist in getting all long-term member AID Codes updated to reflect their long-term care status
- Authorization volume had a decrease in August by 11.94%, compared to July 2024.
- Authorization processing turn-around time (TAT) continues to meet benchmark.

Behavioral Health Treatment (BHT)

- Children and youth referred for BHT services including Applied Behavioral Analysis (ABA) and Comprehensive Diagnostic Evaluations (CDE) require Care Coordination to access the services they need. The Alliance manages each child's unique needs and follows up with parents and caregivers to resolve barriers to care.

- Pharmacy has been collaborating with UM, C&O and Provider Services team to notify impacted stakeholders regarding an update to the list of Physician Administered Drugs that require prior authorization. This change is effective 9/23/24.

Case and Disease Management

- The CM team continues to assist the high volume of all members needing Transitional Care Services (TCS) as they transition from one level of care to another. This includes member transitions where the Alliance is not the payor of the transition (such as Medi-Medi members).

- The CM team continues to collaborate with clinic partners to ensure the TCS requirements are met, including but not limited to scheduling and ensuring follow-up appointments for members, informing members of CM services, notifying appropriate individuals of TCS services (hospital discharge planners, members, caregivers, support teams, etc).

- CM is collaborating with UM and LTC to work on members with long lengths of hospital stays in hopes of successful and safe discharges and referrals as appropriate. (Referrals include Community Supports, ECM and other community resources, as needed.)

- CM is responsible for acquiring Physician Certification Statement (PCS) forms before Non-Emergency Medical Transportation (NEMT) trips to better align with DHCS requirements for members who need that higher level of transportation (former completed by Transportation broker, Modivcare). CM continues to educate the provider network, including hospital discharge planners, and dialysis centers about PCS form requirements.

Enhanced Case Management

- All Populations of Focus have been live since January 1, 2024.

- The Alliance is continuing to meet with Roots regarding the Justice Involved (JI) Pilot. The Alliance is gaining a better understanding of how members previously incarcerated are assisted post-release, including member interest in any level of case management service.

- In partnership with other county entities (Probation, JCC, Santa Rita, ACBH), the Alliance is working closely with the internal Behavioral Health (BH) team to prepare for BH linkages 10/1/24 for members transitioning out of incarceration.
- The ECM team continues to build rapport with the ECM providers, meeting at a minumum twice a month: once to discuss specific cases and once to discuss operational issues.
- AAH continues to collaborate with Alameda County (AC) Health to discuss Street Medicine alignment. The ECM team is continuing to work closely with the Street Team providers to make sure encounters are submitted and billed appropriately.

- ECM staff are participating in DHCS Foster Care Youth Transition Stakeholder meetings, to prepare for the mandatory transition of Foster Care Youth on 1/1/2025. DHCS released draft guidance for Continuity of Care for the Foster Care Youth Transition, and the team is reviewing to provide feedback.

- The ECM team is preparing for further network expansion, focusing on two Populations of Focus: Adults at Risk for LTC Institutionalization and Members Transitioning from Incarceration. The Alliance is planning for a go-live date of 1/1/25. Conversations have begun with the potential new providers to discuss further contracting, credentialling and certification.

Community Supports (CS)

- AAH CS team is working on notifying members that are receiving services from non-contracted providers, that they need to start transitioning to in-network providers as their Continuity of Care comes to an end.

- The team is currently re-evaluating authorization processes to improve operational efficiencies while minimizing provider administrative burden.

- CS services are focused on offering services or settings that are medically appropriate and cost-effective alternatives. The Alliance offers the following community supports:
    - Housing Navigation
    - Housing Deposits
    - Tenancy Sustaining Services
    - Medical Respite
    - Medically Tailored/Supportive Meals
    - Asthma Remediation
    - (Caregiver) Respite Services
    - Personal Care & Homemaker Services
    - Environmental Accessibility Adaptations (Home Modifications)
    - Nursing Facility Transition/Diversion to Assisted Living Facilities
    - Community Transition Services/Nursing Facility Transition to a Home
    - Sobering Centers *(Model of Care submitted to DHCS for Jan 2025 launch)*
    - Short term Post Hospitalization Housing *(Model of Care submitted to DHCS for Jan 2025 launch)*
    - Day Habilitation *(Model of Care submitted to DHCS for Jan 2025 launch)*

- AAH CS staff continue to meet regularly with each CS provider to work through logistical issues as they arise, including referral management, claims payment and member throughput.

- AAH is on target to meet the DHCS closed loop referral requirements by 1/1/25. DHCS released new language only requiring Community Supports and ECM will be required to go live with closed loop referrals 1/1/25. AAH is working with FindHelp to address challenges faced with current onboarding. Leadership is preparing for an alternative if FindHelp is unable to meet AAH needs.

- The CS leadership team in process of reviewing Provider Entity Interest Forms and meeting with possible providers for the below CS services:
  - Short-Term Post-Hospitalization Housing
  - Day Habilitation Program

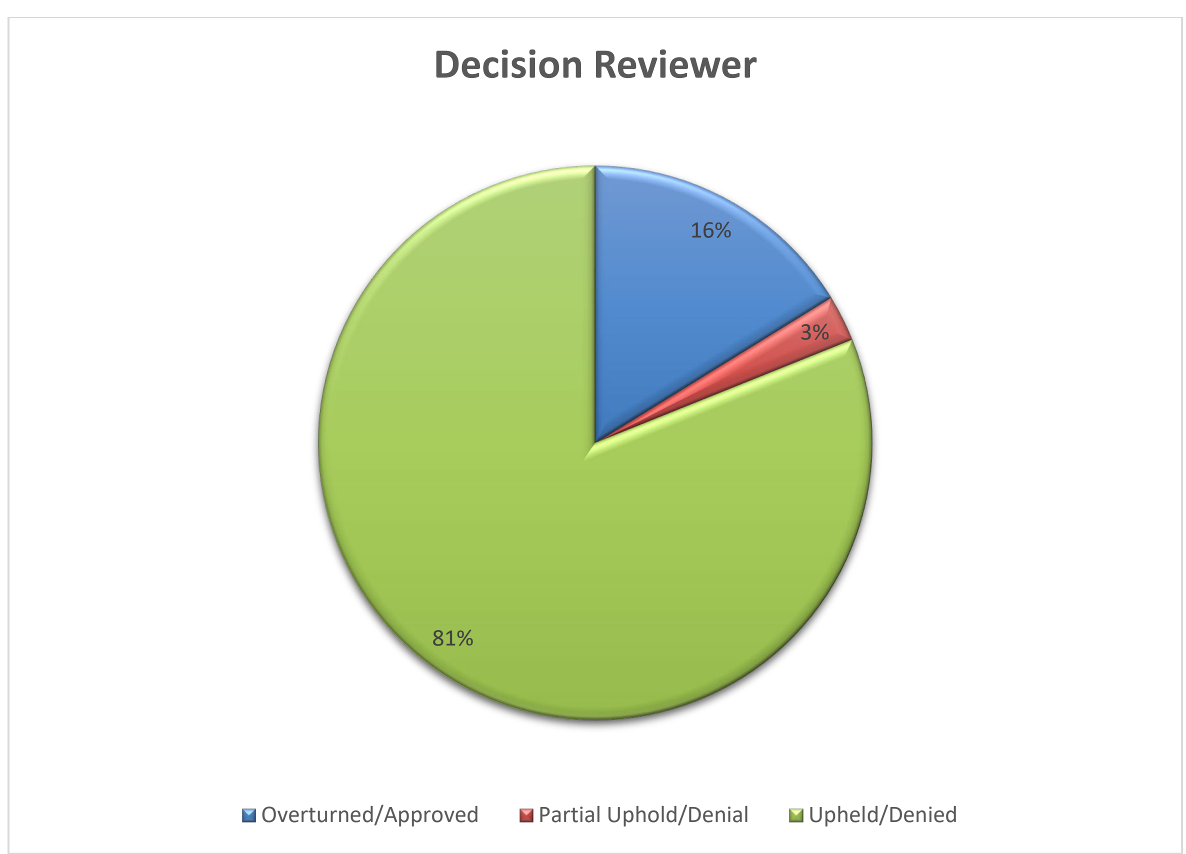
Appeals:

The Alliance's goal is to have an overturn rate of less than 25%, for the reporting period of August 2024, we did meet our goal at a 16% overturn rate.



- **16** out of 37 (16%) cases were overturned for the month of August 2024:
  - (4) Disputes Involving Medical Necessity
  - (1) Coverage Disputes
  - (1) Out of Network

Quality

- Quality Improvement continues to track and trend PQI Turn-Around-Time (TAT) compliance. Our goal is closure of PQI cases within 120 days from receipt to resolution via nurse investigation and procurement of medical records and/or provider responses followed by final MD review when applicable.

- Quality of Access issues are reviewed by the Access & Availability team and Quality of Language issues by the Cultural & Linguistics Services team after they are triaged by the QI Clinical team. Quality of Care and Service issues are reviewed by the QI RN Reviewers. Final leveling for Quality of Care cases is determined by the Sr Medical Director of Quality after RN review is completed. Weekly meetings are scheduled for the purpose of Quality of Care case review with the Sr Medical Director.

- 0.26% in July and 0 cases in August were still open past the 120-day TAT. Therefore, turnaround times for case review and closure remain well within the benchmark of 95% per PQI P&P QI-104 for this lookback period.

- When cases are open for >120 days, the reason continues to be primarily due to delay in receipt of medical records and/or provider responses. As part of the escalation process of obtaining medical records and/or responses, efforts are made to identify barriers with specific providers to find ways to better collaborate to achieve resolution.

- Total number of PQIs including all categories increased by 50 from July to August. TATs are closely monitored on a weekly basis to ensure timely closure of cases within the standard 95%.

- The chart above provides a summary of the 2023 Managed Care Accountability (MCAS) measures held to the minimum performance level (MPL). Out of the 18 measures that Alameda Alliance was accountable for against the MPL/50th percentile, 15 measures achieved or exceeded the goal. Three measures fell below the MPL but showed improvement over MY2022.

- Several factors contributed to the increase in rates, including provider education through webinar offerings, 1:1 meetings with providers/delegates, and tools to gain knowledge of MCAS measure specifications and best practice sharing. Additionally, internal staffing improvements allowed for more coordination of member outreach and incentive programs. Data sharing, expansion of medical record retrieval, and other coverage exclusions also helped the Alliance achieve MCAS goals.

- While we met goals for most MCAS measures, three measures fell below the MPL: Follow-up After Emergency Department Visit for Mental Illness (FUM) – 30 days, Lead Screening in Children (LSC), and Topical Fluoride for Children (TFL). Barriers we encountered include data sharing challenges between the County and Plan for the FUM measure, challenges with DHCS payment for TFL, and member reluctance to complete lab measures for LSC.

- To address these shortcomings, the Quality Department has undertaken several quality improvement initiatives aimed at increasing rates for measures currently below the MPL. These efforts include working closely with the County to overcome data sharing challenges, integrating the use of Community Health Workers (CHWs) to conduct follow-up for members in the ED for mental illness, providing financial support for providers to obtain Point of Care Testing for in-clinic lead testing, offering provider incentive payments for in-clinic fluoride application, and conducting a deeper dive into the TFL data to check for accuracy. We are encouraged that these additional activities will improve the three measures and help us meet or exceed the MPL.

Internal Collaboration

- **Meetings and check-ins with Division Chiefs Update** –

    a) The Alliance division chiefs meet 1x1 monthly to update on Health Equity (HE) and Diversity, Equity, and Inclusion (DEI) activities.

- **Population Health Management (PHM), Quality Improvement (QI), and Utilization Management (UM) Collaboration Update** –

    a) PHM works with Elevated Diversity to ensure the new design of the DEI Training meets APL 23–025.
    b) Regular workgroup meetings with PHM & QI to ensure the alignment of QI metrics and Health Equity.

External Collaboration

- **Bi-weekly meetings with Local Health Plans' Chief Health Equity Officers (CHEOs) Update –**

    a) Ongoing discussions regarding the DEI Training Curriculum and other Health Equity related issues.

- **Monthly Meetings with DHCS' Chief Health Equity Officer (DHCS CHEO) Update –**

    a) DHCS CHEO and MCPs CHEOs met to collaborate on Health Equity and DEI initiatives.
    b) The meeting consisted of DHCS and CHEO Updates and a CAC APL Presentation.

- **LA Care –**

    a) APL DEI Request, Technical Guidance/Needs & Recommendations
    b) Met with the local Health plans to discuss requests and recommendations to be made by the DHCS regarding APL23–025.

- **Local Initiatives DEI Training Monthly Collaborative Meeting –**

  a) The meeting consisted of requesting if there had been any feedback from the DHCS.
  b) An update was given on the Health Industry Collaboration Effort (HICE).

- **Quality & Health Equity Think Tank (DHCS) – Summer**

  a) Reviewed and revised Charter for FY2024/2925
  b) Deep Dive into Managed Care Advancing Quality & Equity
  c) The next meeting is scheduled for October.

Advancing Health Equity Initiative (AHEI)

- **Alliance HE Strategic Roadmap Update –**

  a) Conducted Alliance Strategic Roadmap planning sessions, with work focused on developing a strategic roadmap.
  b) A plan is in progress to present to CHEO.

- **DEI Training Curriculum (APL 23–025) Updates –**

  DEI Curriculum Development –

  a) Developed (3) storyboards and the production for the following e-learning modules:

     - Health Equity: Version – Staff/Vendor
     - Health Equity: Version – Provider
     - Cultural Competency: Version – Staff/Vendor
     - Cultural Competency: Version – Provider
     - DEIB: Version – Staff/Vendor

  b) All Modules are slated for delivery at the end of September.

  - **DEI Training Curriculum Timeline –**

     - October - Final draft,
     - Mid-October - Submission to DHCS for approval.
     - Mid-November - California Cardiovascular Consultants was selected for the provider pilot training process.
     - January 2025 – Launch pilot training process.
     - April – June, completion of pilot training and launch all training to all providers and downstream networks.

- **Communications Update –**

    a) The curriculum training attestation form is in the branding process.
    b) A video communication from the CHEO introducing the DEI Training Curriculum is being completed in September.

- **Community Engagement Strategy –**

    a) Community Engagement is a cornerstone of achieving health equity. We are developing a strategic and intentional Community Engagement plan to increase our engagement and visibility within the communities we serve by partnering with CBOs, provider partners, faith-based organizations, and other trusted institutions.
    b) The goal is to build collective solutions for our collective problem, which is health inequity. The engagement will help us build a comprehensive network of resources, build relationships with our members, and better serve their needs.
    c) Expected launch date: January 2025.

Diversity, Equity, Inclusion, and Belonging Committee (DEIBC) and Values in Action Committee (VIAC)

- **DEIB Committee Update –**

    a) The DEIB Committee met on August 2nd and discussed DEI-focused input from the employee survey.
    b) The Committee discussed ways the VIA and DEIB Committee could celebrate holidays at the Alliance.

- **VIA Committee Update –**

    a) The VIA Committee met on August 19th and formed a sub-committee in charge of celebrating holidays and cultural celebrations and commemorating important health awareness dates throughout the year. The goal is to increase awareness, promote employee engagement, and celebrate the diversity among our staff members within the Alliance.
    b) It was decided that each month at the All-Staff Meeting, the committee would make a PPT of Celebrations for that month.

Subject: Information Technology Report

Call Center System Availability

- AAH phone systems and call center applications performed at 100% availability during the month of August 2024 despite supporting 97% of staff working remotely.

Encounter Data

- In the month of August 2024, the Alliance submitted 179 encounter files to the Department of Health Care Services (DHCS) with a total of 348,646 encounters.

Enrollment

- The Medi-Cal Enrollment file for the month of August 2024 was received and loaded to HEALTHsuite.

HealthSuite

- The Alliance received 368,235 claims in the month of August 2024.

- A total of 304,304 claims were finalized during the month of July, out of which 257,555 claims auto adjudicated. This sets the auto-adjudication rate for this period to 84.6%.

- HEALTHsuite application was upgraded to the latest version of 24.01.01 on August 3rd.

- HEALTHsuite application encountered an outage for 24 minutes on 7th of August. This sets the uptime to 99.77% for the application.

TruCare

- A total of 20,084 authorizations were loaded and processed in the TruCare application.

- TruCare Application Uptime – 99.99%.

IT Security Program

- IT Security 3.0 initiative is one of the Alliance's top priorities for fiscal year 2024. Our goal is to continue to elevate and further improve our security posture, ensure that our network perimeter is secure from threats and vulnerabilities, and to improve and strengthen our security policies and procedures.

    - **Key initiatives include:**

        - Implement actionable items from the Azure Governance best-practices and recommendations document.
        - Remediating issues from security assessments. (e.g., Cyber, Microsoft Office 365, & Azure Cloud).
        - Continue to create, update, and implement policies and procedures to operationalize and maintain security level after remediation.

- The Annual Security Penetration testing report has been delivered by our vendor and the project team is currently prioritizing the critical items from the report which will be addressed immediately.

- Microsoft Intune deployment kicked off in July.

    - **Microsoft Intune** is a cloud-based service that focuses on mobile device management (MDM) and mobile application management (MAM). It will allow the Alliance to manage and secure access to corporate information on mobile devices, while also protecting the Alliance's data. With Intune, the Alliance can manage devices and apps, protect data, and ensure compliance with your organization's policies.

    - The engineering team have completed the foundational technical configurations and are now focused on user testing and documentation.

    - Email communications to all staff have been sent to start the campaign and inform the organization of what to expect.

    - Successfully completed 60+ deployments on Microsoft InTune to our Alpha testers which is 10% of our user population and looking to reach 20%.

    - Successfully deployed the following prerequisites:

        - Cisco Umbrella to 99% workstations

Data Retention Project (Phase 1)

- One of the Alliance major goals for fiscal year 2024 is to complete the first phase of the implementation of an enterprise Data Retention program that will focus on structured data.

- This program will guarantee the practice of storing and managing data and records for a designated period, to ensure that data is discoverable, cataloged, classified and easily accessible.

- Project kick-off meeting and resource onboarding has been completed. Weekly project meeting sessions have been scheduled and are ongoing.

- Project scope adjustment is in progress to focus on systems/applications data sources that meet the 10-year retention period.
  - Project team identified 2 data sources that meet the criteria.
  - On-prem scanner configuration with BigID is in progress
  - Continued internal database deep dive discussions are in progress.

Member Cost Analysis

The Member Cost Analysis below is based on the following 12 month rolling periods:

Current reporting period: June 2023 – May 2024 dates of service
Prior reporting period: June 2022 – May 2023 dates of service
(Note: Data excludes Kaiser membership data.)

- For the Current reporting period, the top 8.6% of members account for 88.0% of total costs.

- In comparison, the Prior reporting period was slightly higher at 9.9% of members accounting for 83.6% of total costs.

- Characteristics of the top utilizing population remained fairly consistent between the reporting periods:

    - The SPD (non duals) and ACA OE categories of aid decreased to account for 54.4% of the members, with SPDs accounting for 21.7% and ACA OE's at 32.7%.
    - The percent of members with costs >= $30K slightly decreased from 2.4% to 2.3%.
    - Of those members with costs >= $100K, the percentage of total members has slightly increased to 0.6%.
        - For these members, non-trauma/pregnancy inpatient costs continue to comprise the majority of costs, decreasing to 33.5%.
    - Demographics for member city and gender for members with costs >= $30K follow the same distribution as the overall Alliance population.
    - However, the age distribution of the top 8.6% is more concentrated in the 45-66 year old category (37.3%) compared to the overall population (20.8%).
