

Full Medi-Cal Wrap Formulary

May 2019

Alameda Alliance for Health
**MEDI-CAL
 WRAP
 FORMULARY**
May 2019

The **Drug Formulary** is a list of covered and preferred prescription drugs for members. The Alliance reviews the list at least four times a year and makes updates as needed. This printable list may not reflect the latest updates. Members can search the current list online at www.alamedaalliance.org or simply call the Alliance to confirm if a drug is covered.

Medi-Cal members, please call Member Services at (877) 932-2738.

How to Use the Drug Formulary

To find a drug on the list, search first for what the drug will treat. All drugs are then listed by their generic or brand names in alphabetical order. Any drug not found in this Formulary list is a Non-Formulary drug. This Drug Formulary applies only to outpatient drugs prescribed to members. It does not apply to drugs used in inpatient settings.

Drug Coverage Requirements or Limits

The Medicare Part D Plan is the primary payor for prescription drugs. However, in limited circumstances, Medi-Cal will provide an additional “wrap-around” benefit for drugs not covered by the Part D Plan. The drugs covered by the Medi-Cal Wrap are listed in this Drug Formulary. The explanation for code is below:

Code	Meaning	Definition
QL	Quantity Limit	Coverage may be limited to specific quantities per prescription and/or time period
ST	Step Therapy	Coverage may depend on previous use of another drug
PA	Prior Authorization	Requires specific request process

Quantity Limits: For certain drugs, the Alliance has a limit on the number of pills that will be covered. In general, a 30-day supply is covered. However, if a member requires a drug in excess of the limit, a doctor can submit a Prior Authorization Form.

Step Therapy: In some cases, the Alliance requires members to first try certain drugs to treat a medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat a medical condition, we may not cover Drug B unless the member tries Drug A first. If Drug A does not work for the member, we will then cover Drug B. Doctors can request an exception by submitting a Prior Authorization Form.

Generic Substitutions: The Alliance has a mandatory generic program. This program promotes the use of generic drugs over brand when medically appropriate. A doctor may write a prescription for a brand name drug and not a generic due to medical need. In these cases the doctor must submit a Prior Authorization Form.

Prior Authorization Process: To prescribe drugs that are not in our Drug Formulary or that exceed the plan quantity limits, a doctor can submit a Prior Authorization Form. The Alliance reviews these requests and asks for more details if needed. We will inform the doctor of our decision within 24 hours (1 business day) for all requests.

Therapeutic Interchange: The Alliance may, with a doctor's approval, change the drug that the doctor prescribed to a drug on the formulary that is the same in effectiveness and safety.
