

# ALAMEDA ALLIANCE FOR HEALTH GROUP CARE MEDICATION FORMULARY

August 2024

## Overview

At Alameda Alliance for Health (Alliance), we are here to help you. As your partner in health, we have put together this **Alliance Group Care Medication Formulary** that contains a complete list of covered and preferred outpatient prescription medications for Alliance Group Care members. The Alliance reviews the list at least four (4) times a year and updates the formulary on a monthly basis as needed.

This printable list may not reflect the latest updates. The formulary is subject to change and all previous versions of the formulary are no longer in effect. For the most up-to-date Medication Formulary, or to print the most current list, please visit the Alliance website at [www.alamedaalliance.org/members/pharmacy-and-medication-benefits/medication-formulary](http://www.alamedaalliance.org/members/pharmacy-and-medication-benefits/medication-formulary).

To view the Alliance Group Care Member Handbook also known as the Combined Evidence of Coverage (EOC) and Disclosure Form, please visit the Alliance website at [www.alamedaalliance.org/members/group-care/benefits-and-covered-services](http://www.alamedaalliance.org/members/group-care/benefits-and-covered-services).

If you have any questions, please call:

## How to Use the Medication Formulary

To find a medication on the Medication Formulary, first search for what the medication will treat. All medications will be listed by their generic and brand names in their therapeutic category, class, and in alphabetical order.

Any medication not found in this list is a non-formulary medication. If a generic equivalent for a brand-name drug is not available or is not covered, the medication will not be separately listed by its generic name. This Medication Formulary applies only to outpatient medication prescribed to Alliance members. It does not apply to medication used in inpatient settings.

## Description of Coverage

The Alliance covers outpatient prescription drugs, devices, and Food and Drug Administration (FDA)-approved products for preventative, contraceptive, and diabetes care through our retail and/or specialty pharmacies.

**Please Note:** Some of the products used with medically necessary drugs include needles and syringes, inhaler spacers, and diabetic testing supplies (e.g. test strips, lancets, and pens).

The Alliance covers various FDA-approved prescription contraceptives (e.g. oral contraceptives, emergency contraceptives, rings, patches, cervical caps, and diaphragms).

If a covered contraceptive drug/device is unavailable or not medically recommended by your provider, you can ask your doctor to submit the Prescription Drug Prior Authorization (PA) Form for a non-covered contraceptive/device as prescribed.

The Alliance also covers folic acid supplements that can be used for pregnant women and tobacco cessation drugs/products.

## Words to Know

**Brand Name Medication** – A medication that is marketed under a proprietary, trademark-protected name.

**Generic Medication** – The same medication as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic medication is listed in bold and italicized lowercase letters in the medication formulary.

**Generic Substitutions** – The health plan has a mandatory generic program. This program promotes the use of generic over brand-name options, when medically appropriate. When your prescribing doctor writes you a prescription for a brand-name medication, they must submit a Prescription Drug Prior Authorization (PA) Request Form. The health plan will review the request and will inform the doctor of the decision within **one (1) business day**.

**Please Note:** Formulary drugs are in a categorical list that reflects the following:

1. A drug is listed alphabetically by its brand and generic names in the therapeutic category and class to which it belongs.
2. The generic name of a brand-name drug is included after the brand name in parenthesis.
3. If the generic equivalent for a brand-name drug is available, and both the brand name and generic equivalents are covered, the generic drug will be listed separately from the brand-name drug.
4. In the event a generic drug is marketed under a proprietary, trademark-protected brand name, the brand name will be listed in all CAPITAL letters after the generic name in parentheses and in a regular typeface with the first letter of each word capitalized.

**Co-Insurance** – A percentage of the cost of a covered health care benefit that an enrollee pays after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription medication benefit.

**Copayment** – A fixed dollar amount that an enrollee pays for a covered health care benefit after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription medication benefit.

**Deductible** – The amount an enrollee pays for covered health care benefits before the enrollee's health plan begins payment for all or part of the cost of the health care benefit under the terms of the policy.

**Enrollee** – A person enrolled in a health plan who is entitled to receive services from the plan. All references to enrollees in this formulary template shall also include subscribers as defined in this section below.

**Exception Request** – A request for coverage of a prescription medication. If an enrollee, their designee, or prescribing doctor submits an exception request for coverage of a prescription medication. The health plan must cover the prescription medication when it is determined to be medically necessary to treat the enrollee's condition.

**Exigent Circumstances** – When an enrollee is suffering from a health condition that may seriously jeopardize the enrollee's life, health or ability to regain maximum function, or when an enrollee is undergoing a current course of treatment using a non-formulary medication.

**Intravenous Solutions of Other Unlisted Medication** – Dispensing following inpatient discharge from an acute care hospital, when IV therapy with the same medication was started before discharge. Quantity and day supply limitations may apply.

**Please Note:** Non-compounded products must be billed using the product's National Drug Code (NDC) number. Compounded solutions must be billed as a compound claim.

**Intravenous Solutions of Unlisted Antibiotics** – Dispensing following inpatient discharge from an acute care hospital, when IV therapy with the same antibiotic was started before discharge. Quantity and day supply limitations may apply.

**Please Note:** Non-compounded products must be billed using the product's National Drug Code (NDC) number. Compounded solutions must be billed as a compound claim.

**Medication Coverage Requirements or Limits** – A health plan may request an omission, deviation or substitution of the stated definitions to the Medical Director for review and approval. There are some processes and limits that may apply to medications in the formulary.

Reviews may be marked with a code as seen on the list below:

CODE	MEANING	DEFINITION
DY	Day	A type of duration
EA	Each	Items used separately
GM	Gram	A mass unit of measurement
INH	Inhaler	Medication formulation type
MAX	Maximum	The largest amount possible
MIN	Minimum	The smallest needed amount
ML	Milliliter	A liquid unit of measurement
PA	Prior authorization	Requires specific request process
QL	Quantity limit	Coverage may be limited to specific quantities per prescription and/or time period
QTY	Quantity	An amount of a given product
SP	Specialty products	Products that may need particular care
ST	Step therapy	Coverage may depend on previous use of another drug
T1	Tier 1	Formulary generic drugs
T2	Tier 2	Formulary brand drugs

**Medication Tier** – A group of prescription medication that correspond to a specified cost sharing tier in the health plan’s prescription medication coverage. The tier in which a prescription medication is placed determines the enrollee’s portion of the cost.

**Out-of-Pocket Cost** – Copayments, coinsurance, and the applicable deductible, plus all costs for health care services that are not covered by the health plan.

**Please Note:** Types of tiers on the Alliance formulary include – Tier 1 (generic medications) and Tier 2 (brand medications). Tier 1 medications have a \$10 copayment for a **30-day** supply and Tier 2 medications have a \$15 copayment for a 30-day supply. The Alliance has a mandatory generic medication program that promotes the use of generic over brand-name options.

**Non-Formulary Medications** – A medication not listed on the health plan’s medication formulary.

These medications are reserved for members who:

- Have used (or cannot/should not use) up to **three (3)** formulary alternatives that are used to treat the documented diagnosis; OR
- Meet off-label criteria; OR
- Have tried and failed or are unable to use separate components (or therapeutic equivalents) of a combination medication or are unable to use a consolidated dose form.

Each outpatient prescription request will be reviewed via a prior authorization (PA) exception request within **24** (for urgent requests) to **72 hours** (for non-urgent requests) from the time received. Coverage determination documents will be sent to the enrollee (or their designee) and the enrollee’s prescribing provider within this time based on urgent or non-urgent status. Coverage determination documents will include information on appeal rights, procedures, and duration of coverage. If the plan fails to respond to a completed prior authorization exception request within **24** (for urgent requests) to **72 hours** (for non-urgent requests), then the request will be approved.

**Please Note:** Non-formulary medication will also be covered when determined to be medically necessary (e.g., once reviewed with a PA request). The enrollee may file a grievance, appeal, or complaint for a denial of coverage (this information is in the coverage determination documents in the appeal rights and procedures).

**Duration of Coverage** – When a formulary exception request is approved, there is an approval window that limits the length of time an authorization can be used (e.g., for the duration of the prescription, including refills). Coverage determination documents with this information are sent to the enrollee or their designee and the enrollee’s prescribing provider.

**Prescribing Provider (doctor)** – A health care provider authorized to write a prescription to treat a medical condition for an enrollee.

**Prescription** – An oral, written, or electronic order by a prescribing doctor for a specific enrollee (and requires prescription under applicable law) that contains the name of the prescription medication, the quantity, the route of administration, directions for use, the date of issue, the name and contact information of the prescribing doctor and their signature, if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the medication is being prescribed. Other requirements may apply depending on the request.

**Please Note:** The presence of a prescription medication on the formulary does not guarantee the enrollee will be prescribed that prescription medication by their prescribing doctor for a particular medication condition.

**Prescription Medication** – A medication that is prescribed by the enrollee’s prescribing doctor and requires a prescription under applicable law.

**Prior Authorization (PA)** – The health plan requires that the enrollee or the enrollee’s prescribing provider obtain the health plan’s authorization for a prescription medication before the health plan will cover the medication. The health plan shall grant a prior authorization (PA), when medically necessary.

**Prior Authorization (PA) Exception Process** – The prescribing doctor may submit a Prescription Drug Prior Authorization (PA) Request to request a medication that is not on the Medication Formulary or has restrictions. Restrictions may occur when the quantity of medication prescribed is more than the plan allows or if a medication has Step Therapy (ST) requirements. A Medication Review Guideline (also known as criteria) has been developed for these medications and will be referenced upon receipt of the doctor’s request. The health plan will review the request and will inform the prescribing provider of the decision within **24** (for urgent requests) to **72 hours** (for non-urgent requests) from the time received. If the plan fails to respond to a completed prior authorization request within **24** (for urgent requests) to **72 hours** (for non-urgent requests), then the request will be approved.

**Quantity Limits (QL)** – For certain medications, the health plan has a limit on the number of pills that can be covered. In general, a **30-day** supply is covered. If you require a medication that exceeds the limit, the prescribing doctor can submit a Prescription Drug Prior Authorization (PA) Request. The health plan will review the request and will inform the prescribing provider of the decision within **24** (for urgent requests) to **72 hours** (for non-urgent requests) from the time received.

**Step Therapy (ST) Exception Process** – In some cases, the health plan may require you to try a certain medication before a different medication is covered. The prescribing provider can request an exception by submitting a Prescription Drug Prior Authorization (PA) Request. The health plan will review the request and will inform the prescribing provider of the decision within **24** (for urgent requests) to **72 hours** (for non-urgent requests) from the time received. If the plan fails to respond to a completed step therapy exception request within **24** (for urgent requests) to **72 hours** (for non-urgent requests), then the request will be approved.

**Please Note:** The Alliance reviews the list at least four (4) times a year, and will update the formulary with any changes on a monthly basis. The types of formulary changes may relate to quantity limits and step therapy requirements.

**Subscriber** – The person who is responsible for payment to the health plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

**Therapeutic Interchange** – The health plan may use Therapeutic Interchange to promote rational pharmaceutical therapy when evidence suggests that outcomes can be improved by substituting a medication that is therapeutically equivalent but chemically different from the prescribed medication.

Therapeutic Interchange protocols are never automatic; a dispensing provider may not substitute a therapeutically equivalent alternative medication for the prescribed medication without the knowledge and authorization of the prescribing doctor.

**Previously Plan Approved Medications** – If the plan has previously approved drug coverage for an enrollee condition that a provider continues to appropriately prescribe in a safe and effective manner, then the plan will not limit or exclude continued coverage.

## Authorization and Billing Instructions

Providers can supply in-office injectable medication to Alliance members by purchasing directly from suppliers/manufacturers (commonly known as buy and bill) or Diplomat Specialty Pharmacy (Diplomat).

The authorization and billing processes differ based on the method of obtaining the medication and the member’s delegate:

METHOD OF PROCUREMENT	DELEGATE	REQUIRES AUTHORIZATION	WHERE TO SUBMIT THE AUTHORIZATION	WHOM TO BILL
PerformSpecialty (Pharmacy Benefit)	All	Yes	PerformRx	Not necessary (Pharmacy bills the Alliance directly)
Buy and Bill (Medical Benefit)	Alliance	Please refer to the list below for the Alliance delegate or check with the member’s delegate.	Alliance	Alliance
	Children First Medical Group (CFMG)		Children First Medical Group (CFMG)	
	Community Health Center Network (CHCN)		Community Health Center Network (CHCN)	

Please use the corresponding authorization form for the type of request:

- Medical Benefit:
  - Alliance Prescription Drug Prior Authorization (PA) Request form
- Pharmacy Benefit:
  - PerformRx Medication Request Form (Alliance Group Care)
  - Request for Medicare Prescription Drug Coverage Determination (Medicare)

**Please Note:** Drugs covered under the Medical Benefit are medications that are given at a provider's office or clinic, while drugs covered under the Pharmacy Benefit (outpatient prescription drugs) are received at a retail or specialty pharmacy.

## Filling Your Prescription at a Network Retail Pharmacy

In most cases, you can fill prescriptions at any network retail pharmacy, except for prescriptions for a specialty drug. To find a network retail pharmacy, please use the Alliance Provider Directory, or visit the Alliance website at [www.alamedaalliance.org/help/find-a-pharmacy](http://www.alamedaalliance.org/help/find-a-pharmacy).

You can also call:

Alliance Member Services Department  
Monday – Friday, 8 am – 5 pm  
Phone Number: **1.510.747.4567**  
Toll-Free: **1.877.932.2738**  
People with hearing and speaking impairments (CRS/TTY): **711/1.800.735.2929**

## PerformSpecialty Pharmacy

PerformSpecialty is the Alliance specialty pharmacy for and Alliance Group Care members. Retail pharmacies may not dispense specialty medication for Alliance Group Care members.

Please refer to the attached Medication Formulary list of available medication from PerformSpecialty. Certain medications are only available from specific distributors and not PerformSpecialty. The clinic can purchase these medication directly from the distributors and bill the Alliance or have the distributor bill the Alliance. These medication, along with the name and contact of the alternate distributors, are listed on the Limited Distribution Drug List.

Prior authorization (PA) is required for new specialty medication orders and for renewals (usually annually). The same review process is used for specialty medication orders as is used for other retail medications that require a PA.

Prior Authorization (PA) process for PerformSpecialty:

- The prescribing doctor will fax the appropriate medication request form to PerformRX (please see above).

- The Alliance will process requests within **24 to 72 hours** from the time received.
- A notification of the decision will be sent to the doctor's office/clinic and Diplomat.
- Upon approval by PerformRx, PerformSpecialty will call the doctor's office/clinic to obtain the prescription and dispense the medication by mail.

## Contacts for Additional Information

For the complete list of specialty drugs provided by PerformSpecialty, or questions related to dispensing of the medication, please call:

PerformSpecialty Pharmacy  
Toll-Free: **1.855.287.7888**

For questions related to prior authorizations (PA), please call:

PerformRx  
Toll-Free: **1.855.508.1713**

For questions related to specialty drugs from PerformSpecialty, please call:

Alliance Pharmacy Services Department  
Phone Number: **1.510.747.4541**
